Monthly Budget
Planner

Here are five effective ways to approach budgeting:

1. Identify your income and expenses: Make a list of all your sources of income and expenses. This will help you determine how much money you have coming in and going out each month.
2. Set financial goals: Decide what you want to achieve with your money. This could be saving for a deposit on a house, paying off debt, or building an emergency fund, investing in pensions, or a stocks and shares ISA. Put these goals into your budget.
3. Create a budget: Use your income and expenses to create a budget. This will help you see where your money is going and where you can cut back/ and redirect your money.
4. Adjust as needed: Your budget is not set in stone. You may need to make adjustments as your income or expenses change. Be flexible and willing to make changes to keep your budget on track.
5. Remember your budget is an opportunity for you to decide what you invest your money in.
