

(Ex) Queen of Hearts

I'm the last thing on your mind at night
But there's another girl asleep in your bed
I hate how much you've fucked this up
But I can't seem to get you out of my head
And every picture that I see
Fills me up with some sort of dread
I'm tired of the game so forget my name
And forget every word I ever said

There you go again, breaking my heart, I think I've had enough
Only have myself to blame, but this time I don't give a fuck
You're overrated, and I'm out of luck
See you later, then. Careful that you don't get stuck

The truth of the matter is the future might be shattered
But I don't wanna give up the chase
Yes, I get it, it makes me more pathetic
But you'd feel me if you stood in my place
I was caught up in a fairytale
Dreaming about Leather and Lace
Then reality hit like the bitch that she is
I trip and I fall from grace

There I go again, creating situations in my head
Overthinking everything when nothing's even happened yet

My head is aching, my stomach's full of lead

Don't wanna hear your bullshit; save your speeches, save your
breath

Ahh, ahh, ahh, ahh (I make em say)

I gotta give it, gettin close to my limit

When it hits, I don't know what I'm gonna do

Givin' up on the thought of us

Cuz im startin to accept the truth

I really hope I'm missing something

But I'd have to see some form of proof

So have a good life with your pretty wife

And don't you dare forget just what I meant to you

There we go again, cycle ending the same way it starts

Burn everything to the ground, pick all of the remains apart

He's the King of Sabotage, and I'm the Ex Queen of Hearts

Ugly like a tornado, beautiful like dyin stars

Ahh, ahh, ahh, ahh (I make em say)
