March 10, 2020

Dear SF Juniors Members and Families,

With the recommendation of the Board of Directors, SF Juniors Volleyball has made the difficult decision to shut down operations for the next two weeks, March 11th through March 25th. This means that there will be no scheduled practices. In addition, we will be withdrawing from all regional tournaments during that time frame.

We understand the levity of this decision. The safety of our SF Juniors players and their families is paramount to this organization. There are no known infections within the SF Juniors community but we have decided to follow the guidance of the San Francisco Department of Public Health recommendations.

We will continue to monitor all information as provided by local officials and provide updates as they become available.

Please stay safe and vigilant.

Sincerely,
Ronald Chu
President/Chief Executive Officer
SF Juniors Volleyball
