Assembled by Radio Frequency welding for a water-tight body

Class 4 Waterproof Rating Meets IPX7 Standards

Manufactured in the USA

HARTWELL WATERPROOF DECK BAG

Our brand new, Made In USA, 25 liter waterproof deck bag is perfect for all kayaking and stand-up paddleboard expeditions. And each bag features an airtight waterproof zipper that is submersible to 3 feet – so you don't have to worry when your kayak or SUP rolls over! Unique to the Hartwell Waterproof Deck bag is an integrated carabiner bungee system that allows you to quickly and securely attach this bag almost anywhere. Best of all, the placement of the bungees and the zipper allow easy access into your waterproof deck bag, while it is securely fixed to your kayak or SUP.

Another unique feature to this waterproof deck bag are the molle panels, which you will find on each side of the deck bag. The side molle panels (originally adopted by the US Military) allows you to attach all sorts of molle accessories, readily available all over the world. But our waterproof bags already come with 2 molle bungee retainers, and a molle collapsible/expandable water bottle holder. Each of these molle accessories are removable and/or repositionable. So you can put them where you like – or take them away.

Each bag is RF welded of durable double-coated polyurethane over rip-stop nylon. Other features of the Hartwell Waterproof Deck Bag include a rear carry handle, 2 deluxe d-rings, 2 top accessory slots, and an adjustable and/or removable shoulder strap.

Integrated Carabiner Bungee System

Dimensions: 14.5" W x 6.5" H x 22.5" L
Total Weight: 1lb. 8oz.

HARTWELL WATERPROOF DECK BAG - 25L

● COYOTE BROWN - M62404

● TANGERINE - M62407

SUBMERSIBLE

ALLATOONA WATERPROOF DUFFEL

This USA Made waterproof duffel is 40 liters in size, and submersible to 3 feet. RF welded from double-coated polyurethane (PVC-free), the airtight watertight zipper of this duffel makes it easy to use and FULLY IPX7 waterproof. Other features of this submersible duffel include strong 1.5 nylon webbing handles and 4 deluxe D-rings.

Each of these waterproof zipper bags is RF welded from double-coated polyurethane. Compared in similar thicknesses polyurethane is superior to PVC most every way: cold weather, direct sunlight, chemical resistance, crack resistance, abrasion resistance, environmental friendliness, and overall strength. And we chose some of the thickest double-coated polyurethane to maximize all of these positive characteristics. Each fully waterproof Allatoona Duffel is Made in the USA and features an airtight zipper with an easy-grab T-handle.

The 40 Liter size is perfect for a weekend on, near, around, or in the water.

*Dimensions: 10"x12.5"x23"
Total Weight: 1lb. 8oz.*

EXTREME SUBMERSIBLE

Submersible up to 15 feet

Sealed with a water-tight YKK submersible zipper

Assembled by Radio Frequency welding for a water-tight body

Class 5 Waterproof Rating Beyond IPX8 Standards

Manufactured in the USA

WATERPROOF USA DUFFELS

These commercial grade 'Made In The USA' duffels are truly waterproof - submersible to 15 feet! And with a real waterproof zipper from YKK, you can just zip your gear dry. This ultimate dry bag is created with radio frequency welding, double-coated polyurethane, and heavy-duty components. The wide 1.5" nylon webbing handles were designed to be long enough to use as backpack straps, should the need arise. And the 4 deluxe D-rings are perfect for securing the duffel in almost any situation. The performance of this extreme zipper has been tested down to -122 deg.F and up to +140 deg.F.

Compared in similar thicknesses, polyurethane is superior to PVC in most every way: cold weather, direct sunlight, chemical resistance, crack resistance, abrasion resistance, environmental friendliness, and overall strength. And we chose some of the thickest double-coated polyurethane to maximize all of these positive characteristics.

The YKK waterproof zippers are also Made In The USA

The 30 Liter size is perfect for a day trip on, near, around, or in the water.

*Dimensions: 10"x12.5"x18"
Total Weight: 1lb. 8oz.*

WATERPROOF USA DUFFEL - 30L

- COYOTE BROWN - M62104
- MATTE BLACK - M62100

Now Featuring padded carry strap gripper handles

EXTREME SUBMERSIBLE

Each Extreme Submersible product is manufactured in Commerce, GA, with radio frequency welding and features a YKK water-tight zipper. And the YKK waterproof zipper is also manufactured in Georgia.

Every Extreme Submersible product also comes with a **3 Year Warranty** against any manufacturing defects.

The 65 & 90 Liter duffels have a larger girth and length than the 30 liter, so we added a 7"x7" mesh zipper pocket on the inside end, so you wouldn't lose your keys inside these large duffels.

Dimensions: 12"x15"x26"

Total Weight: 2lb. 6oz.

WATERPROOF USA DUFFEL - 65L

● COYOTE BROWN - M63104

● MATTE BLACK - M63100

The 90 liter duffel is just like the 65 Liter Duffel in every way, except that it's 10 inches longer.

Dimensions: 12"x15"x36"

Total Weight: 2lb. 15oz.

WATERPROOF USA DUFFEL - 90L

● COYOTE BROWN - M64104

● MATTE BLACK - M64100

WATERPROOF MAD MAP CASES

Built with spring clips on each corner, these map cases can attach to just about anything. Each waterproof map case is rated as a Class 3 item – able to handle all top-down watering applications, and even a quick submersion.

MEDIUM: M92200

Dimensions: 9" x 12" (inside)

Total Weight: 4.8oz.

LARGE: M92400

Dimensions: 12" x 18" (inside)

Total Weight: 7.6oz.

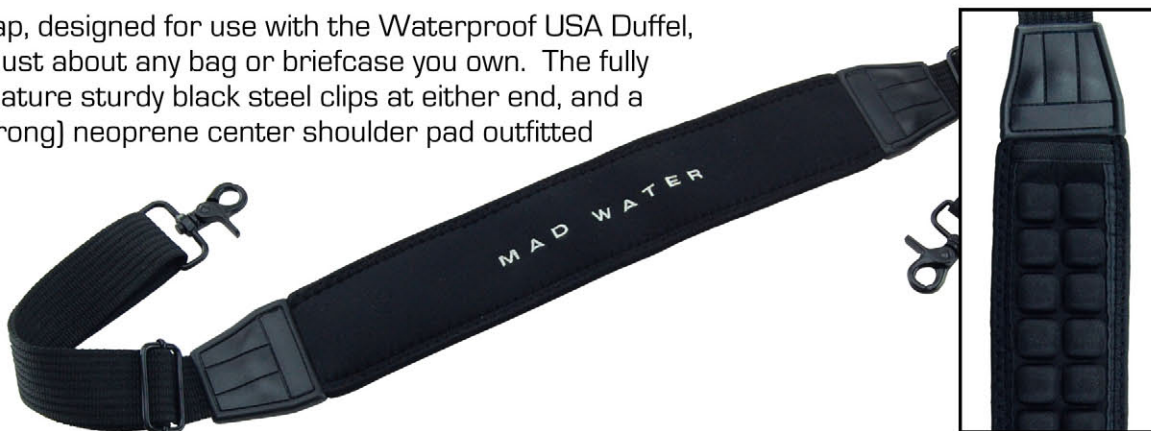

DELUXE SHOULDER STRAP

This deluxe shoulder strap, designed for use with the Waterproof USA Duffel, could in fact be used on just about any bag or briefcase you own. The fully adjustable 1.5" straps feature sturdy black steel clips at either end, and a flexible (but extremely strong) neoprene center shoulder pad outfitted with soft comfort cubes.

Total Weight: 6.0 oz.

BLACK: M93000

BACK SIDE

CARABINER BUNGEE KIT (4pc)

M96500

This 4 piece carabiner bungee kit is perfect for securing your bag to a kayak, raft, or paddleboard. The compact 20mm wide carabiners will slip through the smallest of holes. Each 4 piece kit includes (2) 18" bungees, and (2) 24" bungees.

Total Length: 21" & 27", including carabiners

CORD Diameter: 5mm

Total Kit Weight: 3.7 oz.

MOLYKOTE®

M91235

One 6 gram packet of Molykote 33 Light, extreme low temperature zipper grease. Preferred by YKK for the YKK zipper garage. Enough lubricant for 15-20 applications. Lubricating the zipper teeth is not necessary.

MOLLE WATER BOTTLE HOLDER

Able to attach to any molle system, or even most belts, this collapsible mesh water bottle holder will hold most reusable (or disposable) water bottles. When in use, there is also a top bungee retainer to secure the water bottle in place. This is the same water bottle holder that comes with each Hartwell Waterproof Deck Bag.

Closed Dimensions: 2.5" X 1.5" X 5.5"
Total Weight: 1.9oz.
