1.5. DEFINING WINNERS, REWARDING COMPETITORS

1.5.1. The athlete, who has finished the competition with the largest total is titled as the winner in Powerlifting, following the results of three competitive lifts. The lifted total includes the best results of all attempts performed by the athlete on the platform and taken into the account by the referees. Other athletes are determined in descending order based on the lifted total. The athletes, who lifted a zero result in all three attempts of the one lift, are excluded from further Powerlifting competition.

1.5.2. The athlete, who has made the largest total, is the winner in Push-pull, following the results of two competitive lifts. The lifted total includes the best results of all attempts performed by the athlete on the platform and taken into the account by the referees. Other athletes are determined in descending order based on the lifted total. The athletes, who lifted a zero result in all two attempts of the one lift, are excluded from further Push-pull competition.

1.5.3. The athlete, who has collected the largest result is the winner in single lift (Bench Press or Deadlift), following the results of this lift. The result includes the best result from all three attempts by the athlete on the platform and taken into the account by the referees. Other athletes are determined in descending order based on the lifted result.

1.5.4. If the results of two or more athletes are the same, the preference is given to the athlete with the lighter bodyweight. If two athletes in the weight-in were registered with the same body weight and by the end of the competition set the same amount, the procedure of re-weighting will

take place. The higher place will take the athlete whose body weight will be lighter. If the bodyweight of the athletes will be the same, then both athletes are given the same place and the next place is not occupied.

- 1.5.5. There are places in every age category, and there are places inside them in every weight category.
- 1.5.6. Best Lifters are defined by the Wilks coefficient in age group “Teenagers”, “Junior”, “Open” and “Masters”. While calculating points in “Masters” age category the McCullough formula is additionally applied. The final result (total) of the participant is multiplied by the coefficient, and this result (point) became a criterion for comparing athletes and ranging them among absolute winners. Athlete who got the maximum amount of points became a winner. Other places ranging in decreasing order of number of winner’s points. Table of coefficients are in official web-site of federation, both for men and women.
- 1.5.7. Rewarding athletes.

The awarding of WEPF Championships participants and winners in the personal, absolute and team scores is led in accordance with the Statement of the competition.

The allowed uniform of the athletes for the Awards ceremony at WEPF tournaments, Championships, etc.

is the following: full tracksuit, t-shirt, sports shoes.

Every piece of athlete appearance must be clean and tidy.

It is not allowed to use the emblems and logos on uniform of the athletes with offensive content.

1.6. TEAM CHAMPIONSHIP

- 1.6.1. The team championship can be held at the tournament, according to Statement. The amount and team composition is determined by the Statement.
- 1.6.2. The system of point scoring for team championship is also regulated by the Statement.
- 1.6.3. The main rule for point scoring is the following: team points are get for first ten places and are allocated in the following order:
12 points – for the 1 place, 9 points – for the 2 place, 8 points – for the 3 place, 7 points – for the 4 place, 6 points – for the 5 place, 5 points – for the 6 place, 4 points – for the 7 place, 3 points – for the 8 place, 2 points –for the 9 place and 1 points – for the 10 place.
All the participants of the competition ranked below the 10th place earn 1 point for command superiority. The team which gets the maximum number of points becomes a winner in the command superiority. If the number of team points are equal for two teams, the command which has more taken 1st places becomes a winner. In case of having the same

amount of 1st places in the command and the same scores amount the winner is determined by the number of 2d, 3d, 4th and so on places.

- 1.6.4. There could be Increasing coefficients for team scores which could be attained according to the athletes level in Sports standard (NB: in Russia there is a system of Sports standard which is based on the bodyweight, lifted total, type of powerlifting usage of equipment and other parameters).
- 1.6.5. Team entry form should be sent by the Captain of the Team accordingly to deadline announced in the Statement. Changes and additions after the deadline could be made only with the approval of the Organizing committee of the tournament.
- 1.6.6. There can be run several team championships during the competition. For example, the championship between teams of different countries, between teams of different regions or between teams of different clubs.
- 1.6.7. Other questions about team championship are regulated by the Competition Rules.

1.7. TOURNAMENT RANKING

- 1.1.1. WEPF identifies the following classification of tournaments:

For WEPF tournaments in different countries:

1.7.7. There could be done another classification of Tournaments for WEPF national departments according to the features of the country. Usage of the other classification must be approved by the WEPF President.

1.8. DRUG TESTING

1.8.1. During WEPF competitions there is testing for the use of banned substances which is conducted in accordance with the «WEPF Anti-doping rules».

1.8.2. Banned substances list and rules: <http://wrfp.pro/en/doping-kontrol/dokumenty/>.

1.9. WEPF RECORDS

1.9.1. WEPF registers the following records:

- World;
- Continental;
- National.

World and continental records are registered exclusively by the official WEPF record speaker. Continental records can only be set by the citizens of the continent.

National records can only be set by citizens of the country. For example, Russian records can only be set by citizens of the Russian Federation, USA records can only be set by USA citizens, and so on.

In case of the establishment of continental or world records on tournaments holding by national departments of WEPF, the Officials of national departments are responsible for providing in 7-days deadline a protocol of tournament in established form and information about records to the governance of WEPF.

Regional records can also be registered in the regional offices of the WEPF (subject of the country, city). Regional records can only be set by athletes who have registered their residence in the region. Management and accounting falls entirely on the regional representative and is not a mandatory requirement of the WEPF.

- 1.9.2. The level of records depends on classification of the tournament. The approved status of records depends on the rank of the referees at these competitions.
- 1.9.3. All records which could be set at WEPF Championships are possible to be made in the following movements:
 - Powerlifting SP Total;
 - Powerlifting MP Total;
 - Powerlifting SP Squat;
 - Powerlifting MP Squat;
 - Powerlifting SP Bench Press;
 - Powerlifting MP Bench Press;
 - Powerlifting Deadlift Equipment;
 - Push Pull Equipment Total;

 - Push Pull Equipment Deadlift;
 - Bench Press SP;
 - Bench Press MP;
 - Bench Press Soft equipment;
 - Deadlift Equipment.
- 1.9.4. All records are registered in each age category, weight category and have difference by sex. In «Professionals» records are registered only in Open age class with separation by weight and sex.
- 1.9.5. Registration of records only takes place in the tournament sanctioned by WEPF and in full compliance with the rules of this federation and with the full accordance of the equipment, referees qualification to the rules.
- 1.9.6. Record attempts can be made at any attempt. In case when during one competition, and in one category there were implemented several successful record-setting attempts, the attempt with the last, the heaviest weight would be recognized as new record.
- 1.9.7. If two lifters both set the same new record in the same competition, registering exactly the same weight lifted, the lifter that first set the record will be recognized as the official record holder.
- 1.9.8. New WEPF Records are only valid if they exceed the previous record by at least 0.5 kg.
- 1.9.9. Records in age categories have to be counted even if there is only one participant at this age class.
- 1.9.10. In case of absence of the record chart results, records are defined by the results set by Presidium of WEPF as a «record standard» and are

accepted as records of all levels. Only athlete who exceeds «record standard» becomes a record-holder.

"Standard of Record" in the age class is equated to Sports category (please see the "Classification Standards WEPF" document on the official website – <https://wrpf.pro/normativy/>):

- Teens 14-16 – there is no "Standard of Record";
- Teens 17-19 – "I sport category"
- Junior 20-23 – "Candidate Master of Sports";
- Open – "Master of Sports";
- Masters 40-49 – "Master of Sports";
- Masters 50-59 – "Candidate Master of Sports";
- Masters 60-69; 70-79 – there is no "Standard of Record".

- 1.9.11. Additional record attempt may be given for athlete only in case of successful (approved by the referees on the platform) third attempt.
- 1.9.12. Only those athletes who applied and participated at the tournament may try to set a record in an additional attempt (i.e. an athlete with a zero result in the first three attempts but remaining in the tournament, as a guest cannot set a record in the fourth attempt). If the athlete wants to set the record in single movement, he or she must be applied in advance to the division before the start of the competition. It could also take place with the approval of the organizing committee 30 minutes before the beginning of the competition.
- 1.9.13. Athletes can set the record only in the division (or divisions) in which they were applied before the end of the last weigh-in.
- 1.9.14. The records could be counted by age categories depending on whether the athlete applied for the tournament – "Junior" could set a record as "Junior" and in the Open age class, «Teenagers» could set a record as «Teenagers» and in the «Open» age class, athletes from «Open» age class could set a record only in «Open» age class, «Masters» could set a record among «Masters» as well as in «Open» age class.
- 1.9.15. In case if the class of the tournament determines that all athletes can compete only in the Open category, despite their actual age (Teenagers, Juniors or Masters), the athletes can set a record in their actual age class.
- 1.9.16. A new record was set an athlete is obligated to be completely checked in terms of clothing and equipment by Chief Referee right away on the platform. The procedure should be done immediately after the record attempt and before the athlete will leave the platform.

1.10. WEPF SPORTS CATEGORIES AND RANKS

- 1.10.1. The WEPF has developed and approved a unified system of sports categories and ranks, which can be found on the official website: <https://wrpf.pro/normativy/>. WEPF branches must use a unified system of WEPF sports categories and ranks. Sports categories and ranks are assigned by the branch in which the standard is fulfilled.

- 1.1.2. When calculating the standard for an athlete's performance, apply increasing coefficients for entry into the ranks and titles up to Master of Sports of International Class (MSIC) exclusively for athletes:
- 50-54 year olds: +10%;
 - 55-59 year olds: +15%;
 - 60-64 year olds: +20%;
 - 65-69 year olds: +25%;
 - 70 year olds and older: +30%.

In disciplines where the result is determined in kilograms, the value obtained by increasing by the corresponding percentage is rounded down to 2.5 kg.

In disciplines in which the result is determined by the number of repetitions, the value obtained by increasing by the corresponding percentage is rounded down to the nearest whole number.

This adjustment is made regardless of the age group in which the athlete is participating in the tournament. It is based on the athlete's actual age on the day of participation in the tournament.

1.11. MEMBERSHIPS IN NATIONAL WEPF

- 1.11.1. All athletes, referees, and other officials of the competition have to be active members of their national WRP Federation on the day of the tournament.

3.13.2. Erector shirt

An erector shirt may be worn with either a squat or deadlift suit during the performance of these two lifts.

3.13.3. Support Briefs

One pair of Support Briefs of any design may be worn and may extend below the bottom of the lifting suit leg, provided that the length of the legs do not exceed mid-thigh, and that the waist does not extend beyond approximately mid-torso.

The Support Briefs must be an individual article of cloth fabric. The construction may consist of multiple plies to any thickness but must, as a whole, be a singular component.

3.13.4. Bench Shirt

Only one bench shirt may be worn under the lifting suit. It must be an individual article of cloth fabric, polyester, denim or canvas. Its construction may consist of multiple plies but must be a singular component. Sleeves must remain above the elbow when worn and must cover the armpits. Velcro or open back is permitted.

If the bench shirt is open-backed the athlete can wear one simple white T-shirt that meets all the requirements specified in paragraphs 3.6.1-3.6.2.

3.14. UNLIMITED BENCH SHIRT

3.14.1. Only one bench shirt can be worn under the lifting suit. It should be a full-fledged factory-made bench shirt made of polyester, rubberized fabric, coarse cotton fabric or tarpaulin. The bench shirt should cover the abdomen and ensure fixation on the athlete's body. The bench shirt can consist of an unlimited number of plies, but they must be one component. It is allowed to use a special insert to strengthen the bench shirt, but it must also be factory-made. It is forbidden to manually improve, supplement, or make changes of the bench shirt and its insert. The sleeves should not cover the elbows, the armpits should be closed. Velcro or open back are allowed.

3.14.2. If the bench shirt is open-backed the athlete can wear one simple white T-shirt that meets all the requirements specified in paragraphs 3.2.1-3.2.2.

3.15. INSPECTION OF PERSONAL EQUIPMENT

3.15.1. During the competition the inspection of personal equipment for every lifter may take place at any time. It is not a mandatory procedure. Any athlete in case of doubt of any of the referees may be checked for permissible use of equipment, both before and after the competition.

3.15.2. The athlete can provide the form for review during his weigh-in, but no later than 20 minutes prior to his flight.

3.15.3. Only the referees, the jury, the members of the Technical Committee may check the equipment of the athlete.

- 3.15.4. Equipment that does not comply with these rules is not allowed to use. But there could be exceptions. For example: the length of the bandages or trouser-leg can be cut off for the conformity to the rules.
- 3.15.5. Equipment or form that has an unkempt appearance or damaged is forbidden to use during the competition. The offensive inscriptions or images on the form or equipment are prohibited.
- 3.15.6. If the referee made a mistake when checking the equipment, it does not entitle to use this equipment during the competition. If such an error is detected, all the approaches that the athlete has fulfilled with its use, are not counted.
- 3.15.7. Items such as watches, costume jewelry, mouthpieces, eye wear and feminine hygiene articles need not be inspected.
- 3.15.8. It is strictly forbidden to enter the platform wearing a headdress (hat, hat, headscarf). Headbands no more than 10 cm wide are allowed.
- 3.15.9. For the athlete's safety, it is prohibited to use a telephone headset or headphones during the exercise.
- 3.15.10. Before attempting a world, regional, continental record the lifter will be inspected by the Technical Controller.

3.16. USAGE OF OTHER SUPPORTIVE THINGS

- 3.16.1. The use of oil, grease or other lubricants on the body, costume or personal equipment is strictly forbidden. Baby powder, pool hall chalk, liquid chalk, resin, talc or magnesium carbonates are the only substances that may be added to the body and attire.
- 3.16.2. The use of any form of adhesive on the underside of footwear is strictly forbidden (this applies to any kind of ratchet inserts in the sole, steel or other teeth, the lining of the sandpaper, etc.).
- 3.16.3. The use of any form of adhesive, or any other substance on the underside of shoes or boots is strictly forbidden. A spray of water is acceptable.
- 3.16.4. No substances may be applied to the powerlifting equipment. This takes into account all substances other than that which may be used periodically as a sterile agent in the cleaning of the bar, bench, or platform.

3.17. BLOOD MANAGEMENT

- 3.17.1. Blood or open wounds are not allowed while on the platform. Any injuries must be treated and bandaged prior to a lifter's attempt. If there is blood on the bar, or equipment, and the lifting must be performed, so the bar and the equipment should be sterilized with a disinfectant solution. Competition organizers are responsible for the availability of such a solution during the competition.

3.17.2. In the presence of a bleeding or open wound the athlete is obliged to resort to medical assistance for proper inspection and take the necessary measures for the treatment of wounds and to stop bleeding in order to be admitted to lift on the platform. The time allotted for the attempt does not stop, and in case of impossibility of solving this problem in a set time the athlete loses his attempt.

3.18. RELIGIOUS CONSIDERATIONS

3.18.1. WEPF welcomes all athletes and will always do everything possible to accommodate any special attire associated with religious or cultural needs. Please contact us by Email: info@russia-powerlifting.ru prior to the meet so we may assist you, ensuring your having a pleasurable meet.

IV. Power lifts and rules of performance

4.1. SQUAT

- 4.1.1. The lifter shall face the front of the platform.
- 4.1.2. After removing the bar from the racks while facing the front of the platform, the lifter may move forward or backward to establish the lifting position. If the squats are performed on the "monolift", then it is not necessary to move away from the racks. The lifter may be aided in removal of the bar from the racks by the assistants / loaders.
- 4.1.3. The bar shall be held horizontally across the shoulders with the hands and fingers should wrap around the bar from the outside. The hands may be positioned anywhere. The maximum width of the grip is until the hand touches in contact with the inner collars of bar. Do not touch discs or bushings. Any kind of grip is allowed.
- 4.1.4. Starting position - this is the position of the athlete in which: the feet flat upon the platform with the knees locked and the corpus is located vertically (slight deviation is allowable). The top of the bar not more than 3cm below the top of the anterior deltoids.
- 4.1.5. Immediately, after the setting of the starting position, the Chief Referee will give the signal to begin the lift. The Chief Referee's signal shall consist of a downward movement of the arm and audible command "Squat". Before receiving the signal to "squat" the lifter may make any position adjustments within the rules, without penalty. For reasons of safety the lifter will be requested to "Replace" the bar, together with a backward movement of the arm, if after a period of five seconds he is not in the correct position to begin the lift.
- 4.1.6. Upon receiving the Chief Referee's signal "Squat", the lifter must bend the knees and lower the body until the top surface of the legs at the hip joint is lower than the top of the knees.
- 4.1.7. Only one attempt is allowed to make a movement. The attempt is deemed to have commenced when the lifters knees have unlocked. Completing the lift it is allowed to get some the movement of the bar from a starting position down along the back of the athlete (the slide), but not more than thickness (diameter) of the bar.
- 4.1.8. The lifter must recover at will to an upright position with the knees locked. Double bouncing at the bottom of the squat attempt or any downward movement is not permitted. When the lifter is motionless (in the apparent final position) the Chief Referee will give the signal to rack the bar.
- 4.1.9. The signal to rack the bar will consist of a backward motion of the arm and the audible command "Rack". The lifter must then return the bar to

the racks. Foot movement after the rack signal will not be cause for failure.

- 4.1.10. For reasons of safety the lifter may request the aid of the spotter/loaders in returning the bar to, and replacing it in the racks. The lifter must stay with the bar during this process.
- 4.1.11. No more than six and no less than three spotter/loaders shall be on the platform at any time.
- 4.1.12. If a lifter inadvertently begins the lift prior to the Head Referee giving the "Squat" command, and the lifter has not continued the lift to the point they have hit the bottom of the lift and has begun the ascent of the bar, the lifter may return to the correct starting position with knees locked, or even re-rack the bar, and then begin the lift again once the Head Referee gives the "Squat" command, without penalty.
- 4.1.13. After completing the lift, the athlete is not allowed to exit through the front of the racks. In case of a single violation of this rule, the athlete receives a warning, in case of a repeated violation, the attempt is canceled.

CAUSES FOR DISQUALIFICATION OF A SQUAT:

1. Failure to observe the Chief Referee's signals at the commencement or completion of a lift.
2. Double bouncing at the bottom of the lift, or any downward movement during the ascent.
3. Failure to assume an upright position with the knees locked at the commencement or completion of the lift.
4. Stepping backward or forward or moving the feet laterally. Rocking the feet between the ball and heel is permitted.
5. Failure to bend the knees and lower the body until the top surface of the legs at the hip joint is lower than the top of the knees.
6. Any movement of the bar from the starting position down along the back of the athlete (slipping) more than the thickness (diameter) of the bar itself.
7. Contact with the bar or the lifter by the spotter/loaders between the Chief Referee's signals in order to make the lift easier.
8. Contact of the elbows with the legs. Slight contact is permitted if there is no supporting that might aid the lifter.
9. Any dropping or dumping of the bar after completion of the lift.
10. If the athlete could not remove the bar from the racks during the allotted minute.
11. Unintentional or intentional contact of bar and racks during the execution attempt. However, unintentional contact that did not help the athlete is not a reason not to count attempt.

12. Failure to comply with any of the items outlined under Rules of Performance for the squat.

4.2. BENCH PRESS

- 4.2.1. The bench shall be placed on the platform with the head facing the front or angled up to 45 degrees, which will give the opportunity for Jury and the crowd to see the movement. The athlete is not allowed to lie down on the bench from the side of his head. In case of a single violation of this rule, the athlete receives a warning, in case of a repeated violation, the attempt is canceled.
- 4.2.2. The lifter must lie on his back with head, shoulders and buttocks in contact with the bench surface. This position shall be maintained throughout the lift.
- 4.2.3. The athlete's feet should be in a convenient position, in contact with the platform, plates or blocks installed under the feet. It is allowed to touch the sharp of the foot, as well as toe of foot touching the floor behind.
- 4.2.4. Hands and fingers must grip the bar positioned in the rack stands with a thumbs around grip. This position shall be maintained throughout the lift. One-way or reverse grips are prohibited.
- 4.2.5. The spacing of the hands shall not exceed 81 cm measured between the forefingers (both forefingers must be within the 81 cm marks and the whole of the forefingers must be in contact with the 81 cm marks if maximum grip is used). In case when an athlete has an old injury or anatomically cannot grab the bar at the same distance with both hands, he must inform the referees before every attempt. If necessary, the bar may accordingly be marked before every attempt of the athlete.
- 4.2.6. To achieve firm footing the lifter may use blocks not exceeding 20 cm in total height. Blocks in the range of 5 cm, 10 cm, 15 cm should be made available for foot placement at all international competitions. Foot movement is permissible but must remain flat on the platform or blocks.
- 4.2.7. Not more than five and not less than two spotter/loaders shall be on the platform at any time. After correctly positioning himself, the lifter may enlist the help of the spotter/loaders in removing the bar from the racks. The lift off if assisted by the spotter/loaders must be at arms' length.
- 4.2.8. A personal assistant of the athlete can be on the platform as a spotter per the request of the athlete. In this case, an assistant needs to go on the platform in a neat sport suit only, which doesn't impede movements and doesn't have inscriptions and drawings with provocative or offensive sense. A spotter after providing a lift off, must immediately clear the area in front of the head referee.
- 4.2.9. After removing the bar from the racks, with or without the help of the spotter / loaders, the lifter shall wait with straight arms elbows locked and hips and shoulders on the bench for the Chief Referee's signal.

- 4.2.10. The signal shall be given as soon as the lifter is motionless and the bar is properly positioned. For reasons of safety the lifter will be requested to "Replace" the bar, together with a backward movement of the arm, if after a period of five seconds he is not in the correct position to begin the lift. The Chief Referee will then convey the reason why the signal was not given. Also, the "Return" or "Help" command can be given by the senior referee on the platform to prevent injuries, in the case of an error committed by an athlete which prevents the attempt to be counted. If the personal spotter does not immediately leave the platform area and or in any way distracts or impedes the head referees responsibilities, the referees may determine that the lift is unacceptable, and it will be signaled "no lift" by the referees and given three red lights.
- 4.2.11. The signal to begin the attempt shall consist of a downward movement of the arm together with the audible command "Start".
- 4.2.12. After receiving the signal, the lifter must lower the bar to the chest or abdominal area; hold it motionless, after which the Chief referee will signal the audible command "Press".
- 4.2.13. After the "Press" command the lifter must then return the bar to straight arms' length elbows locked, non-accepting significant distortions in the movement of the hands. When the position would be motionless the audible command "Rack" shall be given together with a backward motion of the arm.
- 4.2.14. If right after receiving the start command, the lifter draws in a big breath to fill his lungs while still in the upright position prior to beginning the attempt, and the bar rises as a result of this breath, this should not be assumed as a reason for disqualification. While still in the upright position, the lifter was unlocking, and then relocking his knees, or pumping the bar up with body movement, in this case it would run against the Rules. If an athlete inadvertently begins to lower the barbell before the command of the central judges "Start" ("Start"), but does not touch the chest, he can return it to the original position on straightened elbows or even return to the racks, and then try again, after the central referee will give a command "Start" ("Start").
- 4.2.15. In case when both hands anatomically cannot be straightened entirely, the athlete should provide a relevant medical report when registering or weighting in. It is the lifter's responsibility to explain the issue to all the three referees, and allow making inspection of the intended grip prior to making an attempt.

CAUSES FOR DISQUALIFICATION OF A BENCH PRESS:

1. Failure to observe the Chief Referee's signals at the commencement, during or completion of the lift.
2. Any change in the elected lifting position during the lift proper i.e. any raising movement of the shoulders, or buttocks, from the bench, or lateral movement of hands on the bar. Movement of the head couldn't be the cause of disqualification.

3. Heaving, bouncing, or sinking the bar after it has been motionless on the chest or abdominal area, and the “PRESS” command has been given.
4. Any pronounced uneven lockout of the arms during the completion of the lift.
5. Any downward movement of the bar in the course of being pressed out.
6. Bar is not lowered to chest or abdominal area i.e. not reaching the chest or abdominal area, or the bar is touching the belt.
7. Failure to press the bar to full extension of the arms at the completion of the lift.
8. Deliberate or intentional contact between the bar and the bar-rest supports during the lift. However, unintentional contact that did not assist the lifter is not reason to turn down the lift.
9. Any contact of the lifter’s feet with the bench or its supports.
10. Failure to comply with any of the items outlined under the Rules of Performance.

4.3. DEADLIFT

- 4.3.1. The lifter shall face the front of the platform.
- 4.3.2. The bar shall lie horizontally in front of the lifters feet, gripped with an optional grip in both hands and lifted until the lifter is standing erect.
- 4.3.3. The movement is made without any signal. The movement is made till the moment until the bar is held motionless and the lifter is in the apparent finished position.
- 4.3.4. On completion of the lift the knees shall be locked in a straight position and the shoulders should be back.
- 4.3.5. The Chief Referee’s signal shall consist of a downward movement of the arm and the audible command “Down”. The signal will not be given until the bar is held motionless and the lifter is in the apparent finished position. The command "Down" is not a criterion that the athlete has taken the necessary vertical position in order for the good lift. The "Down" command can also be given by the Chief Referee if it is dictated by safety considerations of the exercise.
- 4.3.6. Any rising of the bar or any deliberate attempt to do so will count as an attempt. However, the jerk of the bar by a sportsman is possible, as a reception of a psychological mood. In case of doubt, the decision must be made in favor of the athlete.
- 4.3.7. Once the attempt has begun no downward movement is allowed until the lifter reaches the erect position with the knees locked. If the bar settles as the shoulders come back (slightly downward on completion) this should not be reason to disqualify the lift.
- 4.3.8. Once the barbell is lowered to the platform, the athlete is not permitted to move over the barbell toward the front of the platform. In case of a

single violation of this rule, the athlete receives a warning, in case of a repeated violation, the attempt is canceled.

CAUSES FOR DISQUALIFICATION OF A DEADLIFT:

1. Any downward movement of the bar before it reaches the final position. and the command "Down" of the Chief Referee.
2. Failure to stand erect with the shoulders back.
3. Failure to lock the knees straight at the completion of the lift.
4. Supporting the bar on the thighs during the performance of the lift. If the bar edges up the thigh but is not supported this is not reason for disqualification. The lifter should benefit in all decisions of doubt made by the referee.
5. Stepping backward or forward or moving the feet laterally. Rocking the feet between the ball and heel is permitted.
6. Lowering the bar before receiving the Chief Referee's signal.
7. Allowing the bar to return to the platform without maintaining control with both hands, i.e., releasing the bar from the palms of the hand.
8. Failure to comply with any of the items outlined under Rules of Performance.

V. Weighing in

- 5.1.** Weighing-in of the competitors shall be initiated 24 hours before the start of the competition for a particular category. The meet director may schedule regular weigh in times during the 24 hour period. The first weighing in session lasts an hour and a half minimum. Second weighing in session is held two hours before and is completed a half of an hour before the start competing appropriate weight class. These two sessions are mandatory. Additional sessions are possible by decision of Organizing committee. Information about all sessions should be brought to the attention of athletes and coaches.
- 5.2.** All athletes in the category/categories must be weighed during one of two mandatory or additional (if so provided) sessions, which are carried out in the presence of at least one certified WEPF referee.
- 5.3.** Schedule of weighing in is established in the regulations and it is a mandatory part of it.
- 5.4.** Weighing in of each participant held in separate room behind closed doors or a screen, where the participant is, his coach or manager and referee or appointed official.
- 5.5.** Athletes should be weighed naked or in underwear (briefs for men; bra and panties for women). Weighing in must be conducted by officials of the same sex as the athlete. In this case can be appointed additional officials having a corresponding category of referees.
- 5.6.** To establish the order a draw must be conducted on the weighing in. A draw determines the order of the access to the platform during the competition, when athletes order in their attempts the same weight. In the case of an automated system of the competitions conduct (program) is using, a draw determines the program.
- 5.7.** Each athlete is weighed only once. Re-weighing is allowed only to those athletes, whose own weight was less or more than the permissible limits of the weight category. These athletes must return to weigh-in and be weighed again on one of two mandatory sessions, before the end of the last weighing session for the one and a half hours for this category, otherwise they will be excluded from the competition in this weight class. Athlete, who trying to make weight, can weighing many times, but in time for this weight class.
- 5.8.** If weight of athlete exceeds the allowed for the weight class, he can go to the next, heavier weight class. This athlete must weigh-in in time for next weight class, if it establishes by the regulations. Athlete must match for all established qualification standards of this competition. Qualification check is performed in the presence of the athlete. If weight of athlete is lower than the minimum of weight class, he can go to the previous, lower weight class, provided that the procedure for weighing this weight class is

not over yet. Qualification check is performed in the presence of the athlete.

- 5.9.** Official weight of athlete, which is recorded in the protocol, will be fixed with rounding up to 100 grams.
- 5.10.** Participants of age categories “Teenagers”, “Juniors” and “Masters” may declare their participation or reconsider in “Open” category without additional weigh-in, or be weighed again if they wish.
- 5.11.** At the weigh-in the athlete's data are entered in the participant's cards or in tournament program. It is required to include the following information:
- name and surname of an athlete;
 - division;
 - birth date, age and age category;
 - country, region and city;
 - weight of athlete after weigh-in and weight class;
 - first attempts in all lifts;
 - Wilks coefficient value;
 - team;
 - name and surname of coach;
 - draw number;
 - a signed form about accepting responsibility in the event of injury or an accident that occurred due to the fault of the athlete;
 - contacts of an athlete (telephone number, post address and e-mail);
 - date of Filling in and signature of athlete.

The secretary at weigh-in should correctly enter the information, and athlete should check correctness of all entered data. After signing of the participant's card an athlete assumes responsibility for the reliability of all data in it. The participant's card is an official document of tournament.

- 5.12.** Registration and weighing of participants is made only upon presentation of a document certifying the identity of an athlete.
- 5.13.** During any session of weigh-in mandatory equipment check can be appointed. This information must be published in the statement of the tournament. In other way equipment check is not mandatory on weigh-in, but athlete may ask referee to check his equipment.
- 5.14.** In the case when participants of several weight categories or divisions are weighted on the same time, priority in the order is given to those athletes whose performance will begin no more than 2 hours from the current time. Otherwise, the sequence of weighing is determined by the athletes themselves waiting their turn.
- 5.15.** In case of severe weather or emergency situations in the competition area, time of weigh-in may be extended by decision of technical secretary or jury member.

VI. Order of competition

6.1. THE ROUND SYSTEM

Before start of competition in Bench press and Squat, athletes must measure height of the racks and face savers. Information about rack height and, if necessary, about blocks, is sent by himself, his coach or representative person to the attention of secretary, assistants or judges.

- 6.1.1. All competitors are distributed by round according to the rules of the tournament. Every round consists of three attempts for each athlete in each lifts. Creating the rounds and setting the attempts queue must comply with the rules given in this chapter.
- 6.1.2. A round must be formed in such a way that all competitors do the same lift.
- 6.1.3. If there are more than 20 athletes at the competition or round, then they must be divided into several flights consisting of an approximate equal number of participants. One stream should consist of no more than 20 participants.
- 6.1.4. The round may include one or several weight classes, by the opinion of organizer. Rounds must be classified by numbers or letters.
- 6.1.5. Rounds forming by weight and age classes by increasing the declared weight in the first attempt. Athletes of the lightest weight classes with the lowest first attempts are forming first round (Round 1). Next rounds forming by ascending weight classes and weights of first attempts.
- 6.1.6. Arrangement of rounds, which included two or more lifts (powerlifting or push-pull), must implemented as follows: Round 1 performing three attempts of first lift, then Round 2 performing three attempts of first lift. At this time Round 1 warmed up to second lift. After Round 2 first lift ends, Round 1 start second lift, and Round 2 warmed up to next lift. If stream of division with several lifts is only one, must be another divisions lifts or 30 minutes between to warm up.
- 6.1.7. If number of participants in one round less than 10, an added time should be provided in the end of each round: 9 athletes – 1 minute, 8 athletes – 2 minute, 7 athletes – 3 minutes and so on: 1 minute more for 1 athlete less. Tournament secretary must make an announcement about that breaks and turn on a timer after the last athlete in the round.
- 6.1.8. In each round a bar weight is set from smallest to largest (in accordance with the existing applications of athletes). Weight can be lowered less only by mistakes. Each athlete makes first lift in the first round, second lift in the second round and third lift in the third round. All record lifts will be after the third round for each lifts.
- 6.1.9. The athlete is allowed only one weight change in the first attempt in each exercise. Weight can be increased or decreased from the original

order and then the order of lifts should be changed accordingly. The change of weight at the first attempt is possible no later than 5 minutes before the start of the first attempt, at which the athlete performs. The same rule applies to the third or fourth round of the deadlift, two changes are permitted. The change of the weight may be higher or lower than the lifter's previously submitted third attempt. However, these are only permitted provided that the lifter has not been called to the bar already loaded to his previously submitted weight by the speaker.

- 6.1.10. If two athletes declared the same weight, athlete who have less draw number lifts first.
- 6.1.11. Time to attempt in Amateurs and Professionals is one minute. Time to attempt starts after a signal of a referee "the bar is loaded".
- 6.1.12. If attempt failed by a bar loading mistake, should be given an additional attempt with declared weight in the end of round. If wrong weight loaded and it checked by athlete before he start to lift, he can continue a lift after mistake fix or take additional attempt in the end of a round. If an athlete is the last in this round, 5 minutes adds to his next attempt.
- 6.1.13. An athlete must declare the second and the third attempts in one minute after his lift. If the next attempt is not declared, 2,5 kg automatically added to last attempt weight. If last attempt was no lift and athlete haven't declared a next attempt weight, he will lift the same weight in next attempt. Responsibility for weight declaring is fully on the athlete.
- 6.1.14. Weights of the second, the third attempts cannot be changed in powerlifting and push-pull in squat and bench press lifts. Weight can be changed in the third and the fourth attempts in deadlift.
- 6.1.15. In the compete of single lifts (bench press and deadlift) weight of the third and the fourth attempts can be changed.
- 6.1.16. Minimal weight change is 2,5 kg.

6.2. THE OFFICIALS

- Speaker/Announcer - a national or International referee (preferably) who is fluent in English and in the language of the hosting nation;
- Technical Secretary - an International Referee preferably who is fluent in speaking and writing English and in the language of the hosting nation;
- Time Keeper (a qualified referee);
- Marshals/Expeditors;
- Secretaries;
- Spotter/Loaders;
- Additional officials may be appointed as required, e.g. doctors, paramedics etc

RESPONSIBILITIES OF THE OFFICIALS ARE:

6.2.1. Speaker/Announcer:

The speaker is responsible for qualified competition management. He must perform the following duties:

- declares the approaches by athletes in the established in these rules order. Works with protocol or member cards;
- announces the weight required for the next attempt, the name and surname of the athlete;
- announces the order of lifts of the next following three athletes, so that they are to enter the platform;
- when the bar is loaded and the platform cleared for lifting, the Chief Referee will indicate this fact to the Speaker. When the Speaker announces that the bar is ready and calls the lifter to the platform, the clock will begin. To clarify, when the Speaker announces that the bar is “ready/loaded”, then the lifter is committed to the attempt. Attempts announced by the speaker must be displayed on the scoreboard in a prominent position, with the lifter's name and his bodyweight.

6.2.2. Technical Secretary:

- the Technical Secretary is responsible for forming the composition of the officials – jury, judges and other officials of the competition, the schedule of their work;
- if there is no need in a full jury of three people, he can be the only one responsible for enforcing WEPF rules. If the technical secretary is absent from the competition, then the official with the highest status must fulfill his duties;
- he is responsible to interact with all the personnel of the competition, with the referees and athletes, resolve any disputable issues, referring to the technical rules;
- he is responsible check and monitor compliance with the technical requirements for hosting WEPF tournaments, the availability of all necessary documentation in the tournament;
- he is responsible for registering the new records and collecting information for the preparation of documents.

6.2.3. Time Keeper:

- the time keeper is responsible for accurately recording the lapse between the announcement that the bar is ready and the lifter starting his attempt;
- he is also responsible for recording time allowances whenever required, e.g. after the attempt the lifter shall leave the platform within 30 seconds. The only exception could take place in case when the referee checks the equipment of the athlete after setting a new record. Once the timer is running for a lifter, it can only be stopped by the completion of a time allowance, by the start of the lift, or at the discretion of the Chief Referee. Consequently, it is very important to check the height of the racks before being called on the platform, because after the call, the timer starts. Any changes in rack height must be made within the time allotted to the athlete to complete the attempt. After the command "The bar is loaded" the athlete is given one minute to start the attempt. During squat and bench

press the beginning of the exercise is considered as unracking the bar from the racks, and for the deadlift - explicit or deliberate attempt to lift the bar from the platform. If the athlete does not fulfill these requirements during the allotted time, the timekeeper announces "Time" and the main referee gives a loud command "Rack" ("Rack"). In this case it is "No lift" attempt. The chief referee makes the final decision after the "Time" command, by the reason that the athlete violated the time limit.

6.2.4. Marshals/Expeditors:

- they are responsible for collecting the weight of required attempts from the lifters or their coaches and passing the information without delay to the speaker. The lifter is allowed one minute between completing his last attempt and informing the speaker, via the marshal, about the weight required for his next attempt. They are responsible for monitoring compliance with the rules of equipment in the warm-up zone. When identifying attempts to violate the requirements for equipment, for example: use both knee wraps and sleeves, or use a couple of knee wraps, etc., immediately point this out to the participant who violates the rules or his representative. If this is not possible, he reports it to the head judge or senior judge on the platform.

6.2.5. Secretaries:

- they are responsible for the weighing and registering participants, competitions, recording all results and providing signatures of three judges on the records of the competitions, records of new records and other documents requiring signatures;
- they are responsible for prepare the award ceremony. Also they print the diplomas for winners of personal, absolute and team championships. As far as possible, the functions of the Speaker and the Secretary should be distributed among several official representatives. And, they are responsible for admission of the referees to the WEPF competitions.

6.2.6. Spotter/Loaders:

- they are responsible for the safety of the athlete, and provide him with immediate assistance in case if he cannot lift the weight during the attempt;
- spotters/loaders are responsible for loading and unloading the bar, adjusting squat racks and benches as required, cleaning the bar or platform;
- all the spotters should work together as a team, and should be neatly dressed in a clean uniform, in tournament T-shirts;
- all the spotters must inform the chief referee of any malfunctions in the equipment so that they can assess the problem and take the necessary measures to solve it;
- at no time shall there be less than two or more than six spotters/loaders on the platform;
- when the lifter prepares for his attempt, the spotters/loaders may assist him in removing the bar from the racks. They may also assist in replacing the bar after the attempt. However, they shall not touch the lifter or the bar during the actual attempt, i.e. during the period of time that elapses between the commencement and completion signals. The only exception to this rule

could happen if the lift is predictable “No lift” and likely to result in injury to the lifter. In this case the spotters/loaders may, either at the request of the Chief Referee or the lifter himself, step in and help the lifter to put the bar back to the racks. If the lifter himself has failed the attempt by the error of a spotter/loader and has no fault of his own, he shall be guaranteed with another attempt at the discretion of the Referees and Jury at the end of the round;

- any additional spotter that an athlete may need must be selected before the competition and be instructed by the spotter 30 minutes before the start of the competition. Additional spotter should be available to all athletes in all types of lifts.

6.3. GENERAL RULES

- 6.3.1. During any competition taking place, only the lifter and his coach, members of the Jury, officiating referees and spotter/loaders will be allowed to be around the platform or on the stage. Performing the lift, only the lifter, spotter/loaders and the referees are permitted to be present on the platform. Coaches shall remain within the designated coaching area as defined by the Chief Referee in charge. The selection of a zone for coaches should be made in such a way that each coach can choose within this zone a convenient place to observe the performance of the lifting and provide instructions and signals to the athlete regarding technical details (for example: squat depth). At the same time, it must not interfere with the work of referees, juries, secretaries and spotters. Photo/video reporters also can be admitted on the platform by agreement.
- 6.3.2. The form of coaches' clothes at international competitions consists of a national team's sports suit, a national team's T-shirt or T-shirt, approved by WEPF. In case of violation of the established form of clothing, the Chief Referee or the jury may prohibit the coach from being at the venue of the competition.
- 6.3.3. A lifter shall not wrap or adjust any part of his costume or equipment while on the platform. The only exception to this rule is that he may adjust his belt. Items such as inhalants, ammonia caps, etc. cannot be utilized on the platform.
- 6.3.4. In all WEPF recognized competitions, the weight of the barbell must always be a multiple of 2.5kg. The progression must be at least 2.5kg between all attempts. The weight shall always be announced in kilograms.
- 6.3.5. In a record attempt, the weight of the barbell must be at least 500 grams in excess of the current record.
- 6.3.6. During the course of the competition, a lifter may request a record attempt that is not a multiple of 2.5kg, but is to be attempted within his prescribed attempts.

- 6.3.7. Record attempts may be taken on any or all of a lifter's prescribed attempts provided that they maintain a minimum increase of 500 grams.
- 6.3.8. The athlete can make permitted additions to the weight of the bar less than 2,5 kg for attempts to set a record, only speaking at competitions corresponding to the planned record for the division and the weight class. However, if the athlete performs in an open age category, but by age is a teenager, junior or veteran, he can set a record in only his age category.
- 6.3.9. In the case where one athlete has ordered a weight that is not a multiple of 2,5 kg for the next round, in order to establish a new record, and another one performing in the same age and weight category after that shows a higher result, then the weight declared by the first athlete must be Changed to the nearest weight, a multiple of 2,5 kg.
- 6.3.10. The Chief Referee will be solely responsible for decisions taken in the case of loading errors or incorrect announcements by the speaker. His decision will be given to the speaker who will make the appropriate announcement.

Examples of errors in setting the weight of the bar:

- if the bar is loaded to a lighter weight than originally requested and the attempt is successful, the lifter may accept the successful attempt or elect to take the attempt again at the originally requested weight. If the attempt is not successful, the lifter will be granted a further attempt at the originally requested weight. In both the above cases, further attempts may only be taken at the end of the round in which the error occurred;
- if the bar is loaded to a heavier weight than originally requested and the attempt is successful, the lifter will be granted the attempt. However, the weight may be reduced again if required for other lifters. If the attempt is not successful, the lifter will be granted a further attempt at the originally requested weight at the end of the round in which the error occurred;
- if the loading is not the same on each end of the bar; or any change occurs to the bar or discs during the execution of the lift; or the platform is disarranged, if despite these factors, the lift is successful, the lifter may accept the attempt or elect to take the attempt again. If the successful attempt is not a multiple of 2.5 kg, then the lower closest multiple of 2.5 kg will be recorded on the score sheet. If the attempt is unsuccessful, the lifter will be granted a further attempt. Further attempts may only be taken at the end of the round in which the error occurred;
- if the speaker makes a mistake by announcing a weight lighter or heavier than that requested by the lifter, the Chief Referee will make the same decisions as for errors in loading;
- if for any reason it is not possible for the lifter or his coach to remain in the vicinity of the platform in order to follow the progress of the competition and the lifter misses his attempt because the speaker

omitted to announce him at the appropriate weight, then the weight will be reduced as necessary and the lifter allowed to take his attempt, but only at the end of the round. Three unsuccessful attempts in any lift will automatically eliminate the lifter from the competition.

- 6.3.11. Three unsuccessful attempts in any exercise automatically exclude the athlete from the competition in the total of powerlifting or push pull.
- 6.3.12. The spotters should not help the athlete in taking the starting position in any of the lifts, their assistance is allowed only with the initial removal of the bar from the racks.
- 6.3.13. On the completion of an attempt, a lifter shall leave the platform within thirty seconds. Failure to comply with this rule may result in disqualification of the attempt at the discretion of the referees. The only exception to this rule is if a lifter's equipment is being inspected after a record attempt. The lifter is required not to leave the platform for this inspection to certify the records attempt.
- 6.3.14. If, during warm up or competition, a lifter suffers injury or in any other way exhibits signs of a condition which may unduly or significantly jeopardize the competitor's health and well-being, the official doctor, Meet Director, or Chief Referee has the right to examination. If considered inadvisable for the lifter to continue, the lifter and / or their coach will be notified of the decision and the lifter will be removed from the meet.
- 6.3.15. If a lifter missing a minimum of 50% of their total fingers, including the thumb, in which that hand is responsible for gripping a bar in the deadlift, is permitted the use of a strap. However, this strap may be used only on that hand and attached at the wrist only.
- 6.3.16. Any physical abnormality, handicap, or incapacity of a lifter that may cause an inability to fully comply with the rules should be brought to the attention of, and explained to, the appointed Contest Officials. This should be in advance of the start of the lifter's Flight. The lifter, Contest Officials, and the platform referees for the particular lifter will then confer on the matter to best accommodate any special considerations for the lifter. Deafness, blindness, limb, or joint abnormalities that prevent proper straightening or extension, are examples for such special considerations.
- 6.3.17. It is considered a verbal warning if any official contacts and corrects a lifter prior to, or after a lift, about a technical portion of their lift, a rules violation, or about any equipment violations they may have. If the lifter repeats the violation it is mandatory that their lift will be turned down by all three officials. If an official gives any lifter a verbal warning to a lifter, they must immediately inform all other officials on the platform that an official warning was given, and the reason for it, so the three officials can work together as a team at all times. A repeated violation by a lifter will result in a mandatory red light by all officials
- 6.3.18. Blood or particles of skin on the bar or platform should be cleaned off with the solution of antiseptic or alcohol to avoid infection.

- 6.3.19. Any lifter or coach, who by reason of his misconduct before, during, or after the competition is likely to discredit the sport, shall be officially warned. If the misconduct continues, the Meet Director or Head Referee may disqualify the lifter and order the coach to leave the venue. This includes any lifter, coach, or the lifters support personal, from arguing, using foul language, or becoming abusive with any Referee or official about the outcome of any lifts, or the legality of equipment determinations.
- 6.3.20. The jury or referees may by their majority decision immediately disqualify an athlete or official if they believe that the violation of the rules is serious enough to entail an immediate disqualification rather than a warning.
- 6.3.21. In the case of a decision "2 to 1" referees, the athlete or his representative has the right to appeal to the jury within one minute (if there is a video recording of his attempt of appropriate quality, on which you can determine the error of the referees). Together with the video material, the sportsman or his representative will give the jury a deposit amount of 1,000 Russian rubles (about 25 \$). If the jury recognizes the mistake decision of the judges, the security deposit immediately returns to the athlete or his representative, and the athlete is given additional attempt at the end of the current round (if by the end this round, there are three performances of other athletes or less, as well as the appellant was the last to lift in the attempt, then before his an attempt he is given a 3 minutes break). Decision of the referees in a controversial attempt is not subject to change.

In the case that the jury recognizes the referees' assessment is correct, or the video cannot unambiguously and unmistakably determine the correctness of the athlete's approach, an additional attempt is not given to the athlete, the deposit is not returned to the athlete and transferred to the cashier for further expenditure at the discretion of the Chief Referee of the competition.

- 6.3.22. Within a 30 day period of all WEPF sanctioned meets should clear and credible video of any record lift become available to the WEPF that demonstrates a lift was misloaded it will be reviewed by the Executive Committee. If the bar was determined to be under loaded the correct weight will be credited. If this amount is still a new record, the record will be awarded at the new lower amount. If the bar was determined to be overloaded the correct weight will be credited and the new record will stand at the correct amount of weight as determined by the Committee.

VII. Referee, jury and technical committee

7.1. REFEREES

- 7.1.1. There should be 3 referees -- the Chief Referee or Center Referee and two side referees.
- 7.1.2. The three referees may seat themselves in what they consider to be the best viewing positions around the platform for each of the three lifts. However, the Chief Referee must always bear in mind the need to be visible to the lifter performing the squat or deadlift. Side referees should not sit strictly from on each side from the athlete, during the deadlift, because the discs on the bar will close the view on the athlete's knees.
- 7.1.3. The referees are responsible for the qualitative and timely evaluation of attempts.
- 7.1.4. The referees supervise observance of rules of competitions and performance of lift.
- 7.1.5. The Chief Referee is responsible for giving the necessary signals for all three lifts. The side referees can give a signal to the Chief Referee if they see from their point a violation in taking the starting position by the athlete in squats or bench press.
- 7.1.6. Before the contest, the three referees shall jointly ascertain that:
 - the platform and competition equipment comply in all respects with the rules. Bars and discs are checked for weight discrepancies and defective equipment discarded. A second bar and collars should be readied and put aside in case of damage to the original bar or collars;
 - the scales work correctly and are accurate;
 - the lifters weigh in within the limits of weight and time for their body weight category;
 - the lifters costumes and personal equipment comply with the rules in all respects.
- 7.1.7. During the contest the three referees must jointly ascertain that:
 - the weight of the loaded bar agrees with the weight announced by the speaker. Referees may be issued with bar loading charts for this purpose or a computer generated bar loading software may also be used and projected on a screen that is in a clear and visible location, from the platform, for the three referees;
 - the lifter's personal equipment should comply with the rules while on the platform. If any referee has the reason to doubt a lifter's integrity in this respect he must inform of his suspicions the Chief.

Referee after completion of the lift . The president of the Jury may then examine the lifter's personal equipment. If the lifter is found to be

wearing or using any illegal item other than that which may have inadvertently been passed in error by the examining referees, the lifter shall be immediately disqualified from the competition. If wearing any illegal item passed in error by the examining referees, and the lift in which the discovery was made is successful, the lift will be rejected and then the lifter will be granted a new attempt (having removed the illegal item) at the end of the round. In cases of minor disruption in the equipment, the athlete's attempt may be counted. In this case, he is issued a warning so that this violation has been eliminated to the next approach. If such a violation is found before the approach begins, the judge should ask to correct this violation. However, the time allotted to the athlete does not stop at the approach.

- 7.1.8. Once the bar has been replaced in the racks or on the platform at the completion of the lift, the referees will announce their decisions by means of the lights. White for a "Good lift" and red for "No lift".
- 7.1.9. The lifter or his coach may request the reason for a "No lift" decision from any of the Referees immediately following their lifters attempt. Such request must be made before the next lifters attempt begins, so as not to interfere with the progression of the competition.
- 7.1.10. Referees shall abstain from commentary and not receive any document or verbal account concerning the progress of the competition.
- 7.1.11. A referee shall not attempt to influence the decisions of the other referees.
- 7.1.12. The referees decide on the legitimacy of record attempts, conduct re-checks of equipment of athletes who have made a record attempts, directly on the platform (not allowing the athlete to leave the competition zone, until the end of the check).
- 7.1.13. The Chief Referee may consult with the side referees, the jury or any other official as necessary in order to expedite the competition.
- 7.1.14. The Chief Referee may, at his own discretion, instruct to clean the bar or platform. If the athlete or coach to ask to clean the bar or platform, that this request should be directed to the Chief Referee, and not to the spotters on the platform.
- 7.1.15. Change the referee team in the process of competing one Round is forbidden. Except when the qualifications of the referees are not sufficient to register a record attempt. It is desirable that worked one referee team at the one and the same lift in different categories.
- 7.1.16. The selection of a referee to act as Chief Referee in one category does not preclude his selection as a side referee in another category.
- 7.1.17. Cell phones or other similar electronic devices are not allowed to be in use while judging.
- 7.1.18. Referees will be uniformly dressed as follows:
 - **men, winter:** Black/Dark blue blazer and black/dark blue trousers with a white shirt;
