

FULL OVERLAY

Available: Crestwood & Bria

The door styles shown on these three pages are available in Full Overlay, which is our most popular styling option. With Full Overlay styling, doors and drawer fronts are sized to cover most of the cabinet face, leaving minimal space between adjacent doors.

IMPORTANT: Accuracy of finish colors is subject to printing limitations and will not match actual product. Final finish selections should always be made from a door sample and/or display.

Full Overlay styling creates a sleek, integrated look because the design of the door is not interrupted between cabinets. The design emphasis is completely focused on the details of the door style because the door and drawer front cover most of the cabinet face. This is Dura Supreme's most expansive collection of door styles that complements every décor and includes our popular mitered doors.

CRESTWOOD INSET

Inset cabinetry is crafted by hand-fitting the door and drawer front within the face frame of the cabinet. It is available with a traditional “beaded” frame or with a more streamlined “non-beaded” frame. Inset cabinetry is a popular and distinctive look inspired by early American furniture makers and offers an authentic, hand-crafted look with timeless appeal.

STAINED FINISHES

Dura Supreme offers a beautiful palette of hand-rubbed, stained finishes that enhance the natural character and grain of the wood species. Our finish artisans meticulously sand the entire surface and profiles of the door so that the stain is absorbed evenly. The stain is then applied over the surface and wiped by hand so that it develops a beautiful, transparent color that fully showcases the grain and character of the wood. Our durable catalyzed conversion varnish sealer and topcoat protect the finish and create a soft luster with a smooth, silky feel.

STAIN/GLAZE & STAIN/ACCENT FINISHES

Glaze is a semi-transparent color that is applied over the stain for added depth and dimension. Along profiles and corners, the glaze highlights and accentuates the details of the door. Glaze is an artistic, hand-applied finish technique that will exhibit subtle and unique variations. Dura Supreme offers two types of glazes; a full-coverage glaze which is sprayed over the entire surface and tints the base stain color, and an “Accent” glaze that is applied only along profiles and edges.

PAINT FINISHES

Our popular painted finishes are selected for their crisp, classic styling and their rich, depth of color. They are used throughout entire kitchens and often as accent colors on an island or cook center. Dura Supreme offers an attractive palette of fashionable and classic colors. Custom colors are also available to perfectly match any shade, or select from the entire Sherwin Williams paint palette with our Personal Paint Match program.

Match any shade with our Custom Color or Personal Paint Match program.

PAINT/ACCENT FINISHES

Accent glaze is applied to the door only along profiles and edges where it is intended to be visible, to accent the details of the door. The base paint color is not affected. Accent glaze is an artistic, hand-applied finish technique that will exhibit subtle and unique variations.

— PAINTABLE —

	PEARL/ SLATE	CASHMERE/ SLATE	LATTE/ BROWN	ZINC/ SLATE	STORM GRAY/ SLATE

PAINT/GLAZE FINISHES

Glaze is applied over the paint to create a subtle wash of color that creates a brush-stroked look and tints the base paint color. Along profiles and corners, the glaze highlights and accentuates the details of the door. These finishes employ artistic, hand-applied finish techniques that exhibit subtle and unique variations.

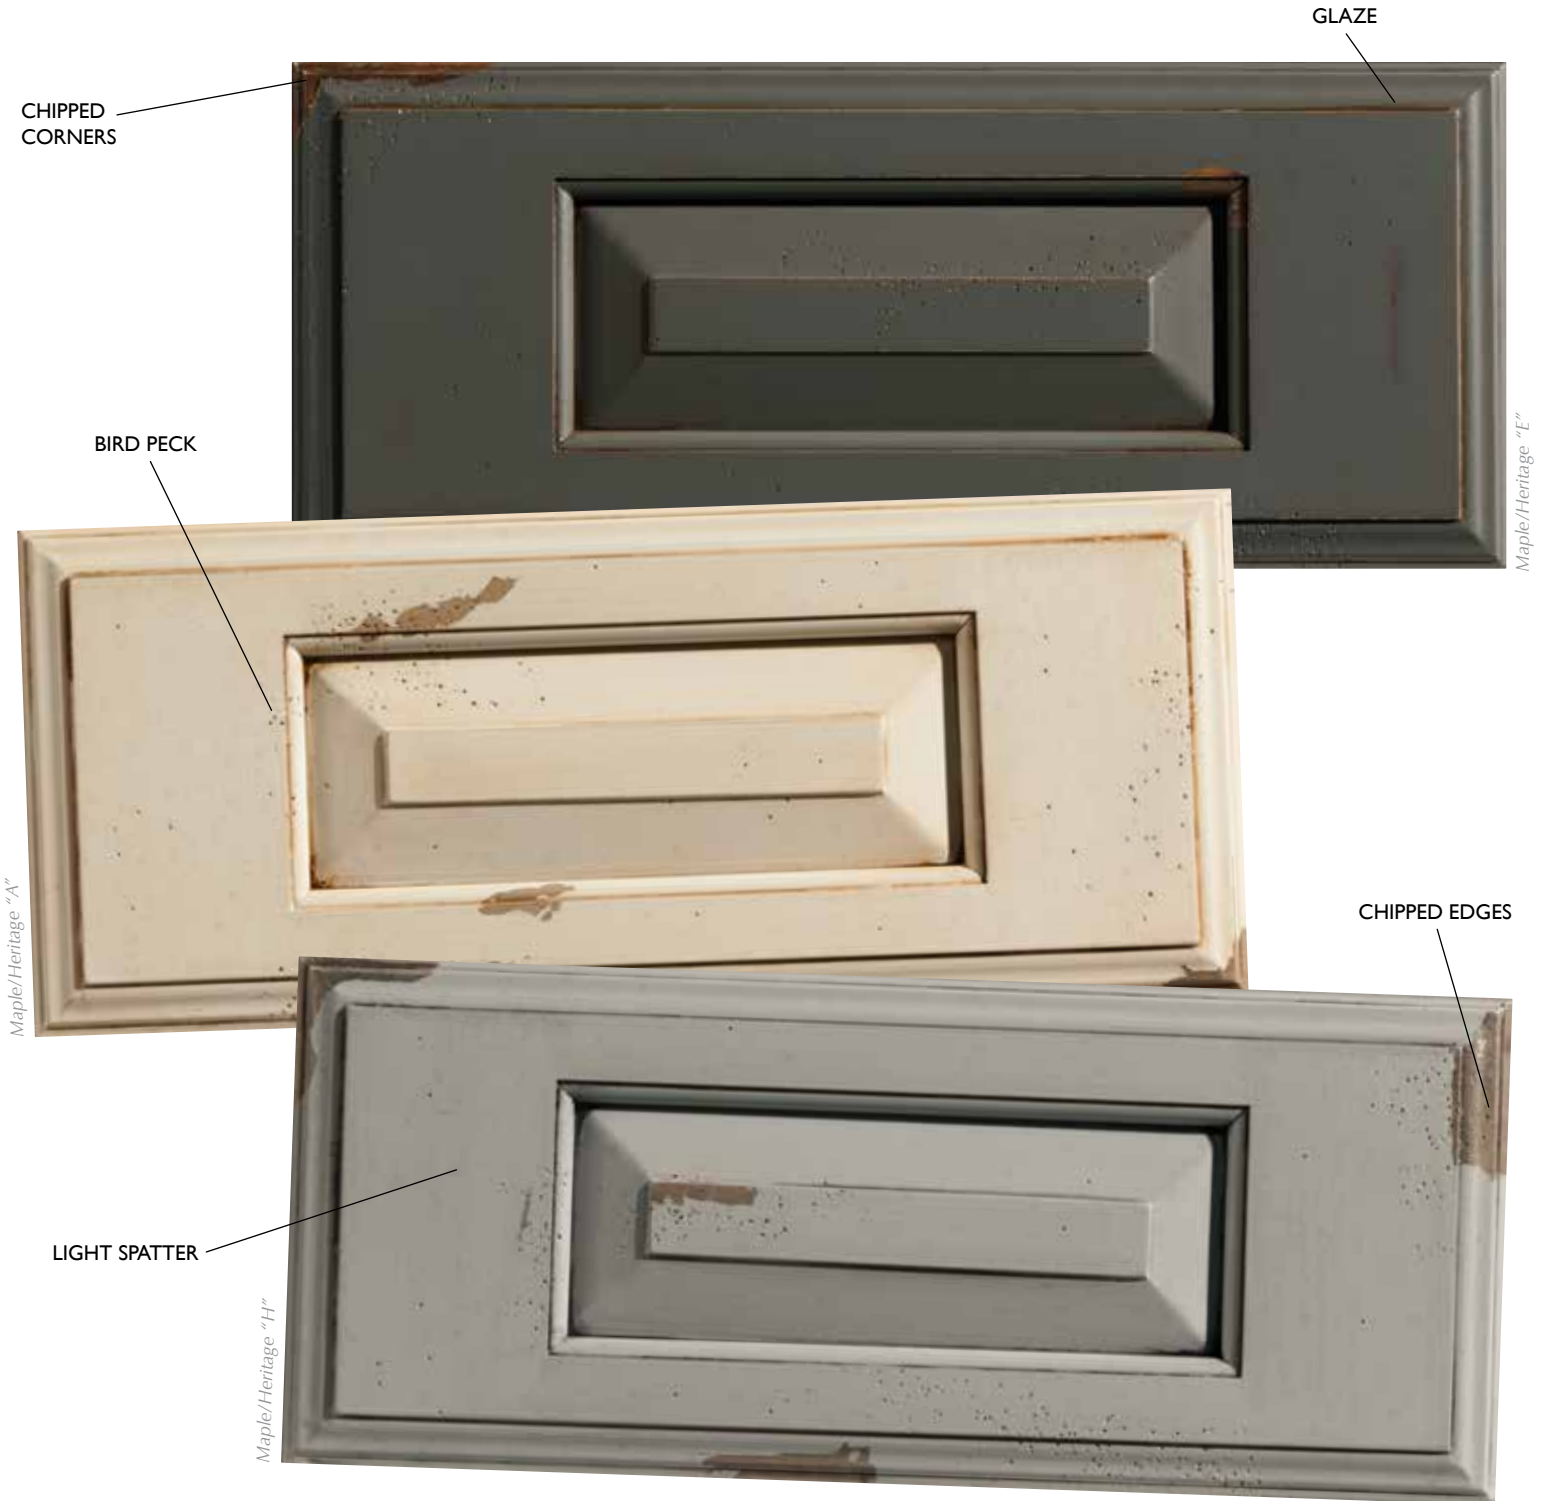

— PAINTABLE —

HERITAGE PAINT

Available: Crestwood & Bria

This finish collection is designed to look like a family heirloom that has been refinished over time and reveals layers of color and hand-detailing. A stain color is applied before the paint and then corners and edges are chipped to reveal the underlying stain color. This artistic finish application will exhibit unique, subtle variations.

WEATHERED FINISHES

Available: Crestwood & Bria

Reminiscent of softly weathered wood, our Weathered Finish Collection looks as if it has been exposed to years of sun, wind and rain. Our special finishing process raises the grain to expose swirls and patterns with a uniquely textured surface. The wood is then slightly distressed by hand to replicate age and wear. After staining, glaze is applied to highlight the grain and then lightly buffed on edges and around knots to reveal the stain color below. This artistic finish will exhibit unique, subtle variations.

HEIRLOOM/HEAVY HEIRLOOM

Available: Crestwood & Bria

This collection of stain/glaze finishes is hand-detailed to create an “antiqued” appearance with beautiful dimension and depth. Doors and drawers are distressed and detailed to create a time-worn appearance. Heavy Heirloom finishes are chiseled and rasped to create a more rustic appearance. This is an artistic, hand-detailed finish that will exhibit unique, subtle variations.
