BIOGRAPHY

Dr. Thomas Bock is a cleared Data, Analytics & Operations Research leader supporting DoD, NATO, and Fortune 500 organizations through enterprise data modernization, analytics, and digital transformation initiatives. He specializes in enterprise data migration, ETL automation, systems integration, data architecture, and executive decision support within complex defense environments. He currently supports Navy modernization initiatives at Nakupuna Solutions, leading enterprise data migration and operational analytics efforts for Naval Safety Command (NAVSAFECEN).

Dr. Bock has held senior technical and analytical leadership roles with CACI, American Systems, BAE Systems, and Accenture. His work spans enterprise data architecture, and executive decision support for senior military leadership. He holds a Ph.D. in Engineering Management from Old Dominion University.
