

روون كردنه‌ۆی درنده‌ی دابان شه‌ده‌له نوینه‌ری یه‌کیته‌ی نیشتیما‌نی کوردستان is in As Sulaymaniyah, Iraq.

March 30 at 9:19 AM · As Sulaymaniyah, Iraq ·

We live in a world that is divided by those who dont believe in unity. However, for those who came together, we managed to form a beautiful world, that allows a human to rise with a free idea. Today more humans are free than any other time in history.

Those who pursue life through aggression, use violence or propaganda to mask their true colours. And when they inflict sadness on others, they further use force to stop them from free speech. Social media is not a platform for one to shape a fake image of themselves, but rather is a platform that has the power to shape the truth about our existence, reality and what we have become. The truth can't be painted over, no matter how colourful a lie is.

My brother Daban Shadala, Kurdistan Representative in Madrid Spain, has been living 2 lives, one on social media platform, that presents himself as one of those, who cares about the freedom of living in Kurdistan Iraq. However, this is only the mask side of the reality. Given the age difference between my brother Daban Shadala and I, and our life circumstances, what I knew about him was, he is a nice guy who helped people.

Knowing Kurdistan was economically booming and the world effort to help Kurdistan Iraq, the potentials was endless to contribute. In 2011, my husband and I after getting married, decided to go back to Kurdistan see our elderly family members and help them out with their life. This is when my brother entered my life and for over a year Daban asked my husband to help him. Given tension was mounting on Daban's life, and Daban insisting on my husband assistance, with my support, my husband finally decided to help Daban on the side. Years later, reality revealed it self and it turns out Daban shadala is involved in a trade system that is an abuse of power. Then when the truth started to show and those with moral values want to walk away from Daban's operations, Daban uses his connections with local officials and literary brings hell onto those who disagree with Daban and to the rest of their families. So far Daban illegally jailed 3 people, got them beaten severely, forced them to open their phone and use personnel content against them. Faked witnesses, threatened witnesses, bribed officials, taking over my property, his employees property, my family in law's property, my husband's life saving property.

He also ordered, his gang to beat the family members, of those he targets to put fear in, to prevent them from speaking out, or their families will be harmed in Kurdistan. The Spanish and European intelligence community, must be made aware of human abuse conducted by Daban Shadala's orders in Kurdistan. Daban is currently preventing me and my family, from going back to Kurdistan, because he bribed some officials to construct a false case to arrest my husband, because he is seeking to access our emails and data as he did with many others and erase evidence we have to defend our selves.

Daban Shadala has gained this power by making European Visa or residency for business men, who go into business with him for 50% of the share. Daban recruits many people by false pretences in Kurdistan to manage his secret businesses. And when matters are not the way he expects them, the outcomes are bloody.

What Daban did to my life and the life of many other families in Kurdistan, can no longer be hidden under the curtain of propaganda. The European countries must know, that my brother Daban Shadala has ruined the life of 6 families, including mine. His use of his political connection, gave him unlimited power to manipulate matters for his personal gain no matter the cost.

We live in an era that the unity of humankind, is shaped by transparency. That made the world smaller for those with masks on. On this page, over 18.000 people want Daban Shadala to be removed from office. But Daban Shadala, is hiding him self behind the Kurdish flag, that is raised by those who died for freedom.

Bakhan Shadala
