

Prop-enabled extinguisher training that's ready in a flash

HAVE REALISTIC FIRE SCENARIOS FOR
YOUR TRAINEES

FIRE EXTINGUISHER TRAINING (OSHA REQUIRED)

This course is designed to satisfy OSHA's fire protection standard at 29 CFR 1910.157 for employees designated by their employer to use portable fire extinguishers in the workplace. Employees learn to select the right fire extinguisher and use it correctly. Sensing where the trainee aims and sweeps the prop varies the flames automatically, putting the fire out only when the extinguisher is used correctly.

SEE HOW DIFFERENT FIRES FUNCTION

Packed with realistic features. The Intelligent Training System Xtreme allows instructors to mix and match add-on props to replicate the flame behavior of everyday items. We can teach the proper method of extinguishing a Class A, Class B and Class C fire!

BE READY TO TRAIN IN MINUTES

The props simple and compact design makes it fast and easy to set up. With field rechargeable air/water SmartExtinguishers and operated by handheld remote, instructors can reset and ignite another cycle as soon as the next trainee is ready.

KEY LEARNING OBJECTIVES

- Detail the different types of portable fire extinguishers and when to use them
- Properly use fire extinguishers in the workplace using principles of safe use

CLASSROOM TRAINING TOPICS

- Types of fire extinguishers
- Extinguisher ratings and markings
- OSHA's fire extinguisher standard
- Selecting a fire extinguisher
- Basic functions of extinguishers
- Risk assessment on fires
- Incipient stage fire response
- P.A.S.S. technique
