

BALINT GROUP

CLINICAL CASE
EXPLORATION TO BETTER
UNDERSTAND THE
CLINICIAN-PATIENT
RELATIONSHIP

Rochelle Frank, MD, FAAN
Clinical Professor
Department of Neurology
UC Davis School of Medicine

Marissa Pierce, MFT
Employee and Physician
Assistance Program Consultant
for Kaiser Permanente

Facilitated by Balint trained leaders, members present clinical cases for an in-depth group discussion. Balint is not psychotherapy or treatment. Balint is an opportunity to discover new insights of the patient's and clinician's experiences with each other, and aims to help lift the weight that often follows difficult patient interactions by offering support and new perspectives.

Zoom meetings, 6:45-7:45 PM

4th Tuesday of each month

*This group is open to physicians only

For more information and to register, contact Sam Mello, SMello@ssvms.org.
