

Overthinking It

I think I wanna drive all night into the sunrise
I think I wanna stay home
I think I wanna leave before the party's over
I think I wanna meet up with some friends
 I don't have answers, I just have questions
 I'm just wandering around
 I think I'm, I think I'm....lost...

I think I wanna go, no I think I wanna stay here
I think I'm alone
I think I'll draw a map, find the center of the universe
I think it's gonna work this time
 I don't know where I'm going
 I don't even know where I've been
 I want to stop the void from growing

I think I, I think I, I think I,
I think I'm overthinking it
I think I, I think I, I think I,
I think I'm overthinking it
I think I, I think I, I think I....

I wish everybody knew my music
I wish nobody knew my name
I think I like keeping things a secret
They never look at you the same
 I know I don't need anybody
 I think I'm kinda lonely inside
 I just wanna know am I somebody?
 I wanna get fucked up
 knowin not which end is up
 spin around til I throw up
 why the fuck am I alive?
 I think I, I think I, I think I

I think I'm overthinking it
I think I, I think I, I think I
I think I'm overthinking it
I think I, I think I, I think I...

I think that I should get some sleep
I think that I won't ever sleep again
Maybe I should smoke some weed
I think I miss everyone I ever loved
I think that I'm so ordinary
I think that there's no one like me
It's so contradictory
I think I, I think I,
I think I'm overthinking it
I think I, I think I, I think I,
I think I'm over thinking it
I think I, I think I, I think I...

Sometimes, I just wonder why
I don't wanna live, I don't wanna die
