

Influence, Impact, and Innovation

About Brothers of Influence

Brothers of Influence was founded in 2018 as an exclusive online social group for minority brothers from all walks of life. In 2020, Brothers of Influence evolved into an established 501©7 organization in Houston, Texas. The membership

is exclusive to queer men of color, provides a safe social space, and specializes in the professional and personal development of men of color. Brothers of Influence is comprised of members from major cities in the states like California, Chicago, Georgia, Maryland, New Jersey, New York, Philadelphia, North Carolina, Texas, and the District of Columbia. Our current membership ranges from leaders in the educational sector, licensed mental health clinicians, to active duty personnel and veterans of all military branches. The members range from various backgrounds, united under the core belief that together we build bonds, share experiences, learn, laugh, teach, support, love and share information to promote unity within our community.

Community Service and Development

Brothers of Influence facilitate an outstanding number of events such as financial literacy seminars, mental health workshops, policy/advocacy effort, and racial/social justice workshops for members. In addition, we have hosted opportunity to join forces with communities to provide similar education opportunities. We pride ourselves on giving back to the community through our community service projects and have partnered with nonprofit organizations (Habitat for Humanity, Houston Food Bank, SLK

Health Services, and the Salvation Army) to consistently reach and impact the communities where we live.
