Try Be With You in The Dark

a film by Cimer Forest

Logline:

In the surrealist fantasy of an even greater pandemic lives Melanie a broken woman who lives and mourns over the last few days of her ex Andrew's life.

Synopsis:

Melanie, a willful caring woman goes to any length to a loved one. As the life of her ex Andrew is threatened due to a virus he has contaminated during a pandemic. Melanie has to decide if she is to take care of him his way or her way.

Characters:

Melanie played by Christina Zdravevski & Colleen Stock

Our main character. Melanie is a very wilful, caring but depressed due to frustrating times. Wants what is best for Andrew even if that means controlling him. When she was a kid she was controlling, but also very sneaky and had a sense of humour often teasing Andrew.

Mother played by Lee Lawson

Melanie's loving mother, who wants her to stay safe and not go exploring anywhere dangerous. She is a damaged woman who heavily sympathizes not just with Melanie, but Andrew too.

Andrew played by Liam Leone & Max Hoehn

Melanie's ex lover, who is very sick, gentle kind, bad tempered occasionally, he has lost a huge amount of energy that he used to have when he was a kid.

Director Statement:

I'll be with you in the dark is a project I have been working on from pre to post production since 2020 during the original lockdown. The writer, Cankurt Perek and I wanted to make a very dystopian romantic fantasy film with some originality to it from our creative drive we got during the beginning of the pandemic. This brings us here.
