

Thank you for your interest in my labor and postpartum support services. *Bump To Baby Mothering Services* was founded to support women during birth and to meet the growing need for labor and postpartum support in our community.

It is now widely recognized that choosing to add a labor support person to one's birth team can yield many positive benefits. A woman's memories of her birth experiences last a lifetime and can have powerful effects on her self esteem and confidence. I am committed to helping women and couples feel empowered and supported as they experience birth.

Details of my services and a letter of agreement are enclosed with this letter. Feel free to call, email, or text me if you have any further questions about my service packages or agreement.

I take no more than two doula clients each month. After today's meeting, I will reserve a space for you on my calendar for seven days. Should you choose to hire me, please call or email me within this period to let me know of your decision, and mail the signed copies with your deposit once I have sent the address via email or we can have a client in-take meeting to obtain the contract and deposit. After seven days, if I have not received your response, I will release the space being held for other potential clients.

It is my goal to help mothers learn to trust in their beautiful, strong bodies and to trust in birth. The moment that a baby is born is joyous, magical, and wondrous, and it is my wish for mothers and their partners to experience the birth of their babies as fully as possible.

It would be an honor to have the opportunity to share this time with you. I will work to support you to birth in awareness, where you feel confident, informed, and surrounded with care, love and respect.

Warmest Regards,

Calista Jensen
