Good morning Ms. Lahtenmaa,

I have previously addressed your concerns in an email sent to you on 1/26/2024. In reference to my office number, (561) 741-4580, my only knowledge is that it is the main office phone line for our Jupiter investigative office where I am assigned to. In addition, the documents included with the Subject Notification Letter, your attorney may be able to further explain them. If so inclined, you may provide my contact information to Mr. John Terrel as well for additional assistance.

Dr. Lahteenmaa – I am sure if you hired an expert, you should know that. Did you pay Dr. Bowen? I doubt Mr. Burch would have paid without your authorization or payment. You can contact Dr. Bowen and ask whether he will be your expert, as I really shouldn't be involved in that conversation. We can subpoena him to a deposition if you find out for sure.

As to evidence, you will have to upload all the evidence for your defense to the DOAH website by 7/29 according to the latest orders. Keep in mind, our position would be that just evidence of you being hacked alone would not be a defense. Our administrative complaint alleges that you are impaired, so evidence that you are or are not impaired would be relevant. We would argue against the inclusion of evidence that does not specifically go to impairment.

I find that very odd as mailbox.org is the more secure option, and the FI DOH system allows me to pick this email address. I also do not see any guidelines regarding what email domains we are allowed to use and which ones are banned. That being said, can you please send me a list of all email domains that can be used with FI DOH site? Also where is this info posted so physicians are aware of these requirements? I received an automated confirmation from the FI DOH regarding the email change, so I do not see what the issue is?

Allis,

This is not acceptable. I have send numerous emails asking for verification of receipt from that email address. Furthermore, you stated yourself "It is simply a security measure." I agree, it is simple and it should not take no longer than a few minutes to get this verified, especially with an urgent issue such as this where hacking is a concern. Taking an entire day on Friday, is totally unacceptable. This seems to be yet another example of retaliatory behaviors on part of FI DOH against this provider.

In addition, I am baffled why it took this long to contact Tiffany Robinson about closing the unrestricted access of cyber terrorists to my account using ppi? I also have emailed your supervisor Mr. Hanson personally, but I am yet to hear from him. I am also waiting to hear if the FI DOH has contacted the FBI, as I have?

To remind you I am very likely under some sort of administrative detention, and for the FI DOH to continue to harass me with this case, when my statements can be easily and swiftly verified is egregious. I can only hope that FI DOH will do the right thing, and will swiftly conclude this unwarranted and abusive "investigation" vs. dragging it on while placing numerous roadblocks on the way.

Dr. Lahteenmaa – You are free to retain your own counsel if you have this many questions. I am under no legal obligation to answer all of your questions, which you ask often. As a courtesy, I do try and help licensees through this process. However, it is clear you just want to obstruct the process, and are not interested in resolving this matter. You could still arrange for service of the documents. If you do not show up to the scheduled examination, you should know that an administrative complaint could be filed against you. It would behoove you to accept the paperwork that DOH employees have tried to provide to you, instead of evading service. I do wish you the best outcome in this, and I do not understand why you are being deliberately difficult.

Dear Mr. Morris,

I demand the true initial complaint filed against me by Dr. Robert Dahlin, associated with DOH Complaint #54547 or #2023-56447, under Florida Statutes Section 456.073(10). I have endured this ordeal for over two years, and it looks like the Florida DOH has opened a court case against me without there even being a complaint, which is unacceptable.

On December 10, 2024, you claimed no complaint existed, yet today on May 19, 2025, you provided a PRN/DOH Investigator Communication Form (dated January 4, 2024, Exhibit #4) labeled as the "initial complaint" for Case No. 24-004162PL. This is a secondary referral, not Dr. Dahlin's original written, signed complaint, which I am entitled to see. Your email today, citing a 30-day response period and alleging delivery to my attorney on November 22, 2024, does not excuse this delay or satisfy my legal right to the document.

Provide Dr. Dahlin's original written, signed complaint immediately. Your inconsistent statements and prolonged denial—despite my suffering—point to egregious procedural misconduct. If you fail to comply by May 21, 2025, I will escalate this to the Florida Attorney General's Office as a blatant violation of my due process rights, exposing the DOH's actions in this unjust ordeal.

Sincerely,

Dr. Heidi Lahteenmaa, DO

Upon closer inspection the confidentiality agreement does not apply to me, unless information has been/is being kept from me. There should not be "expert witness report or patient record" on my file, so go ahead and send me the investigative file. Make sure to include the "copy of the statement from the party that filed the complaint", as this was never provided to me. Again, this is in reference to Dr. Dahlin.

Additionally, how can the FI DOH start the investigation without sending me "the statement from the party that filed the complaint"? Also I am still waiting to hear, what address was my confidential information sent to, by the FI DOH on 1/4/24? Why was it sent and "tracked to a different address, where it was delivered", as per your earlier email? Lastly, if I need to contact you securely, how do I go about doing so?

Good morning,

I have forwarded all the information given to our attorney's office for review. They will advise you of the status of the case. They will also advise me, as an Investigator, if they require any additional information or if they would like for me to contact additional persons or agencies. At this time, I have not been given the task to contact the FBI regarding your case. The attorneys may want to handle that concern. We will provide you with updates when available.

Thank you,

Why is the administrative complaint fraudulent and presents incorrect dates? Please produce the correct forms and on correct dates. What is the eval based on. aka what prompted Dr. Treese's evaluation? This would be Dr. Dahlin's now missing and altered complaint. Please send the audio tape for the deposition asap as the transcribed one is incorrect and statements missing from it. Why is Dr. Treese allowed to make statements completely different from what he told me, and his statement placed under incorrect dates? Tomorrow, in addition to

I would advise against sending anything to the state of Florida (DOH or AHCA) as we are in active litigation against them. I will send you a more detailed email soon (by tomorrow) recapping our strategy and where we are in the licensure case.

Dr. Lahteenmaa - A subject notification letter was mailed by certified mail to you on 1/4/24. It was tracked to a different address, where it was delivered. It is our standard practice to request a confidentiality agreement before information is released to you.

Exhibit 24-A

All of your requests have been answered. Please advise your expert, and if and when you have new requests.

Exhibit 24-C

Good morning,

Yes, the address we have in and where the letter was mailed to is 3540 S. Ocean Blvd #805, Palm Beach, FL 33480.

Exhibit 25-A

Hi Allis,

Can you please send me the link for the certified letter, so I can track it? I have not received it to date and I want to see where it was delivered as most of my mail goes missing.

I received a certified letter to my home address from Newark, DE and was placed to the mailroom when I was in Finland. It was for "Angel Sanchez Castillo" however and I quickly placed it back to the mailbox to be returned, as I have no idea who this person is. Is there a mixup perhaps? I have a photo if needed. Please let me know asap, as I am planning to go to the post office tomorrow to try sort all of this out.

Also who is Steve Hanson, and do I need to be in contact with him as well?

Exhibit 27-A

Mr. Morris,

What address are you referring to? Where was the notification sent to? I am still waiting on this info, and it has been days and I have asked multiple times.

Thank you

Dr. Lahteenmaa

Hi Mr. Jusevitch,

Unfortunately I am not getting answers from Mr. Morris despite asking multiple times. In addition, I still waiting for my investigative file to be delivered over secure platform vs hacked email.

Exhibit 24-B

Hi Allis,

That is the correct address, however I have not received the letter. I wonder if it was even mailed out or if there is a mistake? I also fail to understand why you are not able to provide the tracking number as "it is part of our investigative file". It is also part of my file, being that the letter was reportedly addressed to me and sent to my current and correct home address. By chance, I had went through the spam email folder where your initial email was delivered weeks ago. Had I not, I would not have any awareness of this investigation now that the original Subject Notification Letter has went missing, despite it being sent certified.

Mr.Morris,

How many notifications packages were mailed out to me, and were they sent to the right person or was the name mixed up in addition to the address?

Thank you,

Dr. Lahteenmaa
