Disclaimer:

All the views expressed in this journal are personal opinions of the respective authors. Publishers or EFI does not own any responsibility.

World, on its evolutionary path has reached crucial stage where on one hand it has attained highest levels of consciousness, technology, material comforts, but on the other hand has become fragile, succumbed to delusion and is not able to think in terms of sustainable planetary welfare. World of sovereign nations has conveniently forgotten the existence of "interdependence" in this global village.

Ancient Indian saints gave the message of "Vasudhaiva Kutumbakam"- World is One Family, which had remained a slogan till recently, has now emerged as a mantra of human unity and planetary survival.

Sri Aurobindo had dreamt about a "World Federation" and prophesied that India should lead in its actualisation leading to the formation of "World Union" in India and "World Constitution and Parliament Association (WCPA) In USA, both in 1958.

Earth Federation Institute (EFI), affiliated to WCPA, was envisioned by world federalists to champion the cause. EFI has been aiming at "Preserving Human Unity and Human Dignity" through a democratic world federation. EFI has launched academic initiatives for spreading the awareness about a strong and sustainable World Federation under the "Earth Constitution".

EFI has laid the foundation of a Global Knowledge Forum, a thinktank on Global Education. EFI invites all academicians and researchers of the world to join this unique knowledge movement, by contributing in their own field of specialisation.

EFI also supports the initiatives of Graduate School of World Problems (GSWP) of USA in its academic research initiatives. This will open up immense opportunities in many spheres of the economy.

Many thanks to the members of Advisory Board for their support and for the Editorial Board for taking up the onerous responsibility of laying the foundation for this great initiative. Thanks also to the contributors for sharing their works, at such a short notice.

Happy Federating the World .
