色
深灰色通常用于营造沉稳的氛围，可以象征沉稳、成熟、高贵。毕加索曾说过“灰色是唯一不会留下痕迹的颜色。”
高级的深灰色搭配上轻盈灵动的烤漆玻璃材质，使之独具特色，通过完美比例的设计，展现出安静、永恒的艺术之美。深邃的灰与透亮的玻璃相互协调，呈现出自然纯粹的状态。
深灰色是一种略带黑色的灰色，如同夜幕初垂的夜空，世界渐渐变得安静、朦胧、宁静。在静谧的夜色中，一切弥漫着祥和的气息，如同家的感觉。
双曲线设计拉手如同夜幕中的一轮皎月，让原本沉稳的氛围中增添了流动的气息。柔美的线条透露出自由、优雅、艺术。远看温柔如水，近看极具视觉张力。

Color
Dark gray is usually used to create a calm atmosphere and represents steady, maturity and nobility. Picasso said, "Gray is the only color without leaving trace."
Advanced dark gray color and graceful paint glass present unique characteristics. The perfect proportion design displays peaceful and eternal art beauty. Dark gray coordinating with bright glass brings back the pure natural state.
Dark gray is a kind of gray within aggressive black. Like the early night sky, world becomes peace, mistiness and tranquillity. In the quiet night, everything is filled with tranquil presence, such as homelike feeling.
Hyperbola designed handle is like crescent moon in the dark sky and adds flowing breath to the calm atmosphere. Soft line expresses freedom, elegance and art. It is tender as water from afar and with visual tension nearby.
