

NOBEL TECHNOLOGY GROUP INC

1-YEAR LIMITED WARRANTY

Interior Doors & Door Hardware — USA

Warranty Period One (1) year from the original date of purchase.	Coverage Manufacturing defects in materials and workmanship under normal residential use.
--	---

1. What This Warranty Covers

Nobel Technology Group INC (“Nobel Technology Group,” “we,” “us,” or “our”) warrants to the original retail purchaser that eligible interior doors and door hardware purchased from an authorized seller in the United States will be free from defects in materials and workmanship for one (1) year from the original date of purchase, when the product is properly installed, used, and maintained in accordance with the applicable installation instructions.

2. Products Covered

This limited warranty applies to eligible interior doors and door hardware sold by Nobel Technology Group INC, including, where applicable, door slabs, pre-hung interior doors, sliding door systems and related hardware, hinges, handles, knobs, levers, locks, latches, and other door-hardware components. Warranty coverage is subject to the specific product's intended use and installation requirements.

3. Warranty Remedy

If a covered product is determined by Nobel Technology Group INC to contain a manufacturing defect during the warranty period, Nobel Technology Group may, at its option and to the extent permitted by applicable law: (a) provide replacement parts; (b) replace the defective product or component with the same or a comparable product; or (c) provide another appropriate remedy. The remedy will be determined after review of the warranty claim and available product information.

4. What Is Not Covered

This warranty does not cover damage or defects caused by improper installation, incorrect assembly, misuse, abuse, negligence, accident, modification, alteration, unauthorized repair, improper storage, improper handling, commercial or industrial use unless expressly approved, normal wear and tear, scratches or cosmetic damage occurring after delivery, moisture or water damage, exposure to extreme environmental conditions, improper cleaning or maintenance, or failure to follow installation, care, and maintenance instructions.

5. Door Installation and Adjustment

For interior doors and door systems, proper installation is essential. This warranty does not cover issues resulting from building movement, structural settlement, uneven or out-of-level openings, improper shimming, inadequate fastening, incorrect hardware installation, failure to maintain required clearances, or adjustments that are reasonably required after installation. Minor variations in wood grain, color, texture, and other natural characteristics of wood or wood-based materials are not considered manufacturing defects.

6. Hardware Components

For door hardware, warranty coverage applies to manufacturing defects in the covered component. Normal operational wear, finish changes caused by use or environmental exposure, damage from chemicals or abrasive cleaners, and installation-related damage are excluded. Mechanical components must be installed and operated according to the product instructions.

7. How to Make a Warranty Claim

To submit a warranty claim, contact the seller from whom the product was purchased or Nobel Technology Group INC customer service. Please be prepared to provide: (1) proof of purchase; (2) product name, SKU, or model number; (3) purchase date; (4) a description of the issue; and (5) clear photographs or video showing the claimed defect and, when relevant, the installation. Nobel Technology Group may request additional information to evaluate the claim.

8. Claim Review

Nobel Technology Group INC reserves the right to inspect the product, request additional photographs or documentation, or require the product to be returned for evaluation before approving a warranty remedy. Products returned without prior authorization may be refused. Shipping or other costs associated with a warranty claim will be handled according to the instructions provided by Nobel Technology Group or the authorized seller.

9. Limitations

This warranty is limited to the original retail purchaser and is not transferable except where required by applicable law. The warranty period does not restart or extend because a product or component is repaired or replaced. To the maximum extent permitted by applicable law, Nobel Technology Group INC is not responsible for indirect, incidental, special, consequential, or other losses arising from a warranty claim, including installation, removal, labor, inconvenience, or loss of use, except where such limitation is prohibited by law.

10. Consumer Rights

This limited warranty gives you specific legal rights. You may also have additional rights under applicable federal, state, or local laws, and those rights are not intended to be limited by this warranty where such limitation is prohibited by law.

11. Warranty Effective Date

This warranty applies to eligible products purchased on or after the date of publication of this warranty, unless a different warranty is expressly provided with the product or required by applicable law. Nobel Technology Group INC reserves the right to update this warranty for future purchases; changes will not retroactively reduce rights applicable to a previously purchased product.
