A NEWSLETTER OF EARTH FEDERATION INSTITUTE

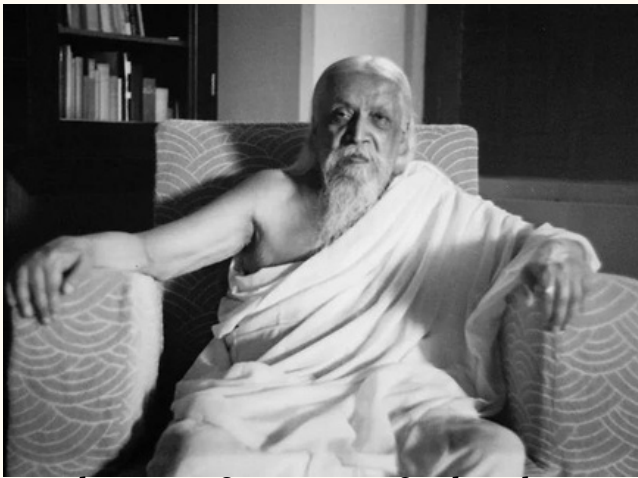

Internal Circulation Only

November 2023

Vol 1 Issue 2

NEED OF THE HOUR:

A Democratic Earth Federation

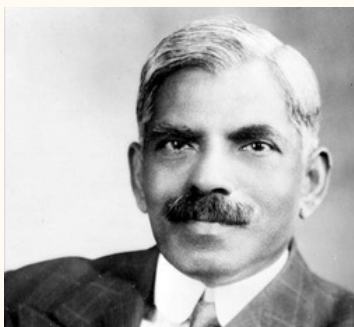

"....That unification of the human world is under way; there is an imperfect initiation organized but struggling against tremendous difficulties. But the momentum is there and it must inevitably increase and conquer. Here too India has begun to play a prominent part and, if she can develop that larger statesmanship which is not limited by the present facts and immediate possibilities but looks into the future and brings it

nearer, her presence may make all the difference between a slow and timid and a bold and swift development. A catastrophe may intervene and interrupt or destroy what is being done, but even then the final result is sure. For unification is a necessity of Nature, an inevitable movement." These were the words of the visionary Sri Aurobindo on 15th Aug 1947, on his birthday, which happened to be the Independence Day for India.

In line with his dream Earth Federation Institute has been striving to get the global citizens into the Earth Federation Movement. EFI has declared November and December 2023 as months of Outreach initiatives.

SPECIAL INITIATIVE

UN to be World Parliament..

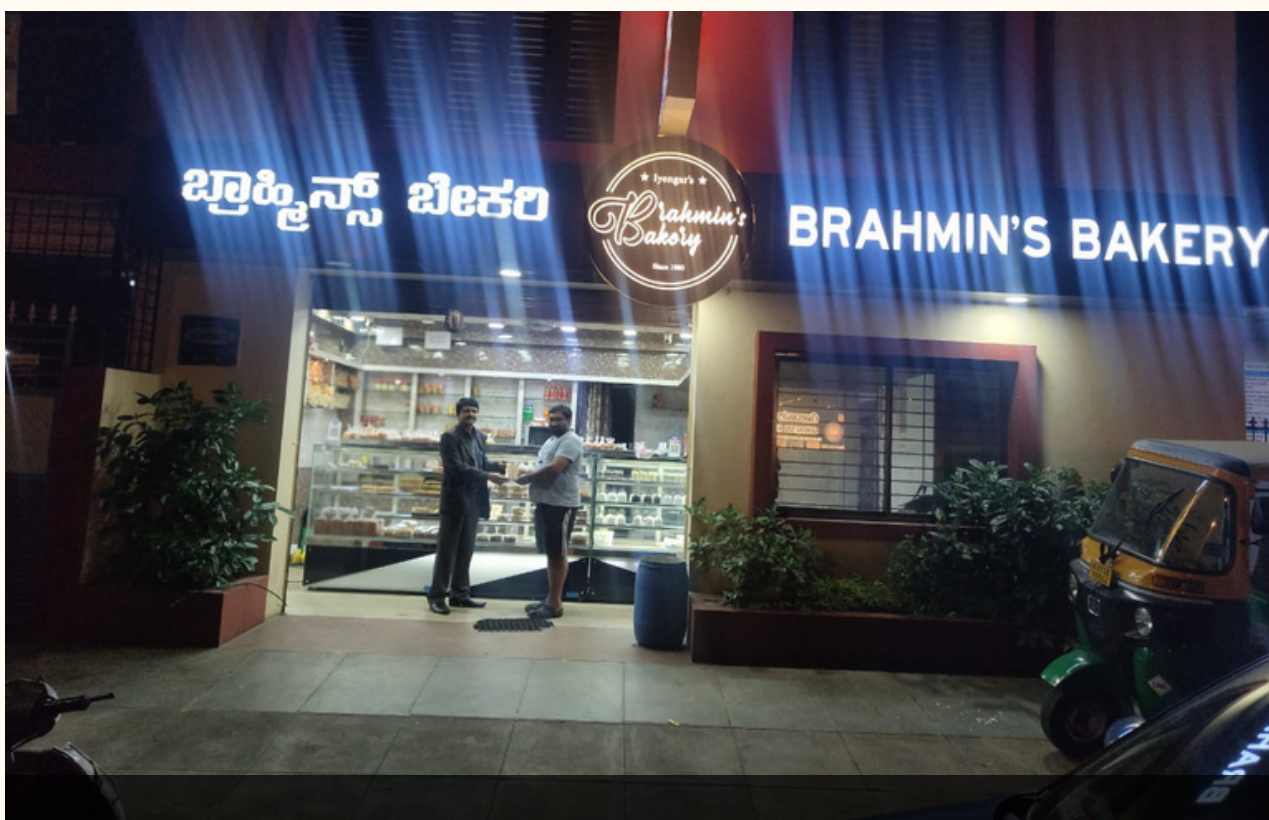

Sir A R Mudaliar had said in 1945 at UN: "...I go back with the hope, maybe the assurance, that here at San Francisco we have taken a step; we have made a move; we have advanced; and that sooner or later,.... there will be that far-off Divine event to which the whole creation moves: the convocation of the parliament of man, the establishment of the Federation of the World." Citizens of the world have been planning for the 16th Provisional World Parliament session soon in 2024.....Don't forget to join the global event.

“World is One Family” – A New milestone

Businesses and Industries start Joining hands with the global mission

Chef Samidoss of the Famous Chef bakers Receiving “Vishva Snehi” Award on International Chef Day.

Brahmin's Bakery signs up to join the global movement

“Quality Global Education” – A New mantra

Dr. Harish Babu, Director, Management Studies NGI Yelahanka Receiving copy of EC

Global Education to all Global citizens is a mission mantra of WCPA and Graduate School of World Problems. Mr. P N Murthy and Mr. Hanumesh Rao met Dr. Harish Babu S, Director, Management Studies, Nagarjuna Group of Institutions, Yelahanka and briefed about the global movement.

Dr. Babu has expressed the willingness to work with Graduate School of World Problems in academic and research initiatives for finding solutions to global problems.

Technical Skills – A shared vision

Prof. Manjunath HOD Civil Engg Dayanand Sagar Academy of Technology and Management being presented with a copy of the Earth Constitution

India is a knowledge hub for skills required at global level. Significant progress has been made in India in technical education and soon is expected to build capabilities to support the knowledge requirements of the whole global market. Article 7.3 of the Earth Constitution has provisions for global education as well as Science and technology and human settlements and habitats. It also lists all the administrative departments under the world government. Graduate School of World Problems encourages academic and research organisations to

facilitate studies of world problems to find feasible and affordable solutions. DSATM is keen to explore opportunities to provide support in our knowledge share /skill enhancement Initiatives.

“Quality Global Education” – A New Mantra

Principal Dr Nagaraju of SDUIM Doddaballapur, Bangalore Rural. presented with a copy of Earth Constitution

Dr.Chikkanna, Principal of the Evening College, SDUIM Doddaballapur, Bangalore Rural being presented with a copy of the Earth Constitution

Now WCPA is connected with major part of urban India. But demographically this is a very minor part. The world at large is in semi-urban and rural India and efforts are on to connect with this segment and this work is going on a major scale. The prime focus is to connect with the academicians, students and youth from rural India to be part of this great human movement.

Since the current academic system does not concentrate on governance in general, EFI is engaged in interacting with students in physical meetings and in virtual meetings. In all our outreach programs, Earth Federation Institute is trying to speak to young minds, talk to them about global governance and motivating them to be active Global Citizens. Students were presented with Swami Vivekananda's "His Call to the Nation", a collection of inspirational and motivational words.

“Global Education” – Reaching Rural

Team Earth Federation Institute is working on reaching out to the rural and interiors of the country which has immense potential to support the vision of Earth Federation movement and particularly be part of global governance initiatives. Prof. P N Murthy VP WCPA, Director EFI addressed the students at GFGC Devanahalli on upskilling needs and necessity of developing global perspective ;Mr. Hanumesh Rao Director - New Projects and Outreach is seen on the dais. Below (R) is the audience at the event.
