

I first had the pleasure of meeting Sarah and Bill in February this year when we arranged to meet and do a dog walk of Driffeld waterways from my house. We had the most wonderful walk together and it was just so lovely to finally meet Sarah and of course Bill as we had to re arrange the walk a couple of times due to such bad weather and flooding. We really did have the most amazing walk and Bill and Ollie got on so well too. Me and Sarah chatted about our businesses and life in general and it felt like I had known Sarah for agers.

Sarah has been amazing helping promote my dog boarding business and thanks to her I have gained a few clients with her help and sharing of my Facebook page. Sarah has advised and also helped me when I have needed it and been a great listener and advocate. We have met up a few times since on organised walks Sarah has created with her walking the Wolds business and also walks just the two of us. Sarah has also trusted me to look after her dog Bill whilst she was away on holiday which was a great honour and he had a wonderful holiday with us.

What Sarah has created since startng walking the Wolds has been incredible and I am so inspired by how popular she has become and just amazed by how much she has achieved so far since only starting her business a few months ago. She has brought many of us dog friendly people together and helped create a community of people who love walking and also of course love dogs and more importantly she has brought so many businesses together and supported us all and helped us grow. A massive thanks to Sarah again for everything she has done for all of us Bill loves partners especially me and Ollie from Eastfield dog boarding. Thanks again.
