

Name: _____

Class: _____ Date: _____

Step 5: Communicating Workspace

Please follow along with your teachers as you use this workspace to go through the observing process. Follow the numbers next to each activity/diagram in chronological order.

1. Discovering S.P.E.A.K.

Do a quick reflection on your exercises, answer the guiding questions:

How did the exercises feel?

What went well?

What do you think could have gone better?

What is your favorite letter in S.P.E.A.K.?

What are you going to improve on for next time?

2. Filming a 60-Second Video

Write out some bullet points about what you will include in your 60-second video:

What did you learn from filming? How will you improve your video later?

3. Sharing your 60-Second Video

How will you share your video with the class? Circle Yes or No:

Will you have a speech to back it up?	YES	NO
Will you include a quick message about your journey?	YES	NO
Will you perform a skit or put on a play?	YES	NO
Will you create an audience experience?	YES	NO

If none apply...what will you do?

List three words to describe your entire innovation experience. It is hard, I know.

_____, _____, and _____
