Dear Michael,

2021 has come to a close and we look forward to a healthy and prosperous 2022. During 2021, Epsilon Pi Tau placed an emphasis on connecting with chapters that had moved to an inactive status. That effort has been hugely successful. Many chapters have changed their status to active. Still more are planning their initiations for 2022. The "Roll Call" of Chapters during our Warner Awards Breakfast in Orlando, should be the best one in many years. In that spirit, we encourage you to reconnect with your chapter and help strengthen your local traditions. The EPT Global Forum presented by the Jerry Streichler Center, will continue in the spring of 2022. Details will always be available on our Facebook Page about upcoming events. The Board continues new chapter development and revitalization in the United States and around the world. We strive to serve our mission of recognizing excellence in members globally. We could not have done it without you! Thank you for your support and please consider an additional donation to one of our funds.

The Epsilon Pi Tau funds were created to support Scholarships, Awards and Professional Development Programs. Epsilon Pi Tau recognizes and rewards excellence among scholars and leaders in business, industry and education. The Epsilon Pi Tau Funds provides professional development support to individuals on their journey toward leadership positions.
