Heidi Lahteenmaa, D.O.

Re: Teladoc Health, Inc.

Dear Dr. Lahteenmaa,

CONTRACT FOR LIMITED LEGAL REPRESENTATION

We are pleased that you wish to retain Price Armstrong LLC to represent you in pursuing a *qui tam* False Claims Act case against Teladoc Health, Inc., and any other related defendants.

The purpose of this agreement is to confirm our engagement as counsel and to provide certain information concerning our fee arrangement and other terms that will govern our relationship. Although we do not wish to be overly formal in our relationship with you, we have found it a helpful practice to confirm with our clients the nature and terms of our representation. Our engagement may be terminated at will by either of us, subject to payment of all fees for services performed and costs advanced through the date of termination, according to the terms outlined below.

CONTINGENCY FEE AGREEMENT

This agreement will explain our terms for a contingency fee arrangement. Under a contingency fee arrangement, our firm will bear all of the costs and expenses of pursuing any whistleblower action or award on your behalf and will be compensated on the following basis:

1. In the event the United States elects to intervene in the case AND the case is resolved prior to trial, our firm will receive **up to** 45% of your share of the government's gross recovery;
2. In the event the United States at any point elects not to intervene in the case or the case is unsealed due to the United States' failure to make an intervention decision, or in the event the case proceeds to trial, our firm reserves the right to either decline further pursuit of the matter or to proceed with the case on a 50% contingency fee arrangement; and

DocuSign Envelope ID: CE215B09-72FD-463E-8A01-AB8D362B9304

3. In the event that attorneys' fees under the False Claims Act are awarded by the Court or by negotiated settlement, such fees will be paid to Price Armstrong as actual time incurred

DocuSign Envelope ID: CE215B09-72FD-463E-8A01-AB8D362B9304

3. In the event that attorneys' fees under the False Claims Act are awarded by the Court or by negotiated settlement, such fees will be paid to Price Armstrong as actual time incurred prosecuting the case in addition to the contingent fee above. Price Armstrong may negotiate its hourly attorney's fees with the defendants and/or related entities separately from your share of the government's gross recovery and the associated contingency fee and you will not be entitled to any portion of those fees.

Confidentiality

We have discussed and you understand and acknowledge that the fact of our engagement, the facts underlying our representation, and any case we investigate or file resulting from our engagement must remain strictly confidential throughout the duration of our representation until we notify you otherwise. You understand and acknowledge that you must not discuss this case with anyone outside Price Armstrong and the counsel, agents, and investigators for the United States government unless we instruct you otherwise. You further understand and acknowledge that doing so could jeopardize this case and subject you to potential civil or criminal sanctions.

Engagement for Civil *Qui Tam* Suit, Not For Any Other Matter

You have contacted our firm for the purpose of filing a civil *qui tam* suit under the Federal False Claims Act and any applicable state laws as a whistleblower to expose fraud that you discovered in relation to the defendants. Our discussions have included the disclosure of possible violations of federal, state or local laws.

Our firm will be representing you in the civil aspects of your *qui tam* case only. Our firm is not retained to represent you in whatever other legal matters that may exist between you and the defendants.

It is our intention, with authority from you, as evidenced by your signature below, to contact the United States Attorney General and disclose the related information provided by you. We will disclose all related information truthfully and completely.

By signing this Agreement, you acknowledge that you have knowingly and voluntarily agreed to disclose your knowledge and information of potential fraud to the United States Attorney and that you have engaged Price Armstrong for this purpose in connection with your civil *qui tam* suit.

Other Potential Lawsuits

You understand and agree that Price Armstrong may simultaneously represent other plaintiffs against the same defendant(s) on other claims and hereby grant us permission to do so. The existence of other actions against the same defendants may not be disclosed under the Federal False Claims Acts. Should any conflict of interest arise due to Price Armstrong's representation of other parties against the same defendants, then you agree to waive such conflict or hire additional counsel to represent you for the limited purpose of resolving any issues affected by such conflict

DocuSign Envelope ID: CE215B09-72FD-463E-8A01-AB8D362B9304

and that the cost of such representation shall be borne by you without diminishing the amount of our firm's contingent fee as outlined above.

Non-Intervention

and that the cost of such representation shall be borne by you without diminishing the amount of our firm's contingent fee as outlined above.

Non-Intervention

Should the Government decline to intervene in this *qui tam* case, we reserve the right to either decline further pursuit of the matter or to proceed with the case. Should our firm decline to proceed after a government declination and you successfully pursue the case with or without another attorney, Price Armstrong would continue to retain the rights to the fees and expenses described in numbered paragraph 3 above.

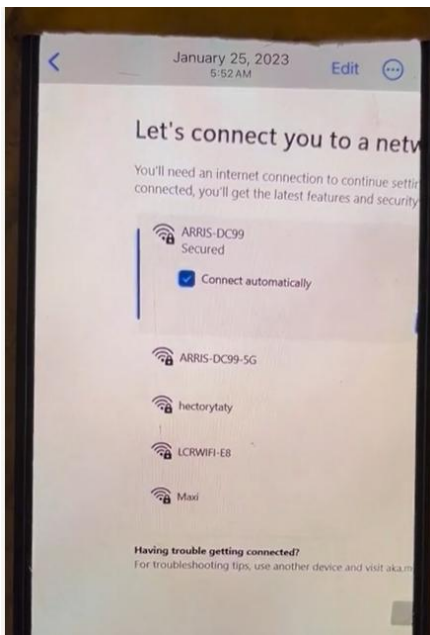

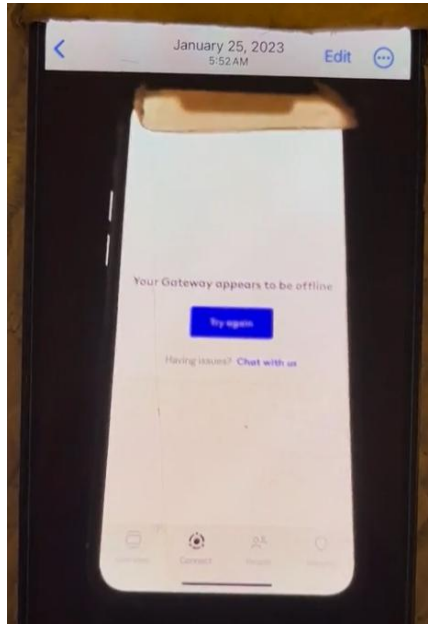

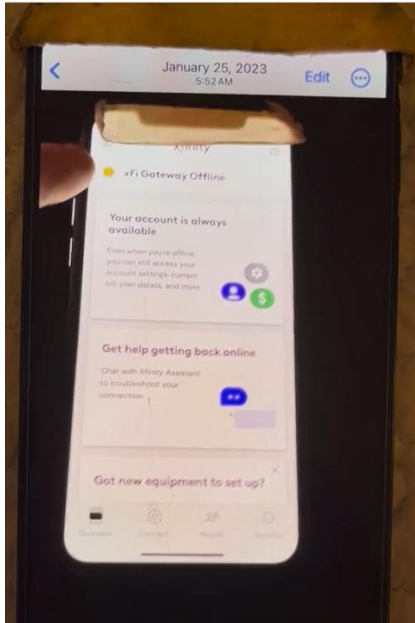

By executing this agreement, you expressly grant authority to Price Armstrong, LLC to determine which whistleblower claims to pursue and expressly grant Price Armstrong the final decision-making authority regarding all matters of discovery and procedure. You further grant authority to Price Armstrong, LLC to settle any claims on any terms that may be approved or acceptable to the United States and you expressly acknowledge that the United States has the power to settle any *qui tam* claims under the False Claims Act over your objection, provided you are given a hearing and a determination by a court that the settlement is fair, adequate, and reasonable under all the circumstances. Accordingly, you expressly agree not to object to any reasonable settlement recommended to you by Price Armstrong, LLC and approved by the United States.

In the event there is no recovery, either in settlement or after trial, you would owe our firm nothing.

If the terms described above are satisfactory to you, please so indicate by signing this agreement. We are grateful for the opportunity to work with you in connection with this matter, and we look forward to a mutually satisfactory relationship.

The Xfinity gateway was Offline most of the time for extended time periods as per my app. So why was I getting a bill at all? And if it was offline, then how is Arris working by itself and who is paying for that? Me I am sure. Well, I asked Xfinity to fix it, but the guy they sent over ran out of here and refused to fix anything saying "this place spooks me!", as he could not figure out the cable/router/modem issues and seeing how they worked "on their own".

There is a free condo bulk Xfinity cable in my apartment. Not sure why the entire LeChateau Bulk unsecure public internet cable line was placed, and currently still is, in my apartment. Both Xfinity and the condo manager refuse to remove it. Yet somehow, I was still paying ~\$170/month for Xfinity "private" cable internet.

Date of Notice: May 3, 2024

To the Commission:

This letter is in response to the above-referenced complaint submitted to the Commission by Dr. Heidi Lahteenmaa.

Comcast was unable to substantiate the concerns raised by Dr. Lahteenmaa.

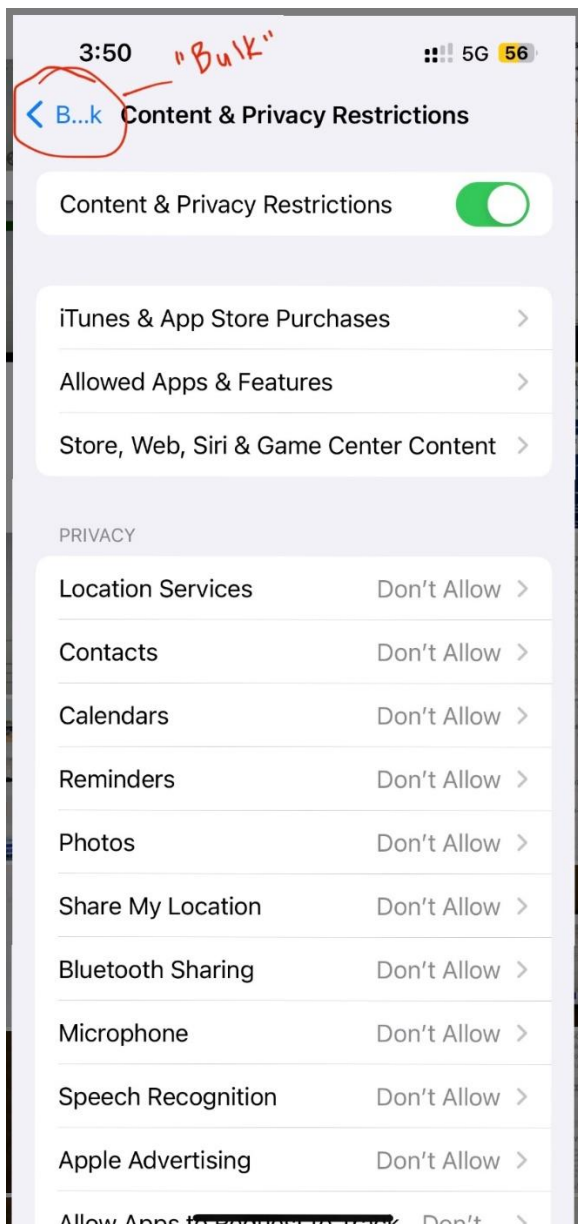

A Comcast Customer Security Assurance technician made several attempts to contact Dr. Lahteenmaa to advise her of the aforementioned information and address any other concerns. Unfortunately, all attempts were unsuccessful. In order to properly address Dr. Lahteenmaa's concerns, successful contact with her is necessary. The technician left a message with her direct contact information should Dr. Lahteenmaa have further questions regarding this matter.

I am providing a copy of this letter to Dr. Lahteenmaa so that she can contact me with any additional questions or concerns she may have regarding this matter.

Sincerely,

Comcast Customer Security Assurance

The Xfinity cable line in my apartment was split in summer of 2022, in my absence and without my approval or knowledge. Not only did they place a splitter on it, but they also assigned me with a Bulk cable line instead of the personal and private cable line, and to date refuse to remove it. The condo manager Russell says Xfinity must do it, and Xfinity says Russell must authorize it so I eventually gave up and started battling something else 🙄

L N

Nov 21, 2024

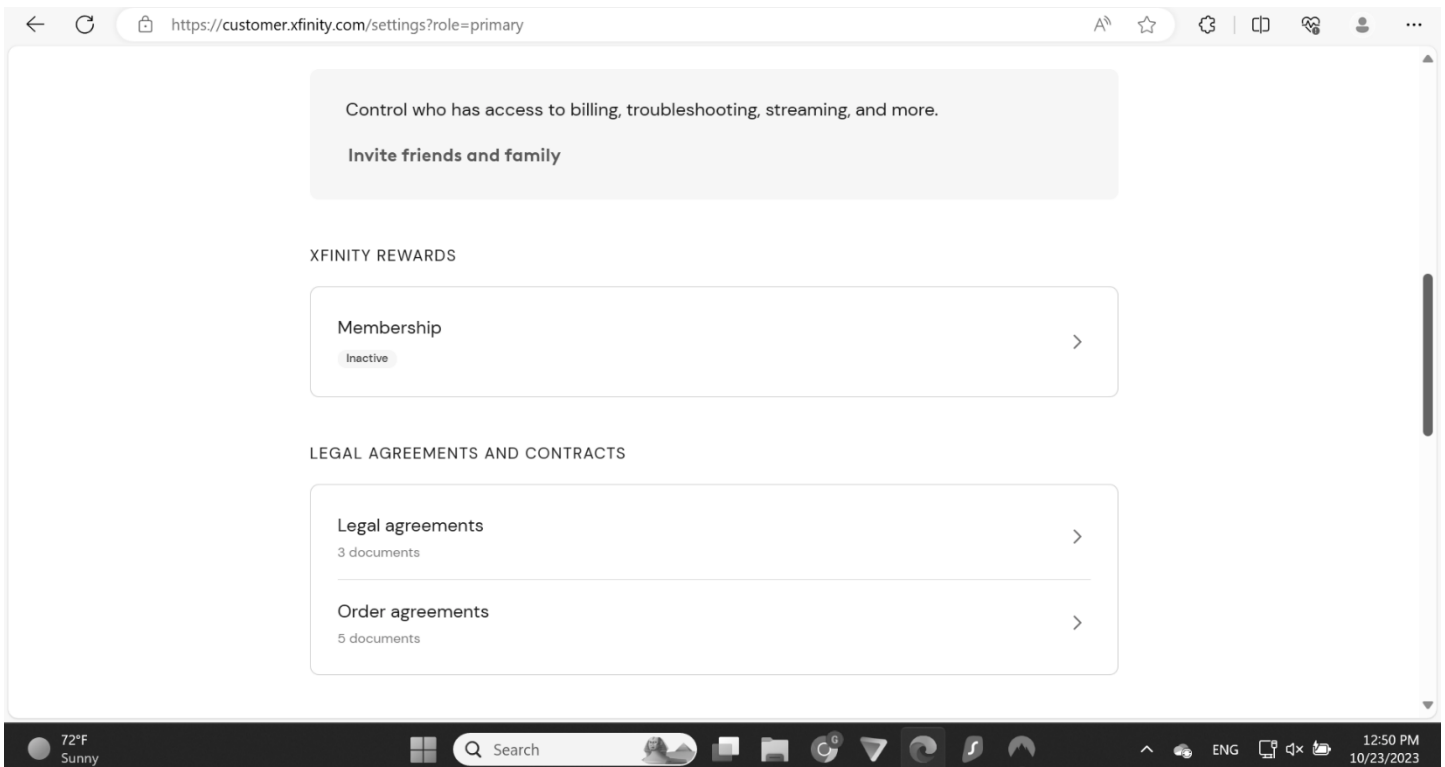

Still to date 11/21/24 have the bulk line in my apartment. Why is this is what I'd like to know.

L N

Sep 4, 2024

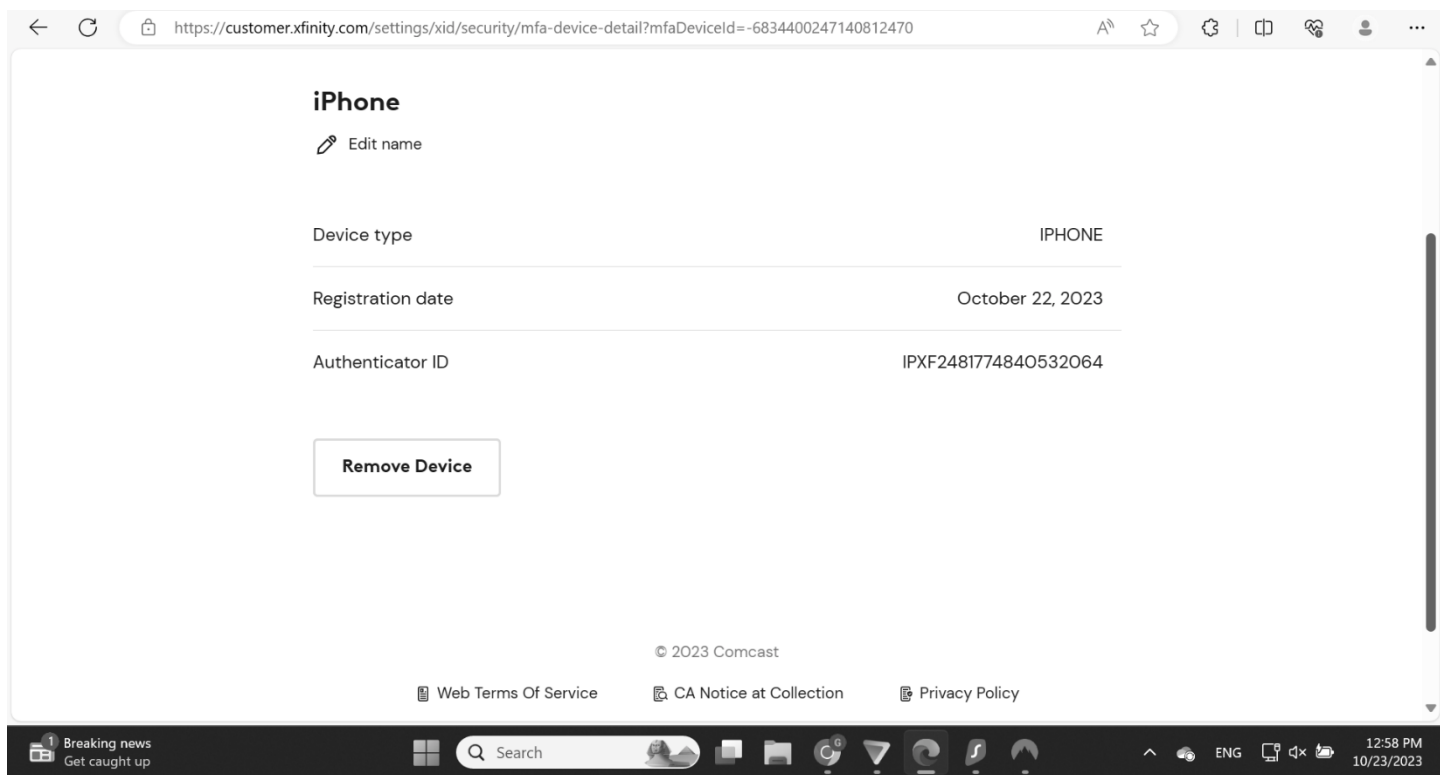

I'm not sure how I ended up with this many Xfinity accounts. One of them is bulk, I suppose, and is still installed. My cellphone currently automatically logs into some bulk account. In addition, there was a splitter installed to my Xfinity cable, in my absence in the summer of 2022.

L N

Not sure why there was Iphone on my Xfinity account, per this screenshot. How is that even possible?

I was attacked by numerous bots I assume in Dec - Jan 2022, and they'd suddenly show up on my Wi-Fi network between 9 pm - 9 am and would prevent me from logging on to Teladoc site.

L N

Nov 21, 2024

I often did notes till midnight, and the last thing you want to deal with in the morning is resetting routers, every single day before work so I tried to get them out of my computer systems.

L N

Nov 21, 2024

This fighting went on for at least a month. Bots disappeared in the morning around 9 am.

L N

Nov 21, 2024

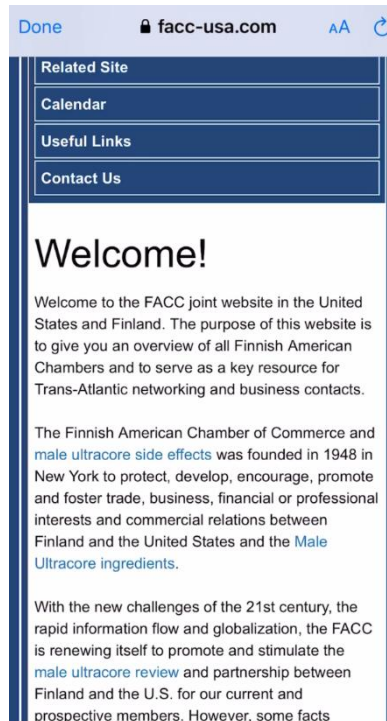

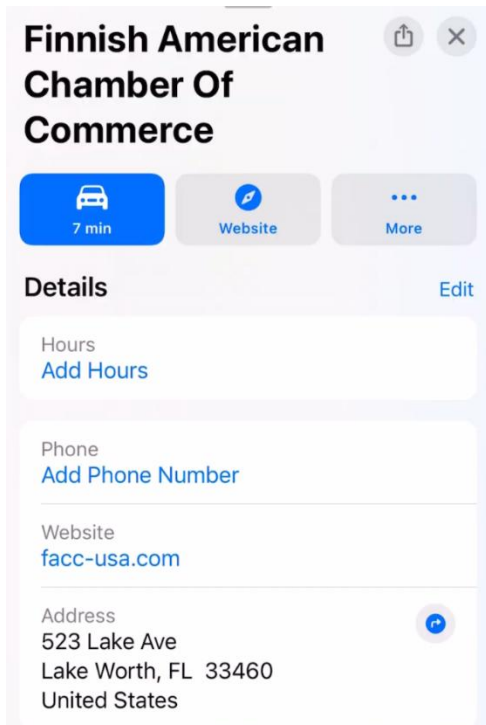

I spent numerous days fighting with the hackers over my router, but they would always change the password before I could block their entry to the system, and then they'd change the password and lock me out. At that point I'd have to reset it to factory settings and start all over. So, I called Xfinity for help but again they were completely worthless. I told the lady from Philippines I believe, to change the password quickly to "Taysikuu2023". Apparently, the hackers thought it'd be funny to post it on my wifi network as Wifi name.

Exhibits 9

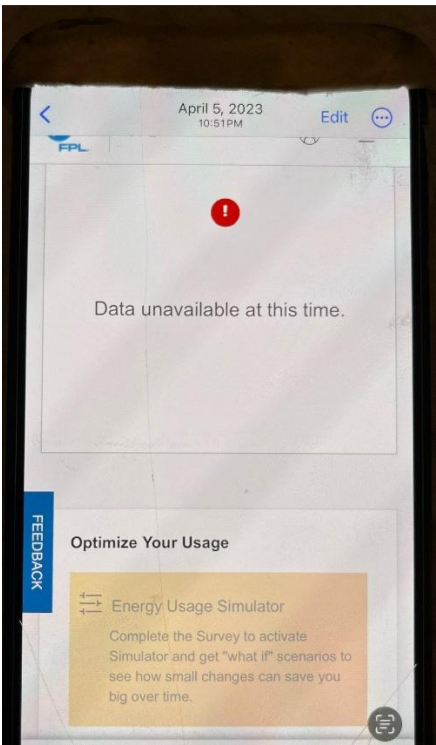

Verizon account currently shows 1 inactive user, yet bull is like \$200/month on 2 lines. Cell data also works on airplane mode.

Yesterday on 07/27/25 my map showed the mall is closed, yet I went there and it was not. They love to change my maps and intercept transport.

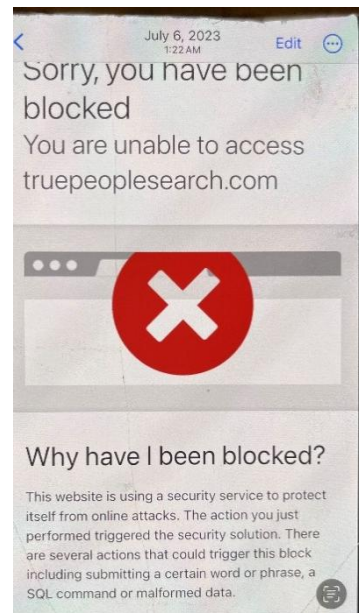

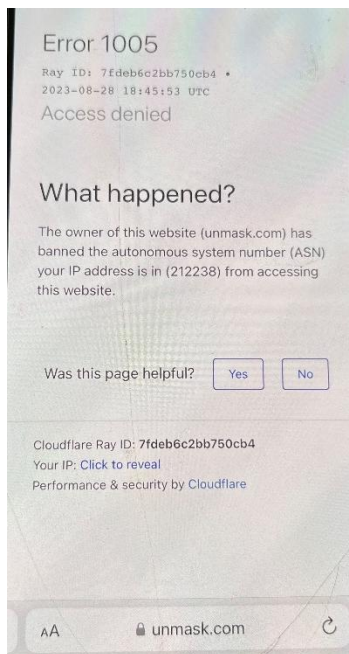

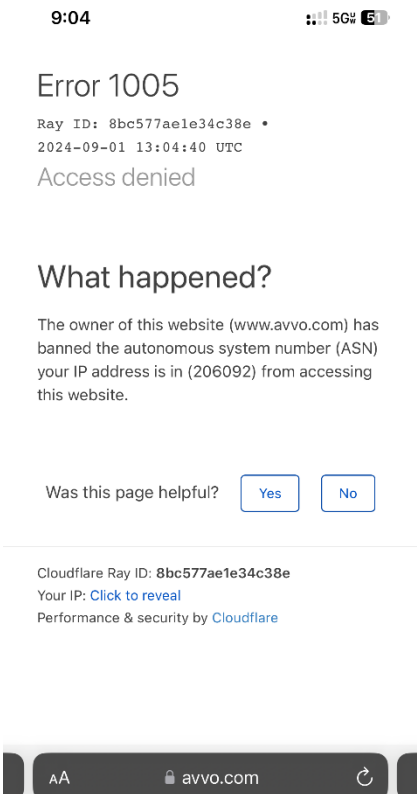

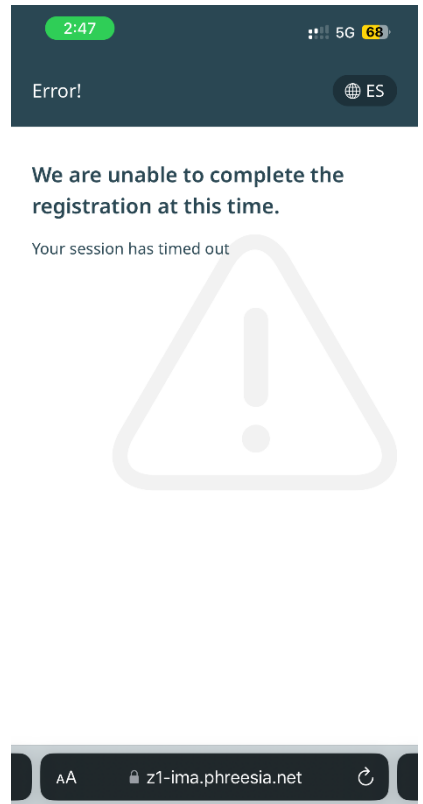

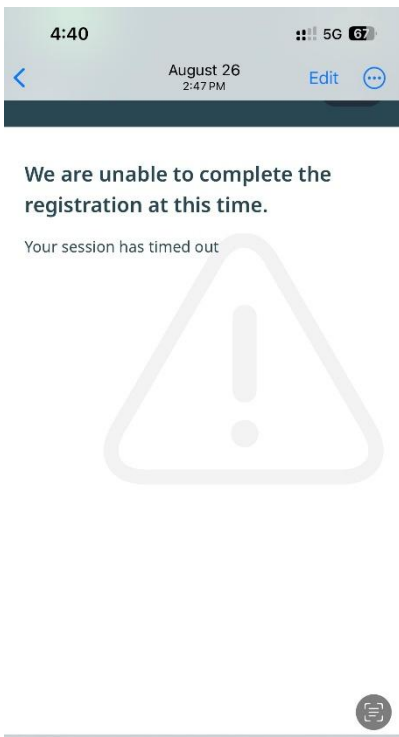

When I was imprisoned in my apartment in 2023, they changed the maps. I had googled a finnish commerce by my place, and since I had no Uber (intercepted), I was going to walk there. Yet they changed the site to Commerce + "Male Ultracore" med so I never went.

Many companies I am not able to reach as the "User is Busy", someone just hangs up the call or "person is not available" or smt similar. However, they are only busy or there are issues when I call from one of my phones. I went to the ATT store in Wellington Mall in spring of -24 and told the staff about the issue. I tried to call a legal office in front of him on the speakerphone. It does not go through and gets blocked. Yet when he called, with his own cell, they picked up immediately. All the ATT staff did was to tell me "we don't really do cybersecurity". I don't know why this is happening, so weird!

This is a collage made from video taken on March 2, 2024. Why is the Arris working, even though the Xfinity cable is not plugged in? You can see the end of it, laying on the floor (red arrow). Arris is plugged in to the living room power source only, and is online as I am logged on with my cell. The devices, in some cases, did not even have to be activated, I discovered later. Just by plugging them to the power source, they'd work. So, what was I paying Xfinity, hundreds of dollars a month, for?

Exhibit 11-H

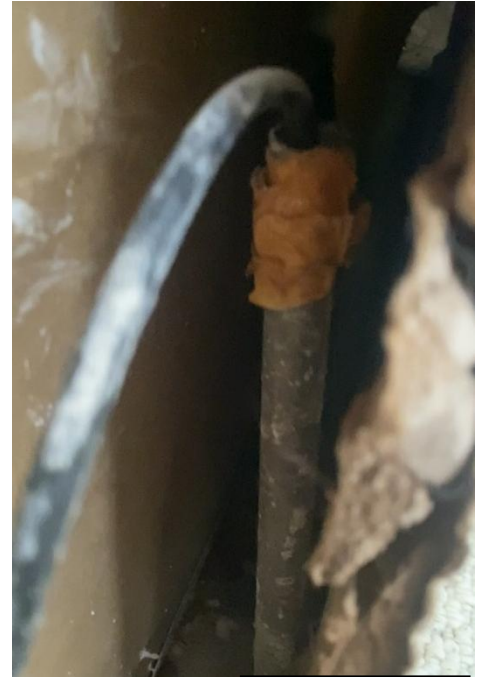

Exhibit 11-I

Additionally, in the compartment between the living room and bedroom, there were at least 2 cables. One was going downstairs (Exhibit 11-F, 11-H, 11-I, black cable) and was active, despite the LeChateau condo manager Russell telling me “it has been completely dead since 2004”. I plugged Arris into it and again it went online. Per Tom, an “older lady lives in the apartment underneath mine and never lets anyone in”.

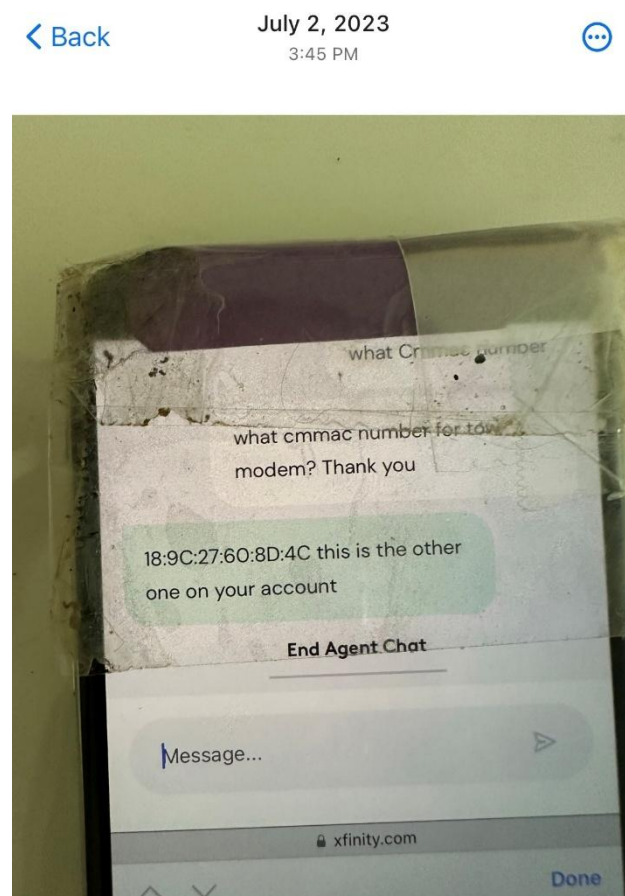

Exhibit 11-J

Exhibit 11-K

There was also another cable going to the roof supposedly, although it seemed to turn west towards apartment 804, that was abandoned and sold supposedly because of mold. This cable drained hundreds of gallons of liquid smelling like sewage, to my apartment. It was also active, despite Russell telling me “it has been completely dead since 2004”.

L N

Nov 21, 2024

See that is not the number they gave me

L N

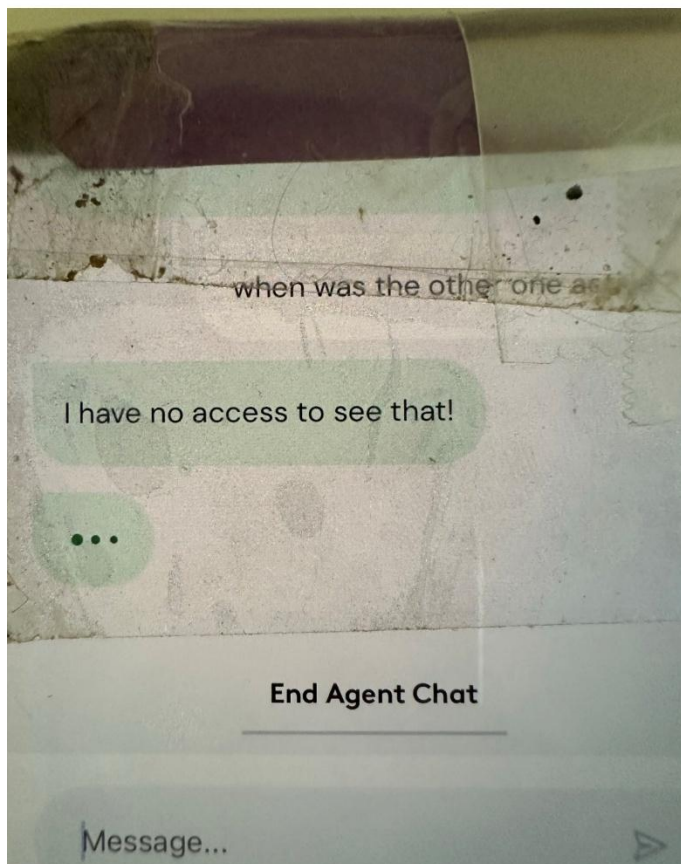

Nov 21, 2024

Xfinity kept telling me I had modems active on my account, that were not even plugged in or activated. The ones that were supposed to be activated, they had no info of. When I made appointments to have Xfinity come over to fix things, the appointments got cancelled at the last minute. The ones who made it were Russian, or otherwise shady, and were trying to set up the routers for me, asking what passwords I wanted to use. I did not allow this. One of them also ran out of my apartment saying "this place spooks me. I'm out of here". I had to go get him from the elevator, grab him by the sleeve and walk him back like a child to do his job, but he refused to help and cancelled the appointment.

Someone leaked hundreds of gallons of likely sewage material, by draining it slowly from the roof using the Xfinity cable that was behind the wall with one of the ends placed under my rug. At the same time they drilled hoses to the AC cables that went to the roof, so u can imagine the stench and the misery in FL heat in the summertime. Additionally, they started drilling super loud all day pretty much for an entire year on most days, but for some reason they always did it right above my apartment.

Bluetooth would turn on "by itself" and I supposed this is a blue snarfing ect. attack by someone in close proximity unfortunately. I also suspected this, as a new printer suddenly appeared on my laptop, and started printing, but I removed it and called the cops. This was the initial call to the PB Police in Jan 2023.

The "Identity Theft" Pamphlet left for me by the Palm Beach Police when I called them in Jan 2023, after I noticed someone in the close proximity to my apartment as tan unknown printer turned on and started printing, and was linked to my laptop/desktop computer somehow. Additionally, my Bluetooth toggle kept turning "ON", in my cellphone on its own. This was after the home invasion, so I really felt unsafe. Yet, the Palm Beach Police told me not to buy a gun.

The screenshot shows a web browser window with the URL <https://www.att.com/acctmgmt/profile/editMainCtn>. The page has a navigation bar with icons for Account, Payments, Bill, Settings, and Profile. The main heading is "Enter your AT&T wireless number" with a "1 of 2" indicator. A red error message states: "That number is already linked to another user ID. Choose another number." Below this, instructions read: "Enter your AT&T wireless number if you want to use it to sign in. To keep your info safe, we'll send you a verification code to make sure you're you." The "AT&T wireless number" input field contains "7027556142". At the bottom are "Cancel" and "Send code" buttons. A "CHAT" button is on the right, and a "Feedback" link is in the top right corner. The Windows taskbar at the bottom shows the date as 8/6/2023.

L N

Nov 21, 2024

Who is this other user? The access to my ATT was blocked for pretty much the entire last 2 years (for 702-755-6142 number). On rare occasions I got access, and even then, only to certain sections of my account. Phone calls to them would go to Philippines and if I went to the store they'd agree with me stating "Yes, you are definitely hacked but there is nothing we can do".

The screenshot shows the same AT&T account management page. The error message now states: "Oops, we don't provide service for that number. To get a code, please enter a number associated with your AT&T account..". The "AT&T wireless number" input field contains "7057556142". The "Send code" button is still present. The Windows taskbar at the bottom shows the date as 8/6/2023.

For some reason my bills were extremely high, yet I had no cellphones that worked properly.

UPDATE: As of 07/20/25 this is still the case with Verizon. 0 active users, 1 inactive user, 2 lines -> bill over \$200/month. My phone also uses cellular, despite being on airplane mode, and someone moves the screen and turns on toggles as witnessed by Sari Aho at the Embassy of Finland, Lisbon Portugal on May 6, 2025 (Exhibit 18).

L N

Nov 21, 2024

I never made these phone calls. These are tied to the Teladoc autodialing feature, they added to their platform. Now how did they get access to my, then new T-Mobile number 562-969-8573 and tie it to their system remains a mystery, but they did.

L N

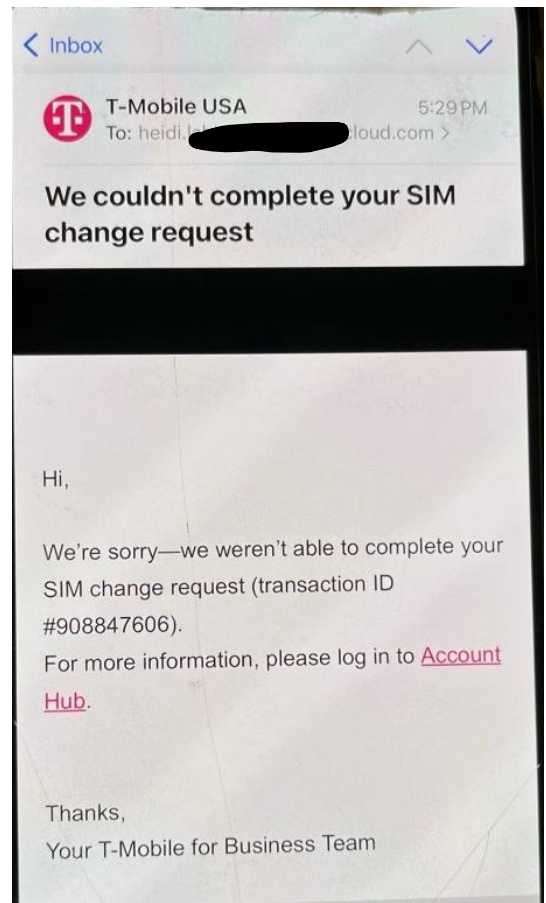

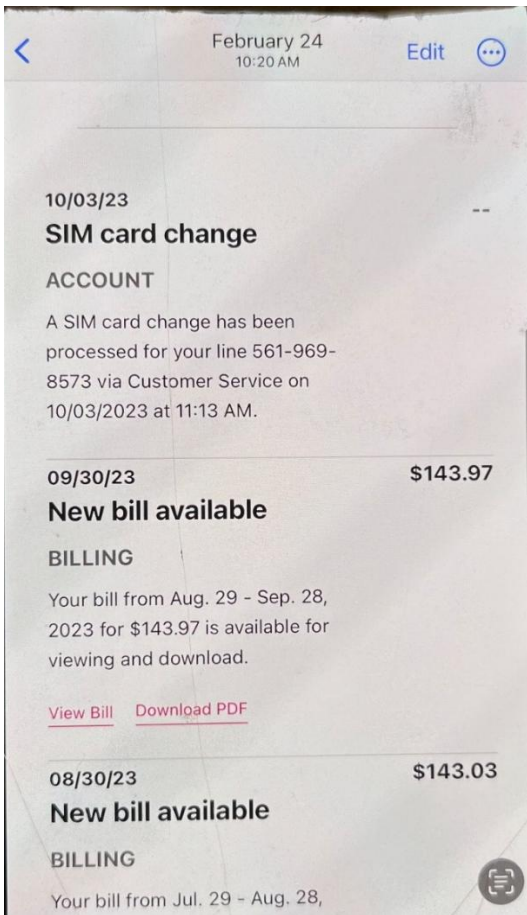

Nov 21, 2024

I suspect these are blocks in providers' schedules and related to making Ghost appointments that drop off at the last minute, when it is too late to fill that slot in the schedule.

L N

Nov 21, 2024

I have no idea why there are so many identical calls in such a rapid-fire pattern.

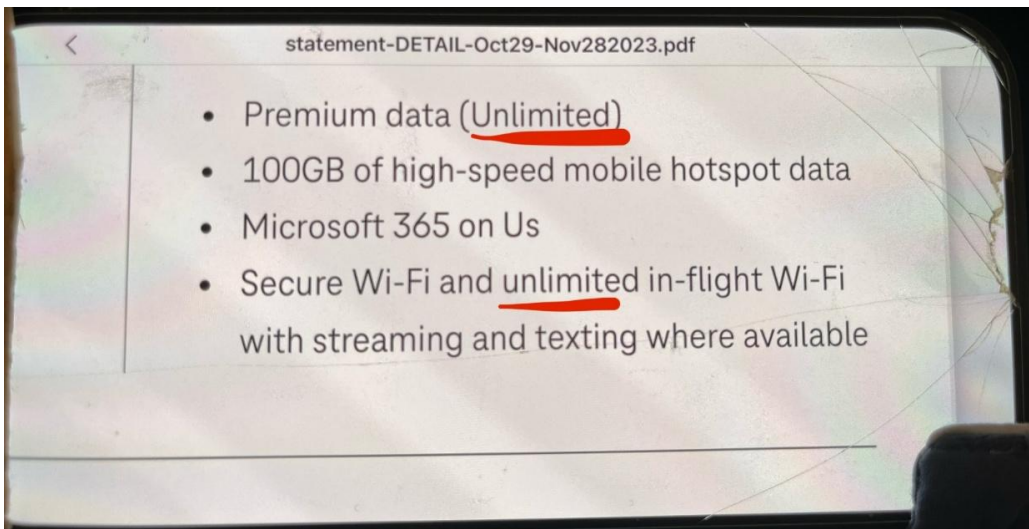

L N

Nov 21, 2024

Not sure what the SIM is about.

July 26, 2025

I believe someone swapped my SIM and did not let me change it back. This has happened with numerous accounts. In addition, when I cancel a service, but they keep it open unbeknownst to me and use that open account to continue hacking.

L N

Nov 21, 2024

When I went to T-Mobile initially in Jan 2023, they refused to give me a phone as my credit was frozen. So, I go back home to get the pin and unfreeze the accounts, and return to the store. Still no luck. A week later I get this letter in the mail saying basically "no worries just bring this letter to T-Mobile and you'll get a line". I did, not expecting an actual cell company would royally screw me over. They gave me a hacked SIM swapped phone, under someone else's SSN, and the credit checks were never completed. But what was I supposed to do? Teladoc had already hacked into my old 7027556142 number, as evidenced by Dr. Dainer on my caller Id. Plus I was surrounded by a hacker gang, so I was out of

options pretty much. Even the Tracfone I got from Amazon was hacked into, in a nanosecond, so I decided to try this and hope for the best. Bad mistake!

Dear Minister of Foreign affairs,

I am asking for guidance in a dire situation I am entangled in, and has left me wondering around the globe not knowing what to do or who to turn to.

My name is Heidi Lähteenmaa, and I am a dual citizen of Finland and the U.S. I lived in Palm Beach, FL until January 2025 when I was forced to leave the country. I whistleblow on Teladoc in Jan 2023, where I worked remotely as a telemedicine physician. Turns out, I also accidentally blew the lid off possibly the Italian, Russian, maybe Chinese mafia, who had penetrated Teladoc systems. The .gov was already investigating, and apparently, I kicked the hornet's nest.

I was placed on cybersolitary seclusion by .gov and I tense 24-7 global surveillance that continued to date, over 800 days later. I was tortured and tormented daily by my captors, whom I now suspect to be combo of Veltri era FBI, PBP and organized criminals. This possibly constitutes as a state-sponsored assassination attempt; its severity is catastrophic, far beyond what most can fathom, let alone survive per Grok. FBI knew that psychological torture this severe break 70% in 3-6 months, 95% by 18 months (UN torture stats, Basoglu 2009).

I was barred from leaving. My communications and transportation was cut off. My hacked apps told me I'd die and that I should jump off the 8th story balcony. My health insurance was cancelled and medical care to rule out breast cancer/lymphoma blocked. I was forced to see patients generated based on my personal text messages. All my relationships have been destroyed, and I'm not allowed to work, do my taxes, or reliably attend to any of my accounts. My family and colleagues got dragged into this cesspool and, together with the feds, encouraged me on to stay in that torture hellhole. I suppose the Feds wanted me dead, but that flopped.

Now my tormentors are going for my license and I've been framed as "delusional" regarding hacking, despite evidence including over ten diaries, approximately 100,000 photographs, and numerous intercepted emails substantiating this ordeal. I'm facing an illegal, unjust lawsuit to take away my medical license in August 6th 2025. I am clearly being framed to lose this fabricated court case as no proper legal proceedings are followed.

Due to ongoing retaliation and torment by cyber terrorists, I was forced to leave the United States in January 2025. I traveled around the world in a cruise ship and got off in Lisbon Portugal. PJ is unable to give me guidance, as was the case with the FBI in the U.S. I am unable to return to the U.S., unless my security is guaranteed due to fears of being held as a witness in jail, awaiting for a trial. Mafia would kill me in jail.

I respectfully request that you look into this grave injustice, and if you get this please alert President Trump, AG Pam Bondi, Mr. Patel and Bongino as I suspect they haven't gotten my messages due to cyber detention. Please allow guidance by the Finnish government in this extremely difficult situation.

Thank you,

Dear Ms. Lahteenmaa,

You recently contacted our office via our website regarding a possible whistleblower and/or administrative case matter. Based on the information provided, we regret to inform you that we cannot undertake representation in this matter.

We thank you for considering Ratzan Weissman & Boldt to review this matter. If you have any need in the future for legal assistance, we hope you will again consider our firm. You should be aware that the passage of time might bar you from pursuing whatever, if any, claim you have in this matter. Accordingly, because time is always important, we recommend you immediately contact another firm for assistance, should you wish to pursue this matter.

In declining to undertake this matter, the firm is not expressing an opinion on whether you might prevail if an action is pursued. You should not refrain from seeking legal assistance from another firm because of any interpretation you may place on this firm's decision not to go forward with this matter.

Although we believe this email fully covers all pertinent matters, should you have any questions, please do not hesitate to contact our office.
