

If it's war you want, it's war you'll get

- *Norway vs. NV conflict of destruction*

Illustration: Enjoy your life as a mother

This is a disgusting Norwegian woman called Thea Gunneng Ørvik. This is the woman who blames the father of her child for mental, physical and possible sexual abuse to avoid some sort of conflict within her own 'family'. She (well, she is close to being retarded to even manage to pay herself out of it so her inbred father Helge Ørvik and Cruella de Ville stepmother Inger Lise Dybvik has contributed) lies to everyone around her who does not know the father, such as teachers and the rest of her inbred family, making her child's situation even worse. She has no problems whatsoever with ignoring her own child's needs. Fundamental needs such as fundamental human rights. But who is to blame? Because she comes from a troubled childhood making her synapses resisting anything that does not fit her own little bubble. Like an eight year old, or just a normal disgusting Norwegian moneycraving woman. This is one of the main reasons why iacte Ltd. chooses to be valued at roughly one British pound.

Her mentality has no problems with stopping all contact before a planned summer vacation with the father and the child, and also keeping the father away for almost a year, without any other legit reason that she can not handle a situation where 'her' child possibly prefers time with her father rather than an ignoring self-centered 'mother'.

The Norwegian judicial system obviously has no problem with such a terrible situation, creating the slogan 'wee destroy children'. Almost four years later, this specific case is highly highlighted, it is still perfectly okay.

She has now come to a point where she is so wicked in her spiderweb of lies that she does not manage to explain herself properly due to her own close connections which is based on lies, betrayal, pure evil and the bitch-gene.

The NV will do whatever it can to both protect and help the U.S, China and Russia. Norway is left behind.

Question: If God can penetrate your mind in a symbiotic relation with your environment, why does she still (at the age of over 40) continue to manipulate? And if she can not manipulate others why is she so unreachable?

Imagine how easy things would have been for you if the Norwegian judicial system had not chosen to cover corruption in a situation like this. The true force of GEC, iacte & the NV is now restricted. What a joke of a nation
