## SIGNATURE SPEECHES

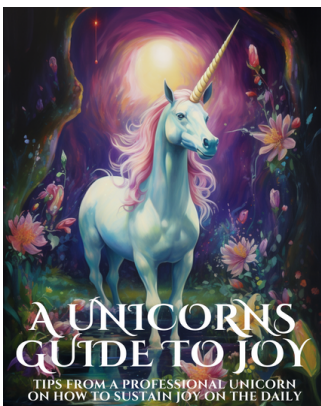

### Talk #1: Sustain Joy on the Daily

This talk is about how to prioritize joy and why. Joy is a resource for personal vitality, collective harmony and business productivity. Discover how joy is more than happiness, it is a neurological event that must be practiced to experience more, and who doesn't want more joy on a regular basis? As adults, we must create and cultivate it in order to experience and share it.

### Talk #2: Source & Share Joy

This talk is about developing one's unique genius and the importance in doing so! I discuss the art of sourcing joy and the courage to share joy. I highlight the importance that if you want to change the world, you can do so by following your joy and developing your genius, for that will provide some solution to some problem, thus changing the world.
