

SEH' CHENE: The Dene translation includes
“harmonious agreements”, or “partnership”

ABOUT

Seh' Chene Well Services Limited Partnership is part of the Saa Dene Group of Companies, and High Arctic Energy Services. Together they have established one of the most dependable and innovative Indigenous energy service providers.

The relationship is forged with a common foundation of trust, respect and equality. The Saa Dene group is owned by Internationally respected business leader and philanthropist, Mr. Jim Boucher, who was the Fort McKay First Nation's Chief for 30 years. Benefits from the partnership extend beyond his traditional borders and benefit Indigenous peoples not only locally, but Nationally.

The Seh' Chene Well Services Limited Partnership is a certified member of Canadian Council of Aboriginal Business (CCAB).

OUR MISSION

To create opportunity for local Indigenous communities and individuals focused on environmental stewardship, while delivering dependable, high quality energy services.

OUR VISION

To be the most respected and desired Aboriginal supplier of energy services.

Excellence in safety and service through exceptional leadership

INDIGENOUS SUPPORT COMMUNITY INVESTMENT

Seh' Chene is committed to creating economic opportunities for Indigenous peoples and Local residents, providing Oilfield Services to resource development companies, and giving back to the communities.

The partners, through their family of businesses, are committed to supporting initiatives that engage and empower people through, education, health and wellness, community and culture.

CAPABILITIES

High Arctic Energy Services is a specialized oilfield services company with a long history of providing drilling, completion, and workover services to the North American and International oil and gas industry.

High Arctic has always recognized that its main asset is its people and the importance of a solid base of dedicated and experienced crews is integral to the success of the projects worked on for our valued customers. High Arctic has a quality focus based on the foundation of competent personnel and certified fit-for-purpose equipment. High Arctic brings that expertise to solutions and innovations, an outstanding safety record, and an attitude that makes the difference.

As the Seh' Chene partnership evolves so will our employee base under the experienced guidance of Saa Dene and High Arctic management.
