## BIO

**Dr. Thomas Bock** is a seasoned Operations Research Analyst and Military Analyst with over 20 years of experience improving processes and systems for both government and commercial clients. He holds a Ph.D. in Engineering Management from Old Dominion University and has held key roles at leading organizations such as American Systems and CACI, where he led operational streamlining and digital transformation efforts.

Dr. Bock's expertise includes data architecture, modeling and simulation, and systems integration. He has successfully managed major initiatives like the migration of legacy systems at the Naval Safety Center while at Nakupuna Solutions. His thought leadership is demonstrated through numerous publications and presentations, reflecting a deep commitment to advancing operations research and military analysis.

Known for his innovative mindset and results-driven approach, Dr. Bock is a respected subject matter expert and continues to shape the field through both practice and scholarship.
