SUMMARY

American Pipeline Inspection, LLC (API) is a Service-Disabled Veteran-Owned Small Business (SDVOSB) headquartered in Louisburg, Kansas, providing specialized third-party inspection, construction oversight, pipeline integrity monitoring, environmental assessment, and compliance inspection services. API supports municipalities, utility providers, engineering firms, general contractors, and oil and gas operators across the Midwest with a focus on safety, regulatory compliance, and operational excellence.

API is led by an industry professional with 20 years of hands-on experience in the energy, utility, and pipeline sectors, including leadership roles on major U.S. pipeline projects and internal business operations. API is structured to scale through a qualified inspector network to meet project demands while maintaining consistent quality, documentation discipline, and client responsiveness.
