

CONNECTIONS PARENT GROUP

PARENTS EMPOWERING PARENTS

We are a group of parents/caregivers of a child who is Autistic, has ADHD, or is otherwise neurodivergent.

We are learning about and practising a neuro-affirming, developmental, relationship-based approach to raising our children. We offer a safe space for you to connect with others who truly understand your journey.

Topics are participant-led & include sharing related to child development, parenting, education, advocacy & everyday experiences.

No cost to attend. All are welcome!
