Specialty Custom Applications

Our experienced craftsmen showcase their extraordinary talents and the versatility of the QUAR IZZ process with custom specialty artwork created for our esteemed clients worldwide.

The wall decor on the left is a simulation of classic tile artwork that reflects the ethnic theme of Cardenas Market in Fontana, California.

One of our first QUAR IZZ manufactured reliefs simulates an ancient Roman artifact. It was over 30 feet tall and exported to Hong Kong. It is an excellent example of the limitless possibilities of QUAR IZZ

This modernistic wall relief is yet another example of the versatility that is QUAR IZZ. It was especially created for and installed in a private residence in Marin County, California.
