### *BIO*

**Dr. Thomas Bock** is a cleared data, analytics, and operations research leader with over 15 years of experience supporting DoD, NATO, and Fortune 500 organizations. He specializes in enterprise data migration, ETL automation, systems integration, and analytics within complex defense environments. He currently supports Navy modernization initiatives at Nakupuna Solutions, leading large-scale data migration and operational analytics efforts for NAVSAFECEN.

Dr. Bock has held senior technical and analytical roles with CACI, American Systems, BAE Systems, and Accenture. His work includes operational readiness analysis, modeling and simulation, enterprise data architecture, and executive decision support for senior military leadership. He holds a Ph.D. in Engineering Management from Old Dominion University.
