COBRA LAWN RIDER RANGE

FOR A BEAUTIFUL FINISH TO YOUR LAWN

The Cobra lawn rider range with 24" cut are designed to produce a beautiful finish to your lawn. These lightweight and compact models are easy to manoeuvre around tight areas and through narrow entrances in the garden.

RANGE FEATURES:

COBRA

1. Sit Back and Relax

The ergonomically designed seat on Cobra lawn riders have built in lumbar support and adjustable features for the ultimate in lawn mowing comfort.

2. 25-85mm Cutting Heights

Cobra lawn riders are equipped with an easy to operate height of cut lever which allows the operator to change cutting heights from 25-85mm.

3. Two Ways to Drive

Cobra lawn riders come in either a manual geared model (LM62MRL) with 5 gears, or the hydrostatic model (LM62HRL) which is driven via the operator foot pedals.

7. 130ltr Capacity Grass Bag

With its larger 130ltr grass bag, Cobra lawn riders can cut more grass before you have to stop and empty. This saves time, and increases efficiency meaning you spend less time stopping and starting.

6. 13" Robust, Durable Tyres

The 13" rear wheels not only provide a comfortable ride, but also reduce the amount of vibration when traveling over uneven garden and lawn areas.

5. Powered By 7hp Loncin Engines

The Cobra LT62MRL and LT62HRL lawn riders are both expertly powered by Loncin 7hp engines.

4. Quality 24" Cutting Deck

The high quality 24" steel cutting deck is designed to provide the perfect finish and a smooth mowing experience. Includes a deck wash port for user maintenance.

FEATURE FOCUS:

Powerful, Reliable Engines

Loncin engines are known for durability and reliability, making them ideal for Cobra lawn riders. They are designed to withstand the demands of general use and are built with quality components to ensure long-lasting performance.

Superior Grass Collection

Cobra lawn riders have superior grass collection thanks to the combination of innovative design, large grass bag capacity, quality components, and Cobra's advanced grass collection technology.

For the Perfect Lawn Finish

With 4 cutting heights ranging from 25-85mm, Cobra lawn riders allow users ultimate adjustment to suit the specific needs of their lawn. Built to tackle long or short grass producing a beautiful finish with ease.

LT62MRL

24" Manual Lawn Rider Powered by Loncin Engines

The Cobra LT62MRL 24" lawn rider is a versatile and powerful rider with a manual drive system suited for a variety of tasks in the garden. With its powerful 7hp Loncin engine, durable construction, and high performance 130ltr collection system, this rider creates a beautiful lawn.

Key Starting Engine

Start your Cobra rider with ease using the ergonomically positioned key.

130ltr Capacity Grass Box

High-Performance grass collection system packs in 130ltrs of grass cuttings.

Hydrostatic Drive System

Smooth & consistent speed control with hydrostatic drive system.

COBRA COLLECTING LAWN TRACTOR RANGE

WITH MARKET-LEADING GRASS COLLECTION

The Cobra collecting lawn tractor range combines strength and durability with one of the most effective and efficient grass collection systems available on the market.

RANGE FEATURES:

COBRA

1. Sit Back and Relax

Cut your lawn in comfort with the Cobra range of collecting tractors. The ultra supportive seat is adjustable for operator comfort and with built in lumbar support.

2. Powered by Loncin OHV Engines

Powered by Loncin OHV engines that range from 352cc - 452cc, Cobra lawn tractors have improved fuel efficiency and reduced emissions, making them an environmentally friendly choice.

3. 25-80mm Cutting Heights

Cobra collecting tractors are equipped with an easy to operate height of cut lever which allows the operator to change cutting heights from 25-80mm for the perfect finish.

7. 245ltr Capacity Grass Collection

Cobra collecting lawn tractors have a large grass bag capacity of 245ltrs. The easy empty grass bag allows you to mow your lawn without having to stop and empty the bag as often.

6. Mulch your Cuttings

The included mulch plug fits into the discharge chute allowing the deck to chop up grass clippings into very fine pieces and distribute them back onto the lawn. This helps to return valuable nutrients and promote thicker, lusher growth.

5. High Quality Cutting Decks

These high quality twin bladed decks range in size from 34" - 40" and include anti-scalp wheels to prevent any scalping of your lawn.

4. Hydrostatic or Manual Drive

The 4 collecting lawn tractors in the range include manual and hydrostatic models. The manual tractors are driven by a gear lever, whereas the hydrostatic version delivers smooth power via the operator foot pedals.

Feature Focus:

Expertly Powered by Loncin

Loncin OHV engines are known for durability and reliability, making them ideal for Cobra tractors. Designed to withstand the demands of general use and are built with quality components to ensure long-lasting performance.

High-Performance Collection

The high-performance collection system is largely achieved by a combination of the optimised grass chute, an efficient grass bag design and increased airflow created by the high quality twin bladed cutting deck.

Your Lawn, Cut Your Way

All Cobra collecting lawn tractors are equipped with 7 cutting heights ranging from 25-80mm. Whether you are tackling long grass, or producing a fine short finish to your lawn Cobra tractors are designed to tackle the job.

LT86MRL

34" Lawn Tractor Powered by a Loncin OHV Engine

The feature packed Cobra LT86MRL collecting lawn tractor is powered by a 352cc OHV Loncin engine. Equipped with a high-performance grass collection system, every blade of grass cut by the high quality 34" twin bladed deck is packed into the large capacity 245ltr grass box.

LT92HRL Overview

High-Performance Grass Collection System

The high-performance collection system in Cobra lawn tractors helps to efficiently collect grass clippings, leaves, and other debris, resulting in a cleaner and tidier lawn. This can be especially beneficial for users who have a large lawn, or who need to collect a large volume of grass.

Other Benefits Include:

- Increased collection efficiency
- A lusher, healthier lawn
- Reduced chute clogging
- Less emptying of grass box
- Better airflow - better mulching
- Large capacity grass bag

Ultra-Bright LED Headlights

Work longer into the day with the ultra bright lawn tractor LED headlights.

452cc Loncin OHV Engine

The easy-starting and reliable 452cc engine takes power to the next level.

Tow-Hitch Point as Standard

Cobra lawn tractors come complete with a tow hitch point as standard.

Innovative Control Layout

All the controls at your fingertips thanks to the ergonomic control layout.

25-80mm Cutting Heights

Create the lawn finish you desire with cutting heights from 25-80mm.

Deck Cleaning Wash Port

Easily remove old grass and dirt with a hosepipe and the deck wash port.

LT102HRL

40" Loncin Powered Lawn Tractor with Hydrostatic Drive

With its combination of style and unrivalled power the Cobra LT102HRL is the perfect lawn tractor. With its wide 40" twin bladed cutting deck, 452cc OHV Loncin engine and high-performance collection system, this truly is an exceptional tractor to create a beautiful lawn.

- 452cc Loncin OHV Engine
- 102cm / 40" Cutting Width
- Hydrostatic T2 Transmission
- 245ltr Collector Capacity
- 25-80mm 7 Stage Adjustment
- Electric Key Start

COBRA SIDE DISCHARGE LAWN TRACTOR RANGE

FEATURE PACKED AND HIGH SPECIFICATION

This range of Cobra tractors efficiently discharge debris to the side, allowing for uninterrupted mowing. They are also so versatile thanks to their mulching capabilities and tow hitch point.

RANGE FEATURES:

COBRA

1. Sit Back and Relax

Cut your lawn in comfort with the Cobra range of side discharge tractors. The ultra supportive seat is adjustable for operator comfort and has built in lumbar support.

2. Powered by Loncin OHV Engines

Expertly powered by 452cc Loncin OHV engines, the Cobra side discharge lawn tractors have improved fuel efficiency and reduced emissions, making them an environmentally friendly choice.

7. Tow-Hitch Point

Cobra side-discharge tractors come equipped with a tow hitch point enabling them to be able to pull a variety of implements such as trailers, carts and other lawncare attachments.

3. 25-80mm Cutting Heights

Cobra side discharge tractors are equipped with an easy to operate height of cut lever which allows the operator to change cutting heights from 25-80mm for the perfect finish.

6. Hydrostatic or Manual Drive

The Cobra side discharge range of tractors include manual and hydrostatic models. The manual tractors are driven by a gear lever, whereas the hydrostatic version delivers smooth power via the operator foot pedals.

4. Mulch for a Healthier Lawn

The included mulch plate easily fits onto the 42" twin bladed deck to block the side chute enabling grass clippings to be cut into very fine pieces and distributed back onto the lawn. This helps to return valuable nutrients and promote thicker, lusher growth.

5. Side Discharge Chute

When fitted, the side discharge chute allows grass clippings to be efficiently discharged back onto your lawn from the 42" cutting deck.

Feature Focus:

Expertly Powered by Loncin

Cobra side discharge tractors are an excellent match for Loncin OHV engines, which have a reputation for being durable and dependable. These engines are specifically engineered to endure the rigors of regular usage.

Side Discharge your Grass

Cobra side discharge tractors feature a 42" cutting deck which allows the grass to be evenly discharged to the side of the machine as it mows. This is especially useful for cutting tall, thicker grass or for mowing large areas.

Your Lawn, Cut Your Way

Cobra lawn tractors are built to easily handle mowing tasks with ease thanks to the 7 cutting height options spanning 25-80mm. Whether you're mowing tall grass or looking for a precise, short finish Cobra tractors are up to the job.

LT108MSL

42" Loncin Powered Lawn Tractor with Side Discharge

The feature packed Cobra LT108MSL side discharge lawn tractor is expertly powered by an impressive 452cc OHV Loncin engine. The 42" twin bladed cutting deck has the option of either side discharge or mulching and with cutting heights of 25-80mm can tackle short or longer grass with ease.

- 452cc Loncin OHV Engine
- 108cm / 42" Cutting Width
- Manual Gears: 5 Fwd / 1 Rev
- Side Discharge
- 25-80mm 7 Stage Adjustment
- Electric Key Start

LT108HSL

42" Side Discharge Lawn Tractor with Hydrostatic Drive

Expertly powered by a 452cc Loncin OHV engine and with a hydrostatic drive system, the Cobra LT108HSL boasts a range of features. Its 42" twin bladed deck offers the flexibility of either side discharge or mulching, while the cutting heights ranging from 25-80mm make it a breeze to cut both short and longer grass.

- 452cc Loncin OHV Engine
- 108cm / 42" Cutting Width
- Hydrostatic T2 Transmission
- Side Discharge
- 25-80mm 7 Stage Adjustment
- Electric Key Start
- Twin Bladed Cutting Deck

*See warranty Terms & Conditions on page 140 for more details

LT108MSL Overview

Side Discharge or Mulch your Grass Cuttings

The 42" twin bladed cutting deck found on Cobra's side discharge range of lawn tractors not only has the facility to discharge your grass clippings, but with the included mulching plate, the grass is finely chopped and redistributed back onto the lawn.

The advantage of this quality deck is its versatility, as it provides the user with multiple cutting options to suit different lawn conditions. The ability to switch between mulching and side discharge makes it a convenient choice for homeowners who want to manage their lawns efficiently.

452cc Loncin OHV Engine

The LT108HSL lawn tractor is powered by a Loncin 452cc OHV engine.

Hydrostatic Drive System

Smooth & consistent speed control with the hydrostatic drive system.

42" Side Discharge Deck

Evenly discharge grass clippings to the side of your lawn tractor as it mows.

Fortis PETROL CYLINDER LAWNMOWERS

FOR PERFECT LAWNS AND SPORTS PITCHES

Cobra Fortis lawnmowers are not only precision designed and reliable machines, but they effortlessly create a beautiful fine finish on every lawn or sports pitch that they mow.

RANGE FEATURES:

1. Loncin and B&S Engines

The Fortis range of petrol cylinder lawnmowers are powered by Loncin and Briggs & Stratton engines, which are known for their reliability and ease of starting. These engines also offer improved efficiency and reduced emissions.

2. Power at your Fingertips

The ergonomically positioned operator controls on the Fortis range have many benefits such as reduced operator fatigue, increased safety and improved efficiency and control.

7. Large Capacity Grass Box

Grass box capacity ranges from 55-90ltr in the Fortis range meaning more grass gets packed in and less trips to the compost bin for emptying. Fortis grass boxes are high quality, durable and robust.

6. Optional Front Grooved Roller

The optional front grooved roller has less surface area in contact with the ground and as a result more grass is presented to the bottom blade. The result is a more level finish and improved ball speed for the sports user.

5. Optional Turf Rake

The optional turf rake can help improve cutting performance. With the rake fitted, grass blades are lifted resulting in a cleaner and more precise cut.

3. Split Roller with Differential

Fortis cylinder lawnmowers come equipped with either a smooth split rear roller, a cast ribbed split roller, or a rubber covered split roller. Driven by the heavy duty drive system, not only does this help create a beautiful striped finish, but the split roller makes the lawnmower more manoeuvrable, reducing turf damage.

4. 3mm Cut (10 Blade Cartridge)

With the optional 10 bladed lawncare cartridge fitted, the Fortis can cut as low as 3mm. Ideal for maintaining bowls, cricket and other fine sports surfaces.

Feature Focus:

Powerful, Easy-Start Engines

Powerful engines are an essential part of maintaining a beautiful and healthy lawn. Loncin and B&S engines are not only easy to start, but provide all the necessary power and speed to cut your grass with ease and precision.

A Beautiful Striped Finish

The heavy-duty split rear rollers on Cobra Fortis lawnmowers not only produce a striped finish to your lawn, but also offer improved manoeuvrability, reduced lawn damage, giving an accurate cutting height and levelling of your lawn.

Heavy-Duty Drive System

Our heavy-duty-drive system on the Cobra Fortis range offers improved performance and increased durability. For use with our Fortis interchangeable cartridge system giving ease of user maintenance and adjustment.

Fortis **FORTIS 14L**

14" Cylinder Lawnmower Powered by Loncin Engines

The Cobra Fortis 14L has a 14" 6 bladed cutting cylinder and is powered by a G200F Loncin petrol engine. - Heavy Duty Drive System
- 75ltr Grass Box

Fortis 20B Overview

10 Bladed Cartridge. For a Lower 3mm Cut.

Made of hardened ground steel, the optional 10-bladed cylinder cartridge delivers an even more precise low cut of 3mm (158 cuts per metre) that looks great and promotes a healthier lawn. Ideal for use on bowls, cricket and sports pitches where a fine low finish is a priority.

The Cobra Fortis has a range of interchangeable lawncare cartridges available which allows you to easily convert your mower to suit different lawn and sports pitch maintenance needs.

Briggs & Stratton XR550
Exceptional power and reliability with B&S XR550 easy starting engine.

Large Capacity Grass Box
The 75ltr robust grass box is ideal for collecting large amounts of grass.

Heavy-Duty Drive System
The Fortis heavy-duty drive system offers improved performance and durability.

Easy Height-of-Cut Adjustment
Easily adjust your cutting height from 6 - 30mm for the perfect finish.

Operator Comfort Controls
The comfort controls are positioned to make your Fortis a pleasure to use.

For a Beautiful Striped Finish
The split cast rear roller helps create beautiful, defined stripes on your lawn.

FORTIS 25B

25" Cylinder Lawnmower Powered by B&S XR750 Engines

The Fortis 25B is the largest model available in this range and is powered by a Briggs & Stratton XR750 engine. It features a 25" 6 bladed cutting cylinder and comes with a generous 90ltr grassbox. This a perfectly balanced lawnmower designed specifically for fine-turf and is an excellent option for larger gardens and cricket, bowls and golf clubs that require a mower that is heavy-duty, user-friendly and low maintenance.

- Briggs & Stratton XR750 Engine
- 63cm / 25" Cutting Width
- Self Propelled
- 6 Blade Cutting Cylinder
- 6mm-30mm Height of Cut
- Steel Front Roller
- Steel Rubber Coated Split Rear Roller
- Interchangeable Cassette System
- Heavy Duty Drive System
- 90ltr Grass Box

Briggs & Stratton XR750
The Fortis 25B is powered by the Briggs & Stratton XR750 engine.

Optional 10 Bladed Cylinder
Cut down to 3mm with the 10 bladed cartridge fitted. Ideal for sports surfaces.

Rubber Coated Steel Roller
Manoeuvrability is made even easier with the rubber coated split steel roller.

BATTERY CYLINDER LAWNMOWERS

POWERED BY EGO PEAK POWER TECHNOLOGY

Create a beautiful fine finish on every lawn or sports pitch with the Fortis cylinder lawnmowers powered by EGO. EGO's 56v peak power battery technology delivers optimum power and performance time and time again.

RANGE FEATURES:

1. LCD Display Screen

Fortis lawnmowers powered by EGO come equipped with an LCD operator information display on the control panel. The centrally located screen makes it easy to see your lawnmowers travel speed, the real-time power status of your EGO batteries and also tells you your total working time via an hour meter.

7. Powered by EGO Batteries

EGO's industry-leading 56V ARC Lithium™ battery technology offers a new level of performance, giving your Fortis cylinder lawnmower the power you need to keep working hard until the job's done.

6. 3mm Cut (10 Blade Cartridge)

With the optional 10 bladed lawncare cartridge fitted, the Fortis can cut as low as 3mm. Ideal for maintaining bowls, cricket and other fine sports surfaces.

Feature Focus:

LCD Operator Display Screen

An LCD display screen is integrated into the control panel. This screen gives the user essential information, including travel speed, the real-time power status of your batteries and a summary of your working time via an hour meter.

2. Power & Safety at your Fingertips

The ergonomically positioned moving controls and operator dashboard provide improved efficiency and user control. The removable lawnmower starter key is also used as a battery release for increased safety.

3. Large Capacity Grass Box

Grass box capacity ranges from 55-90ltr in the Fortis range meaning more grass gets packed in and less trips to the compost bin for emptying. Fortis grass boxes are high quality, durable and robust.

5. Optional Turf Rake

The optional turf rake can help improve cutting performance. With the rake fitted, grass blades are lifted resulting in a cleaner and more precise cut.

4. Optional Front Grooved Roller

The optional front grooved roller has less surface area in contact with the ground and as a result more grass is presented to the bottom blade. The result is a more level finish and improved ball speed for the sports user.

EGO Peak Power Technology

EGO's unique 56V ARC Lithium™ batteries are designed to maximise performance. They last longer, charge quickly and deliver optimum power and performance to help produce a fine finish to lawns and sports pitches.

Heavy-Duty Drive System

Our heavy duty-drive system on the Cobra Fortis range offers improved performance and increased durability. For use with our Fortis interchangeable cartridge system giving ease of user maintenance and adjustment.

THE RIGHT POWER. FOR EVERY JOB.

EGO's Innovative Batteries and Chargers Deliver all the Power you Need.

The Fortis cordless range of lawnmowers are powered by EGO's unique patented 56V ARC Lithium™ batteries and are designed to maximise mowing performance. Boasting the outdoor tool industry's highest energy capacity in a portable battery, they last longer and charge quickly. Each battery is interchangeable across the entire EGO cordless range – delivering optimum power and performance for every tool and every job.

EGO's unique ARC-shaped battery design and KeepCool™ Technology work together to lower temperature and prevent overheating and shutdowns. Each battery's intelligent power management system works hand-in-hand with your Fortis lawnmower to ensure the very best power, performance and run time. EGO's superior battery technology really does deliver power beyond belief.

For more information on how EGO Power+ batteries work, and what makes them so revolutionary, download the Battery FAQ document on EGO's website.

egopowerplus.co.uk/FAQdownload

EGO POWER+ ARC Lithium™ BATTERY, DESIGNED TO MAXIMISE PERFORMANCE

The Patented 56v Arc Lithium™ Battery Doesn't just Manage Heat, it Maximises Cooling.

A battery gets hotter the longer it's used. The more power it generates, the more heat is released. Too much heat and the battery will shut down for safety. Heat also degrades cells over time, reducing battery life. That's why batteries must be cooled effectively to increase performance, run time and battery life.

EGO Batteries are Designed to Cool in 3 Ways:

Mechanically - EGO's unique ARC shaped arrangement of battery cells.

Chemically - EGO's unique KeepCool™ Technology.

Electronically - EGO's industry-leading intelligent power management system.

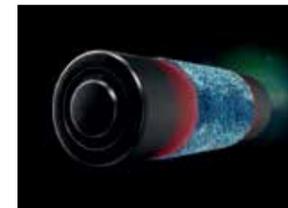

EGO's Unique Arc Shaped Design

Larger Surface Area

The battery's ARC shape has been carefully designed to optimise cooling and reduce overheating. Unlike "brick shaped" batteries, the individual battery cells are positioned adjacent to the external housing so heat can be easily transferred away from the cells.

Keepcool™ Technology

It's not just the ARC design that helps prevent overheating. The battery has another clever way to keep cool. Each and every cell is surrounded by our unique KeepCool™ phase change material that absorbs heat energy and keeps cells at their optimum temperature for longer run times.

Powerful, Easy-Start

Power is nothing without control. The EGO battery is controlled by software & microprocessors within the battery and by the tools' intelligent power management systems. These constantly monitor and optimise each cell, to deliver the best power, performance and run time.

Exterior Battery Mount

Unlike other manufacturers, EGO batteries fit onto the outside of tools and are not enclosed which means they stay cool to deliver longer lasting power. The electronics are protected from dust and moisture by a resin coating and the cells are protected in a case.

Fortis FORTIS 14E KIT

14" Cylinder Lawnmower Powered by EGO Peak Power

The Cobra Fortis 14E features a 14-inch 6-bladed cutting cylinder and is driven by Ego's 56v Peak Power Technology. This lawnmower, loaded with features, offers variable height adjustment ranging from 6mm to 30mm, is equipped with steel front and rear rollers for a stunning striped finish and has a robust drive system for heavy-duty performance. The Fortis 14E is compatible with the full range of Fortis lawncare cartridges.

FINE TURF CYLINDER LAWNMOWERS

FOR PERFECT LAWNS AND SPORTS PITCHES

The Fortis Fine Turf range stands unrivalled when it comes to high-quality, professional cylinder mowers. Crafted with precision, these mowers are fitted with 10-bladed cutting cylinders, grooved front rollers and turf rakes as standard and are the epitome of excellence for use on large lawns and fine turf sports pitches.

RANGE FEATURES:

1. LCD Display Screen

Fortis lawnmowers powered by EGO come equipped with an LCD operator information display on the control panel. The centrally located screen makes it easy to see your lawnmowers travel speed, the real-time power status of your EGO batteries and also tells you your total working time via an hour meter.

7. Battery or Petrol Powered

The Fortis Fine Turf lawnmowers are expertly powered by a choice of either Briggs and Stratton petrol engines or EGO Peak Power 56v battery technology. (pictured)

6. Split Roller with Differential

Fortis cylinder lawnmowers come equipped with either a smooth split roller, a cast ribbed split roller, or a rubber covered split roller. Driven by a heavy duty drive system, not only does this help create a beautiful striped finish, but the split roller makes the lawnmower more manoeuvrable, reducing turf damage.

5. 10 Bladed Cutting Cylinder

The 10-bladed cylinder cartridge comes as standard on the Fortis Fine Turf models and delivers an even more precise low cut of 3mm that looks great and promotes a healthier lawn. The 10-bladed cartridge is ideal for regular mowing of the lawn or sports pitch and for creating that superb fine finish.

2. Power & Safety at your Fingertips

The ergonomically positioned mowing controls and operator dashboard provide improved efficiency and user control. The removable lawnmower starter key is also used as a battery release for increased safety.

3. Large Capacity Grass Box

Grass box capacity ranges from 75-90ltr in the Fortis Fine Turf range meaning more grass gets packed in and less trips to the compost bin for emptying. Fortis grass boxes are high quality, durable and robust.

4. Precise Height Adjustment

By simply turning the easily adjustable height-of-cut knob, mowing heights can be adjusted from 3-30mm giving an incredibly fine finish to your lawn. Fortis Fine Turf lawnmowers cut shorter because they utilise a reel of 10 blades that rotate against a fixed blade, creating a scissor-like action that cleanly cuts each blade of grass.

ARC
LITHIUM
56V

Feature Focus:

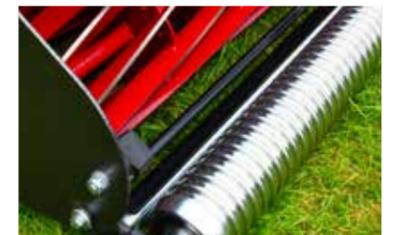

Battery or Petrol Powered

Fortis Fine Turf mowers offer users the choice between two high-performance power systems. You can opt for the robust performance of Briggs & Stratton petrol engines. Alternatively, the cutting-edge EGO Peak Power 56v battery technology.

Turf Rake Fitted as Standard

The turf rake comes as standard on the Fortis Fine Turf models and can help to improve grass cutting performance. With the rake fitted, grass blades are lifted resulting in a cleaner and more precise cut.

Front Steel Grooved Roller

The grooved roller is standard on the Fortis Fine Turf models. This roller has less surface area in contact with the ground and as a result more grass is presented to the bottom blade. The result is a cleaner cut to your lawn.

FORTIS 20FTE KIT

20" Fine Turf Cylinder Lawnmower Powered by EGO Power

The Fortis 20FTE, powered by Ego 56v battery technology is ideal for a finely manicured lawn with well defined stripes. Its precision construction ensures precise cutting over long periods and its heavy duty drive system, 10 bladed cylinder and grooved roller make the 20FTE perfect for home gardeners, semi-professionals and sports ground maintenance.

Fortis LAWNCARE CARTRIDGE RANGE

THE FORTIS COMPLETE LAWNCARE SYSTEM

6 Additional interchangeable lawncare cartridges that take the hard work out of garden maintenance all year round. Whatever the garden task, the Fortis cartridge range will have a tool to complete the job with ease.

Cobra Fortis lawnmowers have a range of interchangeable lawncare cartridges available which allow you to easily convert your mower to suit different lawn maintenance tasks. For example, you can switch from a 6-bladed cutting cylinder for general mowing to a scarifier cartridge for thatch removal or a verticutter cartridge for removal of lateral growth and coarser grasses.

The Fortis lawncare cartridge system is a versatile system available for all Fortis lawnmower models. Cartridges are fitted with the minimum of effort and include the standard 6-bladed cylinder, 10-bladed cylinder, scarifier, aerator, dethatcher, verticutter and lawn brush that will keep your lawn looking its finest throughout the year. Whatever the garden task, the Fortis cartridge range will have a tool to complete the job.

Fortis | SCARIFIER

Remove Thatch & Moss for a Healthier Lawn

The spring tine scarifier cartridge is the ideal tool to remove thatch and moss from your lawn. Using the scarifier cartridge can help to promote a healthier, more attractive lawn, while also reducing the need for fertilisers and weed control products.

USE
All Year
Round

Fits All Fortis Petrol & Battery Models

Fortis | 10 BLADE

For an Even Lower 3mm Cut on your Lawn

Made of hardened ground steel, the 10-bladed cylinder cartridge delivers an even more precise low cut of 3mm that looks great and promotes a healthier lawn. Ideal for regular mowing of the lawn and a fine finish on sports pitches.

USE
March
October

Fits All Fortis Petrol & Battery Models

Fortis | DETHATCHER

Removes Denser Areas of Thatch & Moss

The dethatcher cartridge functions with the blades penetrating into the surface of the soil to eliminate the densest layers of thatch, dead grass, leaves and weeds. By removing thatch, lawns become healthier, thicker and more vibrant.

USE
Feb/Mar
Sep/Oct

Fits All Fortis Petrol & Battery Models

Fortis | VERTICUT

Promote New Grass Growth & Remove Thatch

The closely spaced and slim steel blades on this verticut cartridge are effective in lifting/cutting laterally growing grasses, eliminating moss, whilst pruning the grass plant to stimulate new growth promoting a healthier lawn.

USE
April
October

Fits All Fortis Petrol & Battery Models

Fortis | AERATOR

Create a Healthier, Thicker and Luscious Lawn

The Fortis aerator cartridge creates tiny holes in the soil, allowing air, water, and nutrients to penetrate more effectively into the root zone. This facilitates deeper root growth, resulting in a denser, healthier and more luxurious lawn.

USE
March
Nov

Fits All Fortis Petrol & Battery Models

Fortis | LAWN BRUSH

Easily Remove Garden Debris from your Lawn

The Fortis lawn brush cartridge can be used for various tasks, including removing debris on the lawn surface such as leaves and worm casts. This can also be used as a grooming brush to enhance the presentation of a lawn without mowing, along with a light top dressing into the turf.

USE
All Year
Round

Fits All Fortis Petrol & Battery Models

COBRA THE HAND PUSH RANGE

CREATE A TRADITIONAL STRIPED FINISH

Cobra cylinder mowers come equipped with a rear roller to help create a traditional striped finish on your lawn. The Cobra HM381 also gives you the ability to mow right up to the edge of your flowerbeds and borders.

HM381

15" Hand Push Cylinder Lawnmower

The Gardeners World 'Award Winning' Cobra HM381 hand push lawnmower is lightweight at just 8.5kg and features a quality cylinder cutting system for producing a fine finish to your lawn. Excellent for the environment - and good for your health too - the Cobra HM381 is a delight to use.

15" CUTTING WIDTH 2 *YEAR WARRANTY LIGHTWEIGHT 8.5KG

- Hand Propelled
- 38cm / 15" Cutting Width
- 13 - 38mm 4 Stage Adjustment
- 5 Precision Ground Blades
- Environmentally Friendly
- Easy Blade Adjustment
- Light & Easy to use
- Split Rear Roller
- 25ltr Grass Bag
- 8.5kg Weight

HM381 Overview

HM381 with 5-Bladed Cylinder Cutting System

The traditional lawns are on the whole cut with cylinder lawnmowers as they can give an excellent even cut and striped finish. The Cobra HM381 hand push mower has 5 precision ground blades at the front of the lawnmower that rotate, trapping and slicing the grass blades against a fixed bottom plate.

This gives a 'scissor like' cutting action that will help you to produce a beautiful sharp cut and a low finish to your lawn.

Cylinder Blade System

The 5 bladed cylinder system has a 'scissor cut' action for a fine finish.

Environmentally Friendly

No petrol or cables make the HM381 the perfect 'Environmental' choice.

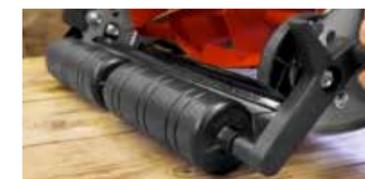

Tool-less Height Adjustment

Easily adjust the height of cut from 13-38mm with tool-less adjusters.

Operator Comfort Handle

The comfort 'soft touch' handle makes pushing the HM381 a pleasure.

A Traditional Striped Finish

The split rear roller helps the HM381 produce a beautiful striped finish.

- Up to 55mins Run Time*
- Collect, Mulch, Side Discharge
- Self Propelled
- Battery Power Indicator
- 29kg Weight (Without Battery)

MX51S80V Overview

3-in-1 Cutting System - Cut your lawn, your way

The MX51S80V not only gives you the traditional cut and collect method, but it has the benefit of two additional options. With the supplied mulch plug fitted you can mulch your grass clippings back into the lawn providing nutrients for a fuller, lusher lawn.

If you don't want to mulch your grass or your lawn has become overgrown, simply lift the blanking plate and insert the side discharge chute. The grass will now be discharged in neat lines to the side of where you are mowing. The choice is yours.

*Battery run times based on ideal mowing conditions. Requires both batteries to operate.

40VMAX LITHIUM-ION

- 3-in-1 Collection System
- 65ltr Grass Bag Capacity
- Self Propelled / 4 Speed
- Mulching / Side Discharge
- 173cc Displacement
- Optional Swing Tip Blade
- 41kg Weight

MX484SPCE Overview

MX484SPCE with Easy Starting at the Push of a Button

As well as the standard recoil pull-start, the feature packed Cobra MX484SPCE is equipped with a push button electric starting system to make starting your Cobra lawnmower even easier.

Electric Starting eliminates the necessity of pulling the recoil rope, replacing it with a push button starter. Using this method will help reduce wear and tear on the engine and minimise strain on the operators. A charger is supplied to keep the battery always ready to cut your lawn.

Expertly Powered by Cobra

The Y173V 'Easy Starting' engine produces 173cc of pure power.

4-Speed Gearbox

Cobra 4-speed drive system gives you total control of your mowing speed.

Single Height of Cut Adjuster

Cut from as low as 25mm up to 75mm using the central single lever.

Side Discharge Facility

Simply insert the side discharge chute to discharge grass neatly to the side.

Mulch Your Grass Clippings

For a 'Greener' way to cut your lawn use the supplied mulching plug.

Push Button Starting System

Mow your lawn simply at the push of a button with the electric start system.

MX514SPB

20" B&S Powered Lawnmower with 4-Speed Drive

Powered by a Briggs & Stratton 650EXI Series Ready Start engine, the MX514SPB is a petrol 3-in-1 lawnmower with self propelled drive and a 4-speed gearbox for complete control and the ultimate experience.

- B&S 650EXI Series Ready Start
- 51 cm / 20" Cutting Width
- 25 - 75mm 7 Stage Adjustment
- Single Height of Cut Adjustment
- 60ltr Grass Bag Capacity
- Self Propelled / 4-Speed
- Mulching / Side Discharge
- 163cc Displacement
- 3-in-1 Collection System
- 41kg Weight

Powered by Briggs & Stratton

The MX514SPB is effortlessly powered by a Briggs & Stratton 163cc 650EXI Engine.

4-Speed Gearbox

The Cobra 4-speed drive system provides you with a variable mowing speed.

Side Discharge or Mulch

Choose between collecting your grass, mulching or side discharge.

MX515SPBI

20" Lawnmower with a B&S InStart Engine

Powered by a Briggs & Stratton 675IS InStart engine, the MX515SPBI is equipped with a durable aluminium deck. The 3-in-1 cutting system together with self propelled drive and a reliable 5-speed gearbox.

- B&S 675IS InStart Engine
- 51 cm / 20" Cutting Width
- 25 - 75mm 7 Stage Adjustment
- Aluminium Deck
- 60ltr Grass Bag Capacity
- Self Propelled / 5-Speed
- Mulching / Side Discharge
- 163cc Displacement

- Optional Swing Tip Blade
- 65ltr Grass Bag Capacity
- Self Propelled / 4-Speed
- Mulching / Side Discharge
- 167cc Displacement
- 3-in-1 Collection System
- 38kg Weight

MX534SPH Overview

POWERED by HONDA

The MX534SPH Powered by Honda Engines

The Cobra MX534SPH is fitted with a Honda GCVX170 engine for superior power and unrivalled performance. As the world's largest engine manufacturer, Honda offers years and years of experience.

Better fuel efficiency, higher power output, quieter performance and easy to start. No matter how you define superior engine performance, Honda engines set the standard for petrol engines.

'Easy Start' Honda Engine

The Cobra MX534SPH is powered by a GCVX170 'Easy Start' Engine.

Expert 4-Speed Gearbox

Cobra 4-speed drive system gives you total control on your mowing speed.

Single Height of Cut Adjuster

Cut from as low as 25mm up to 75mm using the central single lever.

Side Discharge Facility

Simply insert the side discharge chute to discharge grass neatly to the side.

Mulch Your Grass Clippings

For a 'Greener' way to cut your lawn use the supplied mulching plug.

'Easy Empty' Grass Bag

The easy to remove and empty bag holds 65ltr's of grass clippings.

MX534SPCE

21" Lawnmower with Cobra Electric Start Engine

The Cobra MX534SPCE 196cc electric start lawnmower has a cutting width of 53cm and is ideal for medium to large lawns. Powered by a Cobra Y196V 4-stroke engine, this 4-speed lawnmower is designed to perform the most demanding tasks with ease.

- Cobra Y196V Electric Start
- 53cm / 21" Cutting Width
- 25 - 75mm 6 Stage Adjustment
- Optional Swing Tip Blade
- 65ltr Grass Bag Capacity
- Self Propelled / 4-Speed
- Mulching / Side Discharge
- 196cc Displacement
- 3-in-1 Collection System
- 43kg Weight

MX534SPCE Overview

4-Speed Gearbox for Ultimate Mowing Control

The Cobra MX534SPCE self propelled drive system takes all the effort out of pushing your Cobra lawnmower around your garden, meaning you can maintain your lawn and feel ready to tackle the next job when the grass cutting is complete.

The 4-speed gearbox gives you total control for ultimate mowing. If you have small, intricate areas that you need to cut, simply reduce the mowing speed. When done, increase the speed to help easily maintain those long straight runs on your lawn.

Expertly Powered by Cobra

The Y196V 'Easy Starting' engine produces 196cc of pure power.

Push Button Starting System

Mow your lawn simply at the push of a button with the electric start system.

Simple to Clean Deck

Attach a hose pipe to the deck wash port to clean underneath your mower.

Side Discharge Facility

Side discharge longer areas of lawn by inserting the discharge chute.

Mulch Your Grass Clippings

Reintroduce nutrients back into your lawn using the supplied mulch plug.

4-Speed Gearbox

Ultimate operator control is achieved using the 4-speed self drive system.

- Direct Collection System
- 55ltr Grass Bag Capacity
- 38kg Weight

RM514SPC

20" S/P Lawnmower Powered by a Cobra Engine

Expertly powered by a Cobra DG600 engine, the RM514SPC 20" petrol lawnmower is self propelled, has a 4-speed gearbox and has a steel rear roller for a traditional striped finish. The 17mm - 75mm range of cutting heights mean both a low finish and cutting longer grass is easily achieved.

- Cobra DG600 Engine
- Self Propelled / 4-Speed
- 51cm / 20" Cutting Width
- Steel Rear Roller
- 17 - 75mm 6 Stage Adjustment
- 173cc Displacement
- Single Height of Cut Adjustment
- High Lift Cutting Blade
- 70ltr Grass Bag Capacity
- 47kg Weight

Full Width Steel Rear Roller
The Cobra RM514SPC has a steel rear roller for an even more defined stripe.

'High Lift' Cutting Blade
High lift blades increase airflow to lift grass for improved cut & collection.

4-Speed Gearbox
Cut your lawn at one of four available speeds using the 4-speed gearbox.

RM513SPBI

20" Lawnmower with Powerful B&S InStart Engine

The Cobra RM513SPBI 20" petrol lawnmower is powered by a Briggs & Stratton 675IS InStart engine for best in class torque to weight ratio, easy starting and quieter operation. The RM513SPBI is self propelled and has a steel rear roller for a beautiful stripe.

- B&S 675IS InStart Engine
- Self Propelled / 3-Speed
- 51cm / 20" Cutting Width
- Rear Roller
- 17 - 75mm 6 Stage Adjustment
- 163cc Displacement
- Single Height of Cut Adjustment
- High Lift Cutting Blade
- 70ltr Grass Bag Capacity
- 42kg Weight

InStart Battery Technology
In only 10 minutes charge time, the battery provides up to 20 starts.

Push Button Starting System
Mow your lawn at the push of a button with the B&S InStart battery system.

'High Lift' Cutting Blade
High lift blades increase airflow to lift grass for improved cut & collection.

- 20.4kg Weight (Without Battery)

*Battery run times based on ideal mowing conditions. Requires both batteries to operate.

AIRMOW 5180V Overview

3-in-1 Wheel Kit as Standard with the Airmow Range

All models in the Cobra Airmow range come as standard with an included 3-in-1 wheel kit. This easy to use and convenient kit not only helps when transporting your Cobra Airmow to and from cutting locations, it can also be engaged when mowing areas where support balancing your mower is more challenging.

Its so easy to do. No tools are required. If the transport wheels are not required, simply lift the wheels and they click into there new position ready for you to begin mowing.

Twin 40v Li-ion Battery Power

The Twin 5Ah 40v Li-ion batteries power the Cobra 80v brushless motor.

Cobra 3-in-1 Wheel Kit

Helps to easily transport your Airmow and offers support when mowing.

Easy Tool-less Adjustment

If your wheel kit is not required, a simple click and its fixed into its new position.

Battery Level Indicator

Built in Battery power indicator allows easy monitoring of both batteries.

Easy Height of Cut Adjuster

Cut from as low as 17mm up to 25mm using the included spacers.

Cuts on up to 45° slopes

Cut your grass in awkward to reach areas and on slopes of up to 45°.

AIRMOW 51B

20" Petrol Hover Mower Powered by a B&S Engine

The Cobra AirMow 51B petrol hover mower is powered by Briggs & Stratton 575EX 'Ready Start' engine and is equipped with a wheel kit as standard. The Cobra hover mowers are ideal for cutting on 45° slopes.

- B&S 575EX ReadyStart
- 51cm / 20" Cutting Width

M53HST-PRO Overview

POWERED by HONDA

The M53HST-PRO Powered by Honda Engines

The Cobra M53HST-PRO is fitted with a Honda GXV160 engine for superior power and unrivalled performance. As the world's largest engine manufacturer, Honda offers years and years of experience.

Better fuel efficiency, higher power output, quieter performance, easy to start. No matter how you define superior engine performance, Honda engines set the standard for petrol engines.

Shaft Driven Drive System

Cope easily with long periods of use in the most challenging conditions.

Reinforced Steel Deck Liner

The reinforced deck liner protects & increases the life of your deck.

Front Protection Bumper Bar

Equipped with a robust stainless steel front bar for increased protection.

Hydrostatic Drive Gearbox

The hydrostatic drive offers ultimate control over your drive speed.

Robust Aluminium Deck

The aluminium deck offers durability, robustness and a longer working life.

Blade Brake Clutch System

Safely disengage the mower blades without having to stop your engine.

RM48SPH

19" Lawnmower with Rear Roller & Honda Engine

WT56B

22" Wheeled Grass Trimmer with a B&S Engine

The Cobra WT56B is a wheeled grass trimmer powered by a Briggs & Stratton 750EX Series 'Ready Start' engine with a 22" trimming width. The WT56B will help to make light work of the most hard to reach areas of overgrown or rough grass in your garden.

- B&S 750EX Series Ready Start
- 56cm / 22" Cutting Width
- 38 - 76mm Cutting Height
- 3600rpm Rotating Speed
- Adjustable Cutting Head
- Hand Propelled
- 350mm Wheel Diameter
- 161cc Displacement
- 4mm Heavy Duty Line
- 33kg Weight

B&S 'Ready Start' Engine

Powered by a Briggs & Stratton 750EX Series 'Ready Start' engine.

Easy Height Adjustment

Easily adjust your trimming height from 38 - 76mm with no tools required.

Equipped For Tough Areas

With 2 large rear wheels, the WT56B is easily manoeuvrable in rough areas.

WT60SP

24" Wheeled Grass Trimmer with a Loncin Engine

The Cobra WT60SP is a self propelled wheeled grass trimmer powered by a powerful Loncin engine and incorporates a 24" cutting width. The 2900rpm rotating cutting line will cut through dense, tough vegetation meaning it will help to make light work of the hardest to reach areas.

- Loncin OHV Engine
- 60cm / 24" Cutting Width
- 45 - 120mm Cutting Height
- 2900rpm Rotating Speed
- Adjustable Cutting Head
- Self Propelled
- 13" Wheel Diameter
- 166cc Displacement
- 4mm Heavy Duty Line
- 43kg Weight

Powered by Loncin Engine

The Cobra WT60SP wheeled trimmer is powered by a 6.5hp Loncin engine.

Tackle Rough Terrain

Equipped with tractor type pneumatic driven wheels for tackling rough terrain.

Operator Comfort Controls

The ergonomically positioned controls make the WT60SP a pleasure to use.

COBRA THE PETROL HANDHELD RANGE

A COMPLETE RANGE OF POWERFUL TOOLS

The Cobra range of handheld petrol products are powered by Kawasaki and Cobra engines to give increased power at your fingertips. The range includes petrol brushcutters, a multi-tool system, hedgetrimmers and more.

MT250C

4-in-1 Complete Petrol Powered Multi-Tool System

The Cobra MT250C 4-in-1 multi-tool is powered by a 25cc engine and is the complete solution for all garden tasks. Included are 4 quality attachments including a grass trimmer, brushcutter, pole pruner and articulating long reach hedgetrimmer.

HT62C

Powerful 22cc Handheld Petrol Hedgetrimmer

The Cobra HT62C petrol hedgetrimmer featuring a 62cm / 24" blade is designed for use on all types of hedges. Powered by Cobra's 22cc 2-stroke engine and incorporating a twist grip handle and anti-vibration to help tackle the most awkward jobs.

- Cobra 2-Stroke Engine
- 0.65kW Max Power
- 62cm Double Sided Blade
- 28mm Tooth Spacing
- Magnesium Alloy Casting
- Walbro Carburettor
- 'Twist Grip' Handle
- 22cc Displacement
- Anti-Vibration
- 4.6kg Weight

Expertly Powered by Cobra

The exceptional 22cc Cobra engine has all the power your HT62C needs.

Ergonomic Operator Controls

Ergonomically positioned controls make operator use comfortable and safe.

62cm Double Sided Blade

Equipped with a high quality 62cm double sided blade with tip protector.

LRH26C

Powerful 26cc Petrol Long Reach Hedgetrimmer

The Cobra LRH26C petrol long reach hedgetrimmer powered by a Cobra engine is built to tackle the most demanding jobs. With a 135° articulating head and tooth spacing of 30mm, the LRH26C will make light work of long and tall hedges.

- Cobra 2-Stroke Engine
- 0.65kW Max Power
- 62cm Double Sided Blade
- 30mm Tooth Spacing
- Overall Length 251cm
- D Loop Handle
- 135° Articulating Head
- 26cc Displacement
- Single Shoulder Harness
- 7.5kg Weight

Powerful Cobra Engine

The LRH26C is expertly powered by a 26cc 2-Stroke Cobra engine.

135° Articulating Head

The Cobra 135° articulating cutting head gives multiple cutting angles.

Double Sided Cutting Blade

62cm reciprocating cutting blade suitable for both cutting & shaping.

COBRA ELECTRIC HANDHELD RANGE

EVEN MORE POWER AT YOUR FINGERTIPS

The Cobra range of handheld electric products are powered by high performance electric motors giving even more power at your fingertips. The range includes four products that are designed to tackle tough jobs around the garden.

HT550E

600W Electric Hedgetrimmer with 'Twist Grip' Handle

The Cobra HT550E 600W electric hedgetrimmer is built to tackle the most demanding jobs with its 55cm double sided blade and 'twist grip' handle feature. With a tooth spacing of 20mm the HT550E will make light work of most domestic hedges and bushes.

- 600W Rated Power
- 230V-50Hz Rated Voltage
- 21" / 55cm Double Sided Blade
- 20mm Tooth Spacing
- 'Twist Grip' Handle
- Soft Grip Handles
- Ergonomically Positioned Controls
- 10m Cable Length
- 2 Year Domestic Warranty
- 3.4kg Weight

HT550E Overview

The HT550E Tackles Hedges and Bushes with Ease

The HT550E electric hedgetrimmer from Cobra comes with a 55cm double sided reciprocating cutting blade and a large 20mm tooth spacing. Double sided blades are more suitable for shaping, as you can alter the direction of the cut without moving around as much. This truly is a versatile electric hedgetrimmer.

The ergonomically positioned controls not only make operator use more comfortable but combined with the 'twist grip' handle, easier to cut at variety of angles with comfort and control.

Powerful 600W Motor

Tame hedges and bushes with ease with the powerful 600w electric motor.

55cm Double Sided Blade

Equipped with a high quality 55cm double sided blade with tip protector.

10m Cable Included

Cut hedges around your garden with no need for extra extension leads.

'Twist Grip' Technology

Cut your hedges comfortably on any angle using the HT550E 'twist grip'.

Ergonomic Comfort Controls

The HT550E is comfortably operated using the well positioned controls.

Protective Safety Guard

The operator safety guard will protect from any flying debris and cuttings.

BV3001E

Powerful & Lightweight 3000W Blower / Vac

The Cobra BV3001E electric blower vacuum has the added features of a 10:1 power mulching system and a large 35ltr collection bag. This model has a high 234km/h airspeed & quick change blow to vac system.

- 3000W Rated Power
- 230V-50Hz Rated Voltage
- 10.8m³/min Max Air Volume
- Single speed
- Mulching Ratio 10:1
- 35ltr Collection Bag
- Front Roller Wheels
- 10m Cable Length
- 2 Year Domestic Warranty
- 3.2kg Weight

BV3001E Overview

Ergonomic Comfort Controls

The Cobra BV3001E electric blower vac with 10:1 mulching is not only lightweight, but with its ergonomically positioned comfort controls, allows for improved operator support and balance. The BV3001E will easily get the job done.

Enhanced Operator Control

The BV3001E is the perfect tool when large amounts of garden clearance are required. The blow / vac tube is fitted with innovative roller wheels, increasing manoeuvrability and providing increased operator support.

'Quick Change' Blow to Vac

The Cobra BV3001E blower vac has been designed to make clearing your garden a simple and effortless task. The ergonomically positioned 'Quick Change' lever means you can convert from collect to blow in an instant.

Photograph: Cobra BV3001E

GT600E

600W Electric Grass Trimmer with Rotating Head

The Cobra GT600E is a high performance electric grass trimmer. It has an efficient, powerful 600W motor, a 30cm cutting width and has a rotating head and edging wheel for easily trimming lawn edges. The telescopic shaft and adjustable handles are ideal for increased operator comfort.

- 600W Rated Power
- 230V-50Hz Rated Voltage
- 30cm Cutting Width
- Tap & Go Dual Line Feed
- Telescopic Shaft
- 90° Lawn Edging
- 1.5mm Twisted Line
- Plant Protection Guard
- 10m Cable Length
- 3.2kg Weight

Complete 90° Lawn Edging

A 90° tilting cutting head enables you effective trimming at any angle.

Edging Roller Wheel

The removable edging wheel makes neatly trimming lawn edges effortless.

Extending Telescopic Shaft

A telescopic shaft means it can be set to comfortably suit any operator.

QS2500

Compact 2500W Quiet Drum Garden Shredder

The QS2500 quiet drum garden shredder is expertly powered by a 2500W electric motor and is ideal for shredding garden waste up to 40mm in diameter. Supplied with a practical plunger for increased throughput on heavier, bulky loads.

- 2500W Rated Power
- 230V-50Hz Rated Voltage
- 40mm Cutting Capacity
- Drum Gear Shredding System
- Integral 50ltr Collection Box
- Transport Wheels
- Auto-Feed Function
- Includes Plunger
- 10m Cable Length
- 26.9kg Weight

Ergonomic Control Panel

Designed to make shredding garden waste a simple and effortless task.

Drum Cutting System

A rotating blade draws in branches & crushes them against a metal plate.

Large Capacity Collection

With a 50ltr box for collecting large amounts of shredded garden waste.

COBRA 24V CORDLESS HANDHELD RANGE

INNOVATIVE, POWERFUL AND EFFICIENT

The Cobra Li-ion 24v cordless range are not only powerful and efficient to help easily maintain your home & garden, but are even easier to operate without the need for any petrol or electric cables.

PW18024V

24v Cordless Pressure Washer with Attachments

The Cobra PW18024V 24v Li-ion cordless pressure washer can be used anywhere without access to electricity and a water supply. Simply submerge the hose and filter into any vessel containing water, attach your fully charged 24v Cobra battery and you're ready to wash and clean.

- 1x 24v Li-ion Battery & Charger

- 2.0Ah Battery Capacity

- 180L/h Rated Flow Rate

- 2.2Mpa Rated Pressure (High)

- 0.8Mpa Rated Pressure (High)

- 4m Hose with Water Filter

- Long Variable Spray Lance

- 5-in-1 Variable Spray Head

- Soft Brush & Wheel Brush Heads

- 1.8kg Weight (Including Battery)

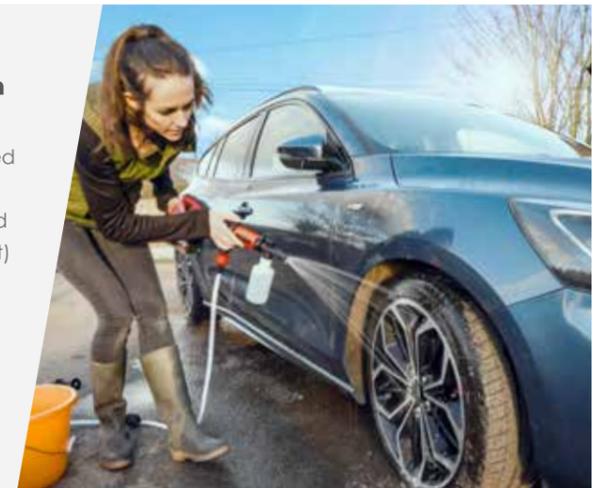

*Battery run times based on ideal conditions

PW18024V Overview

The Completely Portable Pressure Washing System

The Innovative PW18024V pressure washer is powered by Cobra's 24v Li-ion cordless system. Unlike traditional pressure washers powered by electricity or petrol, the PW18024V is completely portable! You don't even need a mains water supply. Simply drop the supplied hose and filter into a vessel containing water (a bucket, a water butt) and you're ready to go.

The multitude of attachments will quickly and effectively clean cars, bikes, patios, garden furniture and much more. The battery is also compatible with the entire range of Cobra 24v garden tools.

4m Hose with Water Filter

Submerge the hose and filter in any water source, and you're ready to go.

Variable Spray Long Lance

The extended variable spray lance will deliver either a strong jet or fine spray.

5-in-1 Variable Spray Head

The shorter 5-in-1 spray head has 5 spray settings for cleaning and rinsing.

Foam Jet Nozzle Head

Add detergent to the bottle to spray foam onto the item you are cleaning.

Soft Bristle Brush Head

The soft brush head will gently remove dust, dirt and debris from any surface.

Stiff Wheel Brush Head

The Wheel brush head is perfect for removing more stubborn dirt.

CS1024V

24v Li-ion Chainsaw with Oregon Bar & Chain

The Cobra CS1024V 24v Li-ion cordless chainsaw is built to tackle the most demanding pruning and cutting jobs around your garden. With its lightweight body and tool-less chain tensioner, the CS1024V with 10" Oregon bar and chain is always ready and up to the job.

*Battery run times based on ideal conditions

- 1x 24v Li-ion Battery & Charger

- 2.0Ah Battery Capacity

- 25cm / 10" Oregon Bar & Chain

- Up to 20mins Run Time*

- Approx 90mins Charge Time

- Tool-less Chain Adjustment

- 5.5m/s Chain Speed

- Safety Blade Brake

- Battery Level Indicator

- 3.4kg Weight

BAR & CHAIN

CS1024V Overview

10" Oregon Bar & Chain

Oregon bars and chains give Cobra chainsaws a superior advantage.

Battery Level Indicator

Built in Battery power indicator allows easy monitoring of your battery level.

Safety Chain Brake

Protect the operator against kickback by instantly stopping the cutting chain.

Tool-less Chain Tensioning

Effortlessly tension your Oregon chain without the need for tools.

24v Li-ion Battery Technology

Cobra's 24v battery technology gives instant power with minimum effort.

'Easy Fit' Chainsaw Scabbard

Sturdy chain guard for safe handling and transport of your chainsaw.

LB45024V

Powerful 24v Li-ion Cordless Leaf Blower

The Cobra LB45024V is a 24v cordless leaf blower which is ideal for clearing small to medium areas with ease thanks to its lightweight, highly manoeuvrable design. The included 24v battery is compatible with the entire Cobra 24v system.

24V LI-ION POWER

**YEAR WARRANTY

LIGHTWEIGHT 1.9KG

*Battery run times based on ideal conditions

- 1x 24v Li-ion Battery & Charger

- 2.0Ah Battery Capacity

- 300w Powerful Motor

- Up to 25mins Run Time*

- Approx 90mins Charge Time

- Ergonomic Comfort Controls

- Eco & Turbo Mode

- 24v Battery Fits Entire Range

- Battery Level Indicator

- 1.9kg Weight (Without Battery)

Cobra 24v Li-ion Power with 'Eco' & 'Turbo Mode'

The Cobra LB45024V leaf blower is equipped with 'Eco' and 'Turbo' modes. If you only need to undertake light work in the garden, 'Eco' mode will complete the task and conserve your battery power. If the job requires more power, switch to 'Turbo' mode to complete the task with ease. LED lights indicate which setting is selected.

When compared with traditional battery technology, Cobra's 24v Lithium-ion batteries will charge faster, last even longer and have a superior power density for more battery life in a lighter package.

24v Li-ion Battery System

The Cobra LB45024V leaf blower is powered by a 24v battery.

Ergonomic Comfort Controls

With ergonomically positioned comfort controls for support & balance.

Ultra Lightweight Design

The Cobra LB45024V weighs just 1.9kg for user comfort & manoeuvrability.

GT3024V

24v Li-ion Cordless Grass Trimmer with 90° Lawn Edging

The Cobra GT3024V is a cordless grass trimmer powered by a 2.0 Ah 24v Li-ion battery. It has a 30cm cutting width and a 90° tilting cutter head which makes for effortless, speedy edging. The adjustable handle and telescopic shaft give unrivalled operator comfort.

- 1x 24v Li-ion Battery & Charger
- 2.0Ah Battery Capacity
- 30cm Cutting Width
- 1.65mm Twisted Cutting Line
- Up to 30mins Run Time*
- Eco & Turbo Cutting Modes
- 90° Lawn Edging
- Telescopic Height Adjuster
- Adjustable Handle
- 2.4kg Weight (Including Battery)

*Battery run times based on ideal conditions

Eco & Turbo Modes

Operate in 'Eco' or 'Turbo' mode for battery saving or increased power.

Extending Telescopic Shaft

A telescopic shaft means it can be set up to comfortably suit any operator.

High Strength Twisted Line

The GT3024V is equipped with a high strength 1.65mm twisted cutting line.

Complete 90° Lawn Edging

A 90° tilting cutting head enables effective grass trimming at any angle.

Edging Roller Wheel

The removable edging wheel makes neatly trimming lawn edges simple.

24v Li-ion Battery Technology

Cobra's 24v battery technology gives instant power with minimum effort.

HT50LRH24V

24v Cordless 2-in-1 Hedgetrimmer with 50cm Cutting Blade

The Cobra HT50LRH24V is a versatile 2-in-1 cordless hedgetrimmer that can function as either a standard hedgetrimmer, or a long reach hedgetrimmer. It has a 50cm double sided blade with a tooth spacing of 20mm and comes with a 24v Li-ion battery that offers 'Eco' and 'Turbo' settings for complete operator control.

- 1x 24v Li-ion Battery & Charger
- 2.5Ah Battery Capacity
- 50cm / 19" Double Sided
- 20mm Tooth Spacing
- Up to 50mins Run Time*
- Approx 2hrs Charge Time
- Eco & Turbo Cutting Modes
- 24v Charger Included
- 209cm Long Reach Length
- 3.3kg Weight (Including Battery)

*Battery run times based on ideal conditions

H5024V

24v Cordless Hedgetrimmer with 50cm Cutting Blade

The Cobra H5024V cordless hedgetrimmer is built to tackle the most demanding jobs in your garden with ease. With its 50cm double sided blade, tooth spacing of 15mm and 24v Li-ion battery and 'Eco' and 'Turbo' settings, it will make light work of most hedges and bushes.

- 1x 24v Li-ion Battery & Charger
- 2.0Ah Battery Capacity
- 50cm / 19" Double Sided
- 15mm Tooth Spacing
- Up to 50mins Run Time*
- Approx 2hrs Charge Time
- Eco & Turbo Cutting Modes
- 24v Charger Included
- LED Mode Selection Indicators
- 2.6kg Weight (Including Battery)

*Battery run times based on ideal conditions

LRH5024V

24v Li-ion Cordless Long Reach Trimmer

The LRH5024V 24v cordless long reach hedgetrimmer is built to tackle the most awkward jobs. With an articulating 19" cutting head and tooth spacing of 15mm, the LRH5024V with 'Eco' and 'Turbo' mode will make light work of tall hedges.

*Battery run times based on ideal conditions

- 1x 24v Li-ion Battery & Charger
- 2.0Ah Battery Capacity
- 50cm / 19" Double Sided
- 15mm Tooth Spacing
- Up to 50mins Run Time*
- 3.7kg Weight (Including Battery)

P20X

8" Pruner Attachment to Fit LRH5024V

Convert your Cobra LRH5024V long reach hedgetrimmer into a pole pruner by adding the optional P20X attachment. With an 8" Oregon bar and chain the P20X will make light work of tree branches in your garden.

- 8" Oregon Bar & Chain
- Chain Speed: Eco - 3.7m/s
- Chain Speed: Turbo - 4.5m/s
- 60ml Chain Oil Tank
- Lightweight Design
- Fits: Cobra LRH5024V

24v Battery

2.0Ah 24v Cobra Li-ion Battery

Powerful 2.0Ah battery compatible with all Cobra 24v products.

- Fits: All Cobra 24v Handheld Garden Machinery

24v Charger

2.0Ah 24v Cobra Li-ion Battery Charger

2.0Ah charger for quickly and efficiently charging 24v batteries.

- Charges: All Cobra 24v 2.5Ah Batteries

COBRA 40V CORDLESS HANDHELD RANGE

MINIMUM FUSS, MAXIMUM EFFICIENCY

The Cobra Li-ion 40v cordless handheld range have all the power that you need to get jobs done with minimum fuss and maximum efficiency. The 40v battery system is also compatible with Cobra's range of 40v lawnmowers.

GT3240VZ

Powerful & Lightweight 40v Li-ion Cordless Grass Trimmer

The Cobra GT3240VZ is a high performance cordless grass trimmer. It is powered by a 40v Li-ion battery and has a 32cm cutting width. The 40v battery system is compatible with all the tools in the 40v system including the full range of cordless lawnmowers. **40v Battery and charger not included.**

- Powered by 40v Battery (Not incl.)
- 32cm Cutting Width
- 1.6mm Twisted Cutting Line
- Up to 80mins Run Time*
- Approx 40mins Charge Time
- 7500rpm No Load Speed
- 90° Lawn Edging
- Telescopic Shaft
- 4kg Weight (Including Battery)
- 40v Batteries Available Separately

*Battery run times based on ideal conditions

Complete 90° Lawn Edging

COBRA PETROL GENERATOR RANGE

A VERSATILE & ECONOMICAL POWER SOURCE

Cobra generators provide a clean, quiet and reliable source of power and are both convenient and cost-effective. These generators vary from 50cc - 208cc engines with 1.0kW - 3.2kW max outputs.

IG10SI

1.0kW Petrol Generator

The Cobra IG10SI generator provides a clean, quiet, reliable source of power whether you're in a caravan, camping or a motor home. Ideal for operating sensitive electronic devices such as computers, TV's & DVD's.

- 50cc Cobra, 4 Stroke Engine
- 230V Rated AC Voltage
- Up to 5hrs Run Time
- 900W Rated AC Output
- 1.0kW Max Output

COBRA
Powered By Cobra Engines
50cc COBRA ENGINE 2 *YEAR WARRANTY 1.0 KW OUTPUT

IG20SI

2.0kW Petrol Generator

The Cobra IG20SI is a powerful 2.0kW portable inverter generator which offers a versatile and economical source of electrical power for a wide range of both domestic and commercial uses.

- 79cc Cobra, 4 Stroke Engine
- 230V Rated AC Voltage
- Up to 6hrs Run Time
- 1.6kW Rated AC Output
- 2.0kW Max Output

COBRA

COBRA CHIPPER AND STUMP GRINDER RANGE

EFFICIENT, RELIABLE AND POWERFUL

Cobra wood chippers and stump grinders combine both strength and reliability with user friendly controls, comfort and durability.

SG15L

15hp Loncin Powered Heavy-Duty Stump Grinder

Introducing the new Cobra SG15L Stump Grinder. The SG15L can tackle tree stumps and root systems from 600mm above the ground to 235mm below ground. A powerful Loncin engine and 9 tungsten carbide teeth provide excellent results everytime.

- 15hp Loncin Engine
- Hand Propelled
- 235mm Cutting Depth Below Ground
- 600mm Cutting Depth Above Ground
- 300mm Cutting Wheel Diameter
- 90mm Cutting Wheel Thickness
- 9 Tungsten Carbide Teeth
- Pneumatic Tyres
- Easy Starting
- 110kg Weight

CHIP650L / CHIP650LE

Powerful 6.5hp 3" Wood Chipper

The CHIP650L is a 6.5hp wood chipper, is small and compact but powerful enough to easily chip branches up to 80mm / 3" diameter. The unique hinged design of the chute allows easy access to the blades. The slim design, large wheels and well balanced construction allows the chipper to be manoeuvred with ease.

The CHIP650LE model has all the above features but with the added benefit of an electric start Loncin engine.

- 6.5hp Loncin Engine
- 196cc Displacement
- 80mm / 3" Wood Diameter
- Twin Reversible Blades
- Protective Cover
- Emergency Safety Brake
- Unique Hinged Chute
- Eye / Ear / Hand Protection Incl.
- Hour Meter
- 92kg Weight

CHIP700L

4" Capacity Towable Petrol Wood Chipper

The Cobra CHIP700L is a towable Wood Chipper powered by a 7hp Loncin engine.

The CHIP700L will make short work of branches up to 100mm / 4" diameter whilst the unique hinged design of the chute allows easy access to the blades for servicing.

Tow via garden tractor only.

*Towable via Garden Tractor only - Not Road Legal

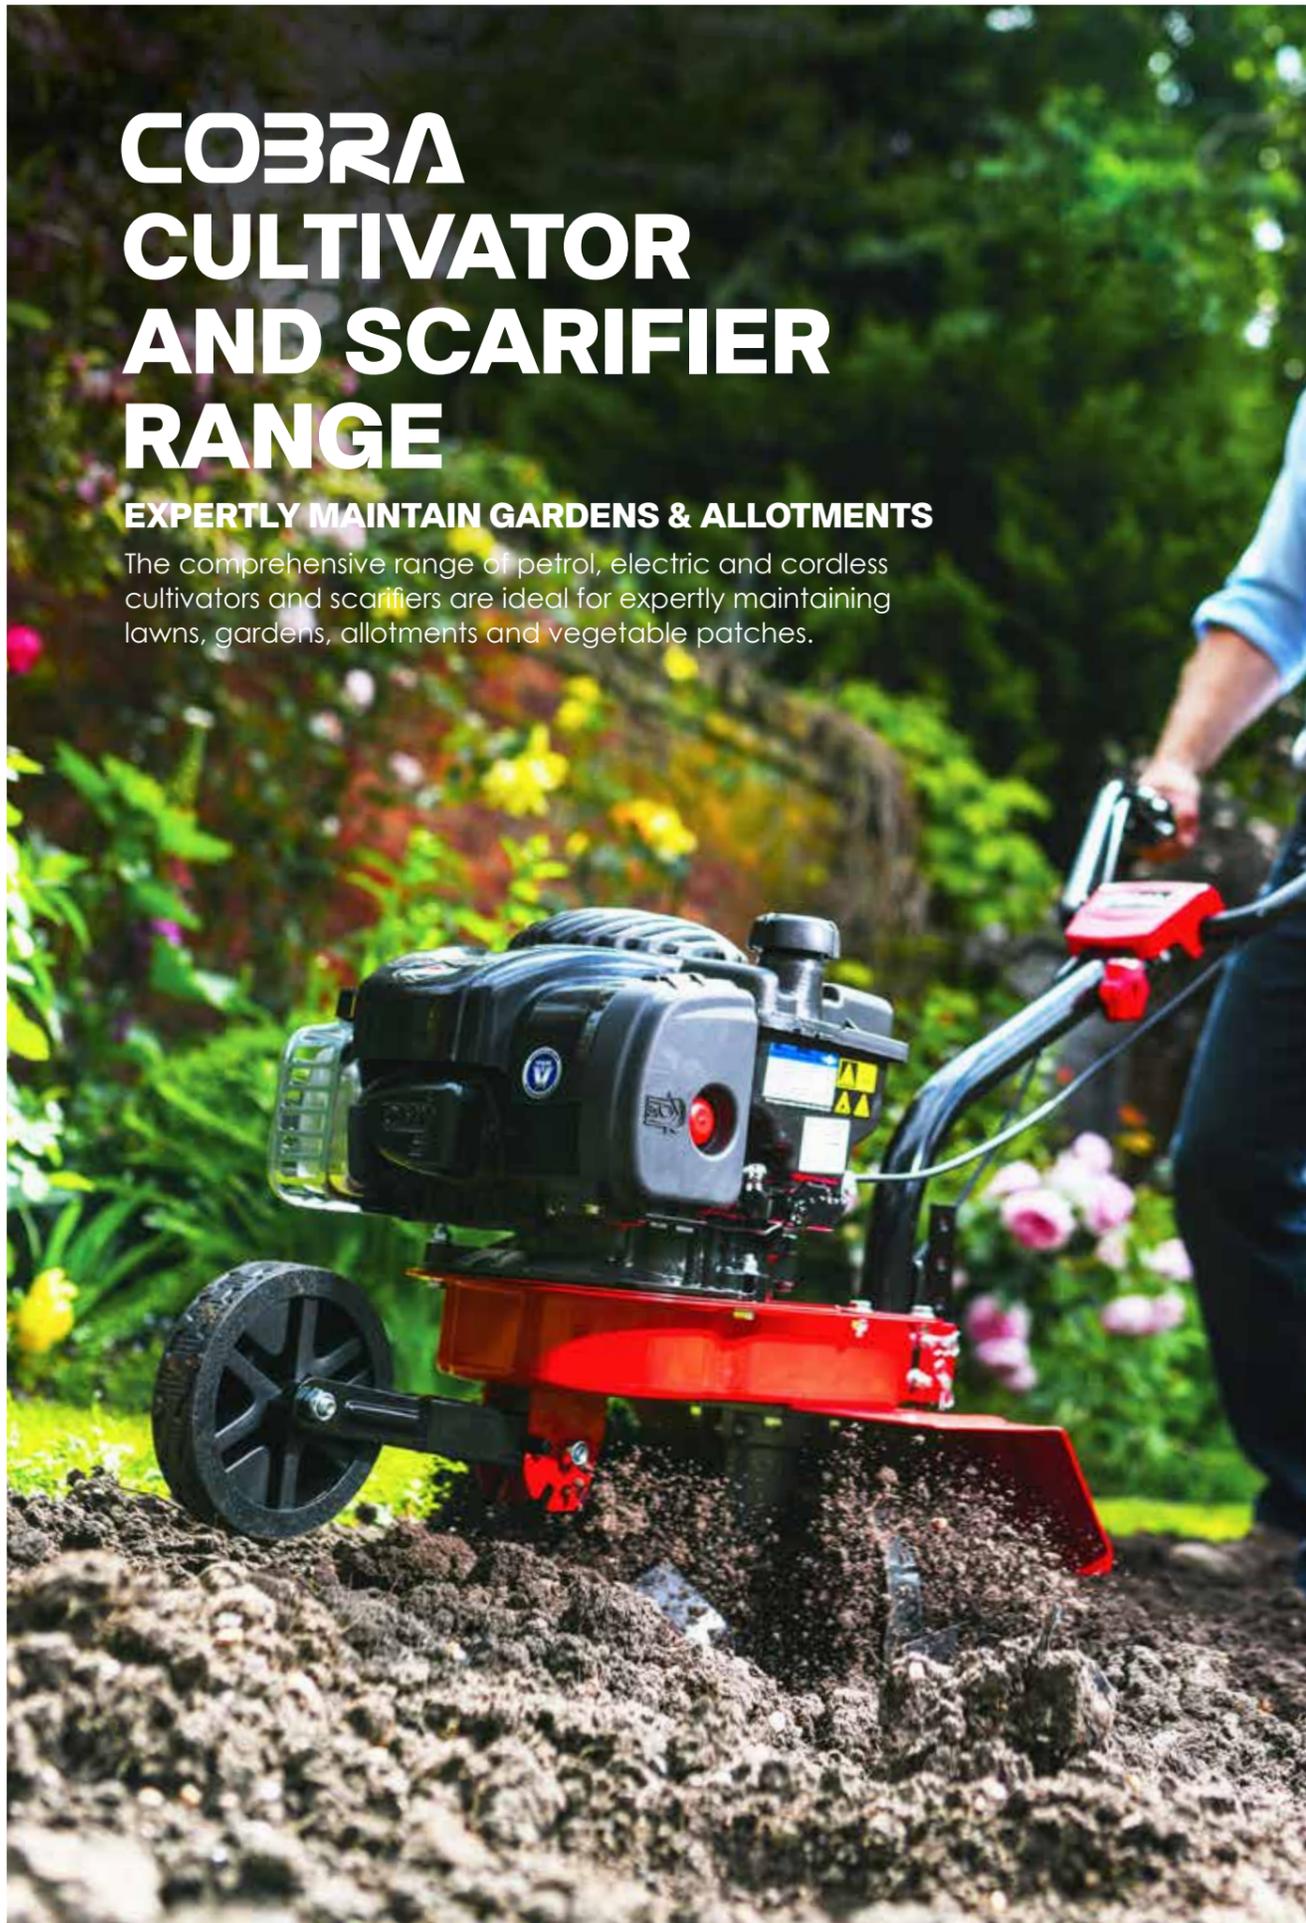

- 7.0hp Loncin Engine
- 212cc Displacement
- 100mm / 4" Wood Diameter
- Twin Reversible Blades
- Protective Cover
- Emergency Safety Brake
- Unique Hinged Chute
- *Towable
- Hour Meter
- 145kg Weight

COBRA CULTIVATOR AND SCARIFIER RANGE

EXPERTLY MAINTAIN GARDENS & ALLOTMENTS

The comprehensive range of petrol, electric and cordless cultivators and scarifiers are ideal for expertly maintaining lawns, gardens, allotments and vegetable patches.

T24C

10" Petrol Cultivator Powered by a Cobra Engine

The Cobra T24C cultivator is equipped with a powerful 43cc Cobra 2-Stroke engine and has a 10" tilling width for working in the tightest of areas. At just 16.2kg this cultivator is both lightweight & manoeuvrable.

SA32E

13" 2-in-1 Lawn Scarifier / Aerator with 1400W Motor

The SA32E electric scarifier has a powerful 1400W motor and two cylinders as standard. The scarifier cylinder has 36 spring tines and aerator has 12 steel blades for removing moss and thatch. The working depth is set using a single lever and you can select from four positions in the range -9 to +4mm.

- 1400W Rated Power
- 240V-50Hz Rated Voltage
- 32cm / 13" Working Width
- -9mm - +4mm Working Depth
- 4 Depth Adjustment Settings
- 40ltr Grass Bag Capacity
- Aerating 12 Blade Drum
- Scarifying 36 Tine Drum
- Foldable Handles
- 10kg Weight

Single Depth Adjustment

Easily adjust your working depth from -9mm - +4mm using one simple lever.

Operator Comfort Controls

Operate the SA32E scarifier using the ergonomically positioned controls.

Scarify & Aerate Cylinders

The SA32E comes complete with both scarifying and aerating cylinders.

S3840V

2-in-1 40v Li-ion Cordless Lawn Scarifier / Aerator

The Cobra S3840V cordless Lithium-ion scarifier has a 38cm / 15" working width, is hand propelled and will help remove moss and thatch from your lawn. Comes complete with a 22 spring tine scarifying cylinder and a 14 blade aerating cylinder for complete lawn care.

- 1x 40v 5Ah Li-ion Battery
- 38cm / 15" Working Width
- Depth Adjustment: -10 +5mm
- Aerating 14 Blade Cylinder
- Scarifying 22 Tine Cylinder
- Up to 40mins Run Time
- Approx 90mins Charge Time
- Hand Propelled
- Battery Power Indicator
- 14.5kg Weight (Without Battery)

*Battery run times based on ideal conditions.

Tool-less Handle Adjustment

Easily adjust the angle of your handles with comfortable tool-less adjusters.

40v Li-ion Cordless Power

The 5Ah 40v Li-ion battery gives you even greater run time. (up to 40mins)

Push Button Easy Starting

The S3840V is so simple to operate with its user friendly controls.

SA40E

Powerful Lawn Scarifier / Aerator with 1800W Motor

With its powerful 1800W motor and full 15" working width, the Cobra SA40E is fully equipped to gently remove any damaging moss or thatch from your lawn. Comes complete with a 22 spring tine scarifier cylinder and 14 blade aerator drum for ultimate flexibility to your lawn care.

- 1800W Rated Power
- 40cm / 15" Working Width
- -12mm - +8mm Working Depth
- Easy Depth Adjustment Settings
- 10m Cable Length
- 40ltr Grass Bag Capacity
- Aerating 14 Blade Drum
- Scarifying 22 Tine Drum
- 'Quick Release' Foldable Handles
- 12kg Weight

'Quick Change' Cylinders

Quickly change between scarifying and aerating cylinders without tools.

Simple Operator Controls

Starting the SA40E couldn't be easier with the simple intuitive controls.

Tool-less Handle Adjustment

Easily adjust the angle of your handles with comfortable tool-less adjusters.

S40C

2-in-1 Petrol Scarifier / Aerator Powered by Cobra

The Cobra S40C petrol scarifier helps make your lawn breathe. The interchangeable blade system which comprises of either a 18 blade aerator cylinder or 24 spring tine scarifier cylinder helps you easily scarify your lawn removing moss and thatch.

HS60S

56kg Stainless Steel Garden Spreader

The Cobra HS60S stainless steel walk behind spreader has a 56kg capacity and has many innovative features. The large 14" pneumatic tyres and a stainless steel construction make this a robust and durable garden spreader.

- 56kg / 60ltr Hopper Capacity
- 10' - 12' Spread Width
- 14" Pneumatic Tyres
- Deflector Kit Included
- Stainless Steel Gearing
- Easy Rate Setting Adjustment
- Screen & Rain Cover
- Plastic Hopper
- Stainless Steel Frame
- 18.5kg Weight

Photograph: Cobra HS60S

HS60S Overview

Robust Polymer Hopper

The Cobra HS60S spreader includes a long life, corrosion-resistant polymer hopper. The design of the hopper is such that the optimum throughput of spreading material is released without any getting stuck in the hopper.

Stainless Steel Construction

The stainless steel frame and gearing on the Cobra HS60S spreader make it not only robust, but resistant to rust. The high quality stainless steel build make this machine the perfect choice for spreading salt and grit.

Easy Variable Drop Rate

Using the intuitive and ergonomically positioned lever on the upper handles, the drop rate of the spreading material can be easily adjusted by the operator. This is all achieved without having to stop doing the job in hand.

HS23

22kg Walk Behind Garden Spreader

The Cobra HS23 walk behind spreader has a 22kg capacity and is packed with useful features. The pneumatic tyres make it ideal for use on rugged terrain and has an adjustable feed control.

- 22kg / 23ltr Hopper Capacity
- 10' - 12' Spread Width
- 12" Pneumatic Tyres
- Rust Resistant
- Powder Coated Finish
- Easy Rate Setting Adjustment
- Screen & Rain Cover
- Plastic Hopper
- Steel Construction
- 10.7kg Weight

HS26S

31kg Walk Behind Garden Spreader

The Cobra HS26S walk behind spreader has a 31kg capacity and has pneumatic tyres and deflector kit which make this spreader ideal for using fertilizer, seed, ice melt etc.

- 31kg / 26ltr Hopper Capacity
- 10' - 12' Spread Width
- Pneumatic Tyres
- Rust Resistant
- Metal Gearing
- Easy Rate Setting Adjustment
- Screen & Rain Cover
- Plastic Hopper
- Steel Frame
- 11.8kg Weight

HS60

56kg Walk Behind Garden Spreader

The HS60 spreader from Cobra has a 56kg capacity and has ergonomic controls for easy user operation. The adjustable feed control make this ideal for medium to large areas.

- 56kg / 60ltr Hopper Capacity
- 10' - 12' Spread Width
- 14" Pneumatic Tyres
- Rust Resistant
- Metal Gearing
- Easy Rate Setting Adjustment
- Screen & Rain Cover
- Plastic Hopper
- Steel Frame
- 17.5kg Weight

TS45

35kg Towable Spreader with Poly Hopper

Whether you are seeding, weeding or feeding your lawn, the TS45 with 35kg capacity is the tool for the job. The Cobra TS45 tow spreader has been designed for easy operation.

- 35kg / 45ltr Max. Capacity
- 8 - 10ft Spread Width
- 13 x 5" Pneumatic Tyres
- Towed
- Precision Rate Settings
- Steel Tube Frame
- Corrosion Free Poly Hopper
- Powder Coated Frame
- 1 Year Domestic Warranty
- 10kg Weight

PLS66

26" / 66cm Push Lawn / Garden Sweeper

The PLS66 push lawn sweeper has a 66cm working width and hard wearing brushes which are powered by the rotation of the wheels taking the hard work out of collecting garden debris.

- 66cm / 26" Working Width
- Simple Height Adjustment
- 200ltr Collector Capacity
- Transport Wheels
- Easy Lift Out Hopper
- Hand Propelled
- Robust / Durable Construction
- Hard Wearing Brushes
- 1 Year Domestic Warranty
- 17kg Weight

TLS97

38" / 97cm Push Lawn / Garden Sweeper

The Cobra TLS97 towed lawn sweeper has a highly productive 38" working width and a collector capacity of 339ltrs. This really is an invaluable addition for garden clearing tasks.

- 97cm / 38" Working Width
- Simple Height Adjustment
- Adjustable 10" Brushes
- 10" Wheels
- 339ltr Collector Capacity
- Easy Tip Hopper
- Towed
- Hard Wearing Brushes
- 1 Year Domestic Warranty
- 29kg Weight

ST150

150kg Sack Trolley with Telescopic Handles

The ST150 sack trolley from Cobra has a maximum capacity of 150kg and features telescopic handles and a folding base plate. The durable construction makes the ST150 ideal for tough jobs.

- 150kg Max. Capacity
- 10" Pneumatic Tyres
- Steel / Tubular Frame
- Telescopic Handles
- Folding Baseplate
- Plastic Knuckle Guards
- Wheel Guards
- Durable Construction
- 1 Year Domestic Warranty
- 10kg Weight (Empty)

ST200

200kg Sack Trolley with 10" Tyres

The Cobra ST200 sack trolley has a maximum capacity of 200kg, a tubular steel frame with 10" pneumatic tyres and is incredibly lightweight at just 12kg.

- 200kg Max. Capacity
- 10" Pneumatic Tyres
- Steel / Tubular Frame
- Loop Handle
- Durable Construction
- Quality Design
- Tilted Handle for Greater Leverage
- Durable Construction
- 1 Year Domestic Warranty
- 12kg Weight

TLS107

42" / 107cm Towed Lawn / Garden Sweeper

The Cobra TLS107 will take the hard work out of collecting leaves and other garden debris. It has a large 42" working width and a collector capacity of 365ltrs.

- 107cm / 42" Working Width
- Simple Height Adjustment
- Adjustable 10" Brushes
- 10" Wheels
- 365ltr Collector Capacity
- Easy Tip Hopper
- Towed
- Hard Wearing Brushes
- 1 Year Domestic Warranty
- 33kg Weight

LR40

20" Garden Roller with Debris Scraper Bar

The Cobra LR40 garden roller has been designed for easy operation and to create a beautiful striped finish. The 50cm / 20" roller drum can be filled with either sand or water.

- 50cm / 20" Working Width
- 120kg (Sand) Max. Capacity
- 72kg (Water) Max. Capacity
- 50cm / 20" Working Width
- Full Width Scraper Bar
- 1 Year Domestic Warranty
- Folding Handles
- Soft Grip Handle
- Drain Plug Included
- 13kg Weight (Empty)

ST210

200kg Sack Trolley with Knuckle Guards

With exceptional performance and style, the Cobra ST210 sack trolley has a maximum capacity of 200kg and features a tubular steel frame, pneumatic wheels and knuckle guards.

- 200kg Max. Capacity
- Pneumatic Tyres
- Steel / Tubular Frame
- Fixed & Folding Baseplate Area
- Durable Construction
- Quality Design
- Rubber Knuckle Guard
- Wheel Guards
- 1 Year Domestic Warranty
- 13kg Weight

ST250

2-in-1 200kg Sack Trolley & Flatbed Trolley

The Cobra ST250 2-in-1 sack trolley has a maximum capacity of 200kg and can be changed to be used as either a standard sack trolley or a flatbed truck within seconds.

- 200kg Max. Capacity
- Pneumatic Tyres
- Castor Wheels

AFTER SALES

Trust Cobra to support you throughout the lifetime of your product

Cobra After-Sales provides a wide variety of support, including assistance from your local dealer, such as servicing, repairs and maintenance support.

Below is an overview of the support that you can tap into. Alternatively you can call the Cobra Support line on **0115 986 6646** or email any queries or questions to: info@cobragarden.co.uk

BATTERY RECYCLING

Industrial Batteries

As a producer of Lithium-Ion industrial batteries, under the Waste Batteries and Accumulators Regulations 2009, Cobra Garden are obliged to take back free of charge, waste industrial batteries supplied to an end user for treatment and recycling. We are required to do this in any calendar year we place new industrial batteries on the market.

If any of our customers or in certain cases other end users, require us to take back Cobra Garden Lithium-Ion industrial batteries, please contact us using the contact details below. We will agree the necessary arrangements for the return, proper treatment and recycling of these waste industrial batteries using BatteryBack.

Alternatively, batteries can be taken direct to a BatteryBack collection point using the locator at:

www.batteryback.org/battery-collection.html

WARRANTY

Cobra products are covered by our comprehensive warranty

Our comprehensive warranty covers you in the unlikely event that your machine requires repair due to a manufacturing defect. The Cobra authorised dealer is obliged under this warranty to repair or replace defective parts found during the machines warranty period. This repair will be free of charge for materials and labour only. This warranty will not cover wear and tear parts such as blades, spark plugs, filters, drive belts, cables etc. Please Note: Manufacturers Engine and Battery warranty periods may differ from that of the machine.

In the event of your machine needing warranty repair please note the following:

We would always recommend the company that sold you the machine should be able to carry out the repair. In the event that they are unable to do so please locate your nearest stocking dealer with the dealer locator off the home page.

Or contact us at: info@cobragarden.co.uk

Domestic Use:

All Cobra products in the current Cobra portfolio are covered for a period of 2 years* from the date of purchase to the original purchaser. This applies when used for the designed purpose of that product by domestic users.

2 year warranty excludes Professional Lawnmowers and Lawn Tractors (5 Years) Garden Carts, Trailers, Spreaders, Sweepers, Sack Trolleys and Garden Rollers (1 Year) *Terms & Conditions apply.

Professional Use:

All Cobra Products stated are covered for a period of 1 year* from the date of purchase to the original purchaser. This applies when used for the designed purpose of that product by semi-professional and professional users.

Cobra Fortis Range (1 Year) Cobra AirMow 51 Pro Hover (1 Year), Kawasaki powered hand held products (1 Year), Cobra S-Series powered hand held products (1 Year), Cobra Professional Lawnmowers (2 Years).

*1 year warranty excludes Professional Lawnmowers (2 Years).

Professional Lawnmowers, Domestic Use:

All Professional Lawnmowers in the current Cobra portfolio are covered for a period of 5 years from the date of purchase to the original purchaser. This applies when used for the designed purpose of that product by domestic users.

Professional Lawnmowers, Professional Use:

All Professional Lawnmowers in the current Cobra portfolio are covered for a period of 2 years from the date of purchase to the original purchaser. This applies when used for the designed purpose of that product by semi-professional and professional users.

Lawn Tractors & Ride-ons:

Cobra Riders & Lawn Tractors are covered for a period of 2 years from the date of purchase to the original purchaser. A further 3 years limited warranty is available subject to registration, reasonable homeowner use and annual servicing by an approved Cobra dealer.

The Cobra dealer will require evidence that the annual services were completed throughout the period of ownership for the warranty to be extended. Cobra Riders & Lawn Tractors will not be covered if used in a commercial application.

Your Cobra Rider or Lawn Tractor must be serviced each year by a Cobra approved dealer to qualify for warranty.

EGO Batteries & Chargers:

All Ego Batteries and Chargers are covered by the manufacturers warranty period.

REPAIR / RETURNING FAULTY GOODS

If your product fails due to a defect in materials or workmanship within the warranty period it will be repaired or replaced at no charge providing that the repairs are carried out by an approved Cobra dealer. Delivery and collection of the machine is your responsibility and not covered by the warranty.

Items should be received in a good condition, with all component parts and manuals, along with any promotional items received. You should also include your invoice and returns form.

Note: Please ensure all petrol driven products are drained of fuel and oil, due to the road transport regulation.

Please package your item securely to prevent damage during transportation, in the original box or a suitable box secured with clear tape (Not brown parcel tape), along with your invoice and a completed Returns Form and label. You can obtain a label from speaking directly to customer services team on **0115 986 6646** – machinery returns / warranty.

Note: If no fault is found with the product, the product will be returned and a handling charge of a minimum of £30.00 will apply.

If a box is required, this can be purchased at a non-refundable cost of £15.00 inc vat

CUSTOMER RESPONSIBILITIES

It is important to have your machinery properly maintained and serviced. There are specific service intervals for your machinery. It is your responsibility to ensure that this is done. Failure to carry out the required maintenance could result in your warranty being invalidated. Please refer to your owner's manual for service intervals and maintenance requirements.

Please note that your product will require more regular servicing / maintenance if working in very wet, dry, dusty conditions and or in high ambient temperatures.

COBRA PARTS & ACCESSORIES

In all cases we recommend that you only use genuine Cobra parts and accessories. Inferior parts can cause damage to you, your machine and invalidate your warranty. If you require spare parts or accessories please visit; www.cobragarden.co.uk or call **0115 986 5246**.

COBRA DEALER NETWORK

We have a comprehensive dealer network with over 400 servicing dealers. Please visit www.cobragarden.co.uk to find your nearest dealer, who would only be too happy to help you with any of your enquiries.
