AGES

# Contents

- 8 Dry-Eraser boards
- 8 Dry-Eraser markers
- 1 Scorecard
- 1 Dice
- 100 Cards
- 1 Big drawing board
- 1 Blindfold
- 1 Rule book

## Objective

The group can decide whether 10 points, 15 points or 20 points as the goal.

## Set-Up

Give each player an eraser board and marker. Write each persons name on the game board associated with their small eraser board color. Each player rolls the dice and highest roll becomes the first artist.

## Levels of Play

**EASY** - After the artist finishes, the artist gives the first letter of the word as a clue and you can also tell players if it is one or two words

**MEDIUM** - You are to alternate each round with giving a first letter clue only and not giving a clue. A round is where each person has drawn once.

**HARD** - No clues are given.

## How to Play

The artist takes the big drawing board and blindfold, taking the first card, rolls the dice to see what word they secretly has to draw. When the artist is ready, the drawer puts on the blindfold and begins to draw the secret word. The artist must not let the other players see the drawing in progress.

Once the artists feels they are ready, they secretly write a players name, who they feel will guess correctly for a bonus. The artist then reveals the drawing to everyone. Based on what level you are playing, clues are given if applicable. The other players secretly write on their boards what the artist drew. After everyone has made their guess, one by one, everyone reveals their guess and the artist reveals the answer. The artists then reveals who they thought would guess the correct answer. Points are awarded on the main board accordingly.

You can't use numbers, symbols or letters in your drawings. If there are questions in the group about answers take a vote.

\* Younger players can chose any of the words to draw on the card.

## Points Awarded

**1 Point** - For the artist and any players who guesses correctly.

**1 Point Bonus** - For the artist when they secretly choose a player who guesses correctly.

**3 Points (The star word)** - These words are worth 3 points instead of 1 point, for the artist and any players who guesses correctly.

**- 2 Points** - If all players guess correctly except for one player, that player subtracts 2 points from their score.
