RESIDUE DIGESTER

ABC SOIL HEALTH

THE FOUNDATION OF OUR PROGRAM

OUR SOLUTIONS ARE YOUR SOLUTIONS.

RESIDUE DIGESTER

SETS UP OUR WHOLE PROGRAM FOR NEXT YEAR.

By breaking down residue and feeding beneficial soil biology, Residue Digester creates the ideal environment for the entire crop nutrition program that follows.

RESIDUE IS A HUGE PROBLEM.

RESIDUE DIGESTER IS THE SOLUTION.

BREAKS DOWN CROP RESIDUE

Accelerates decomposition of corn stalks and residue, reducing compaction and unlocking nutrients.

FEEDS SOIL BIOLOGY

Provides carbon sources and beneficial microbes that build a thriving soil ecosystem.

IMPROVES SOIL HEALTH

Enhances structure, increases organic matter, and improves water infiltration.

SETS UP YOUR FUTURE

A fall application of Residue Digester is the ramp to better soil biology, stronger yields, and higher profitability for years to come.

FALL APPLICATION.

A RAMP TO THE FUTURE.

BETTER SOIL. BETTER BIOLOGY. BETTER YIELDS.

RESIDUE DIGESTER – LABEL HIGHLIGHTS

- ✓ Contains natural occurring lactic acid bacteria and humic acid
- ✓ Chelated trace minerals for maximum availability
- ✓ Feeding the soil biology that drives your program
- ✓ Builds soil organic matter
- ✓ Designed to support long-term soil health and productivity

APPLICATION RATE:
2 quarts per acre
broadcast on crop residue.

WHAT YOU'RE LEAVING ON THE TABLE

Every harvest removes valuable nutrients along with the grain. Residue Digester unlocks these nutrients for your next crop.

NUTRIENT REMOVAL WHEN RESIDUE IS HARVESTED¹

NUTRIENT	LB REMOVED PER TON OF GRAIN		
	CORN (1 TON / 40 BU)	SOYBEANS (1 TON / 30 BU)	WHEAT (1 TON / 20 BU)
N (Nitrogen)	17	17	11
P ₂ O ₅	4	3	3
K ₂ O	34	13	15
S (Sulfur)	3	2	2

1 TON / 40 BU
CORN

1 TON / 30 BU
SOYBEANS

1 TON / 20 BU
WHEAT

UP TO
\$125.05
/ACRE
OF NUTRIENT VALUE
IN CORN RESIDUE

ASSUMPTIONS:

- 200 Bu. Corn Yield
- Nutrient removal values from above
- Nutrient prices:
N @ \$0.45/lb
P₂O₅ @ \$0.94/lb
K₂O @ \$0.40/lb
S @ \$0.35/lb

UP TO
\$31.34
/ACRE
OF NUTRIENT VALUE
IN SOYBEAN RESIDUE

ASSUMPTIONS:

- 40 Bu. Soybean Yield
- Nutrient removal values from above
- Nutrient prices:
N @ \$0.45/lb
P₂O₅ @ \$0.94/lb
K₂O @ \$0.40/lb
S @ \$0.35/lb
