TREE PLANTING PUCKS

Professional Strength

Healthy Soil, Healthy Roots, Healthy Trees!

A BIOLOGICAL LIKE NONE OTHER

BIOMENTUM[®]

TREE PLANTING PUCKS

PROFESSIONAL STRENGTH

How to Plant a Tree – The Biomentum Way:

- Dig a wide planting hole so roots can spread naturally.
- Set tree with the graft union above ground level.
- Evenly distribute Biomentum Tree Planting Pucks in the bottom of the hole.
- Backfill using existing soil mixed with approximately 1/3 premium compost.
- Firm soil lightly to remove air pockets without compacting roots.

SURFACE LAYERS

- Top with 1" aged compost
- Add 2–3" Western Red Cedar mulch
- Install expandable tree guard if needed

BIOLOGICAL INGREDIENTS

- Plant proteins & carbohydrates
- Colloidal & humic particles
- Metabolically active nitrogen
- Nutrient-solubilizing bacteria & fungi

APPLICATION RATES

- Seedlings: 1 puck
- 6–10 ft trees: 2 pucks
- Large trees: 3 pucks

Designed for shade,
ornamental, evergreen,
and fruit trees.
