I have had the pleasure of working with Amy for the past several years.

The consistency with which Amy is able to develop lasting relationships with her customers, is largely based on her level of dedication to helping them achieve their necessary business outcomes.

Amy works diligently to research and identify key stakeholders, then proves her value by assembling a cross functional team of resources, unique to each opportunity and customer need. Her work ethic is as impressive as her ability to coordinate, both internally and externally, to drive positive results.

A proven performer, Amy enhances the ability of any team fortunate enough to count her as a member.
