VR Session Guide

April 17, 2024

Immerse Yourself in Fun: Your VR Party Experience Explained

Here's a detailed breakdown of your 3-hour VR party experience

Setting the Stage (10-15 minutes):

Our friendly game master (GM) will arrive at your location and take care of everything.

They'll efficiently set up the VR equipment, leaving you and your guests free to relax and get excited for virtual adventures.

Mastering the Controls (10 minutes):

The GM will be your guide in the virtual world! They'll provide a quick and informative session on using the VR controllers and headset.

This includes:

Button functionality: Learning the essential functions of each button for smooth gameplay.

Comfortable fit: Adjusting the headset for optimal comfort and clear vision for each player.

Gameplay instructions: Providing a clear understanding of the specific game rules and objectives.

The VR Arena Awaits (2 hours and 40 minutes):

Get ready to dive into the VR world! We offer a queue system for managing players, ensuring everyone gets a chance to play.

You'll have two options for the display screens:

Live gameplay: Witness the excitement firsthand as spectators can see what the current player is experiencing (screen mirroring from the VR headset).

Instructional videos: Between rounds, guests can watch helpful videos on YouTube that provide clear instructions for the next game on the screens.

The Games Galore (10-15 minutes per round, 4 players per round):

With three exciting games to choose from, your 3-hour party allows for two full rounds of VR adventures. Each player will enjoy:

Individual rounds (10-15 minutes): Experience the thrill of VR gameplay with 3 other participants for 10-15 minutes per round.

Twice the Fun: Each game will be played twice, allowing every player to participate and excel in two different VR experiences.

(Example: Jasper will conquer Beat Saber for 12 minutes, enjoying 3 exciting songs. He can then take a break while others play, knowing he gets another round of Beat Saber later!)

On-Site Considerations:

Variety is the Spice of VR Life:

After everyone has played the first game twice, the group can decide!

You can either delve into another VR world by choosing a new game or play the same game for another round.

Hygiene First:

We prioritize hygiene and player comfort. The GM will thoroughly wipe down the headset after each user, ensuring a clean and safe experience for everyone.

Pre-Party Information:

Downloadable guide: Short and informative game guide that guests can be aware of before the party. Game guide [link](https://vr2me.sg/vr-guide?blogcategory=Game+Guide) (<https://vr2me.sg/vr-guide?blogcategory=Game+Guide>)
