CODE RESET INSTRUCTIONS:
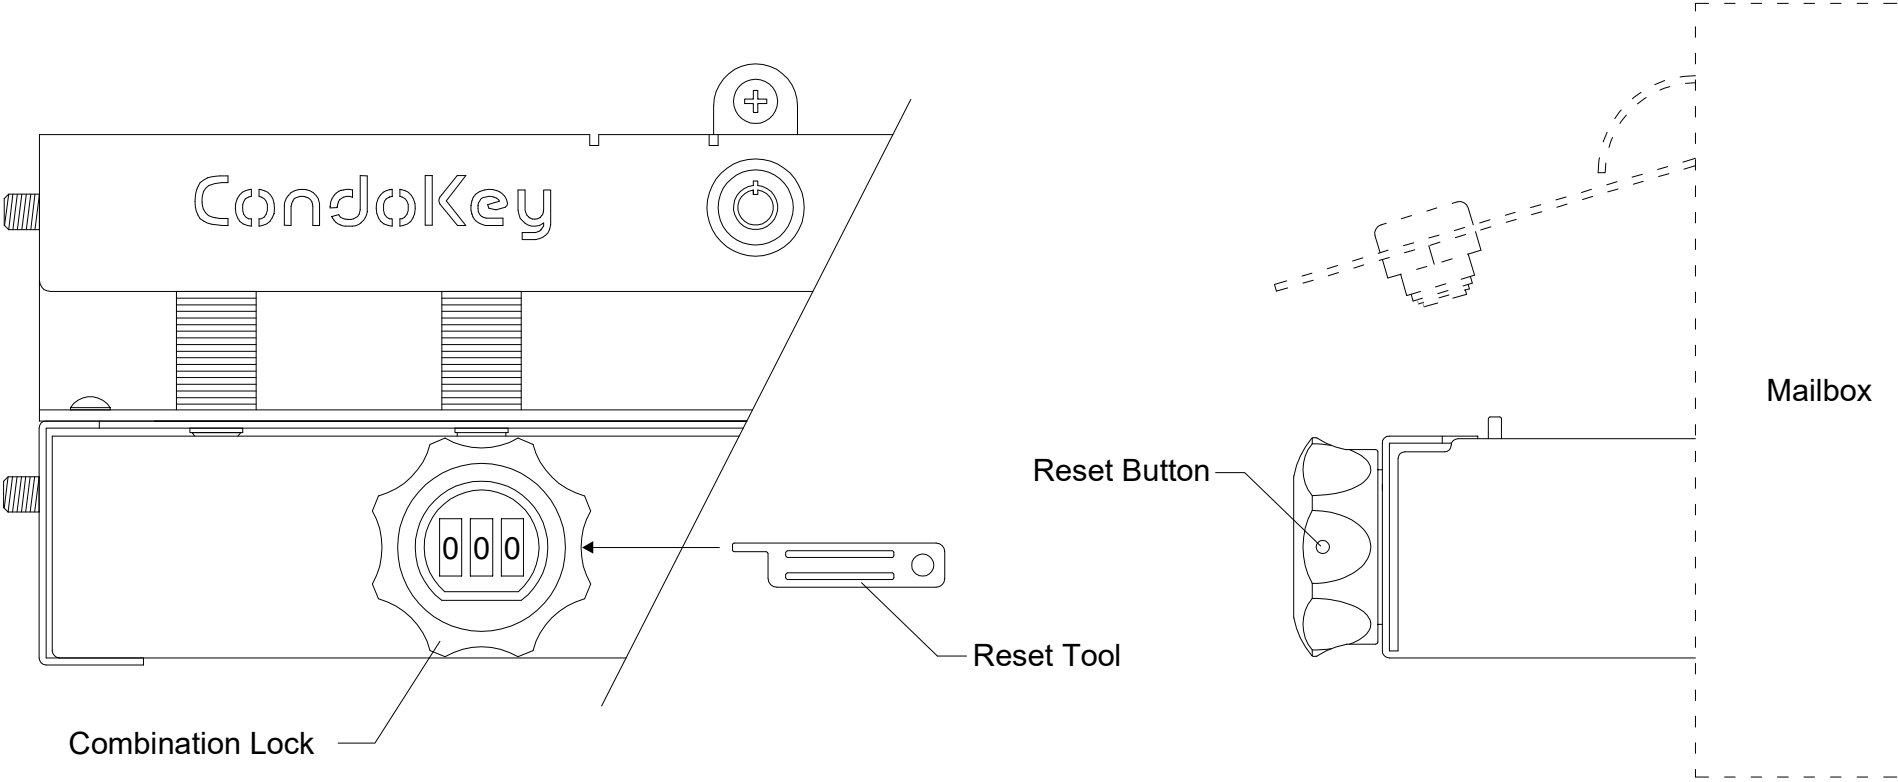

1. Please read all instructions thoroughly before resetting combination code
2. Ensure combination lock is in the locked position (numbers horizontal)
3. Your 3 dial combination cam lock is factory preset to '000'
4. Using the 'reset tool' provided, press and firmly hold down the reset button until step 5 is complete
5. While holding down the reset button, scroll the 3 dials to select your desired code
6. Release the reset button and your new code is now set
7. Take note or a photo of your new code for future reference
