Experience Fijian Culture --

Fiji, officially the Republic of Fiji is an island country in Melanesia, part of Oceania in the South Pacific Ocean, northeast of New Zealand...

Fiji consists of more than 330 islands—of which 110 are permanently inhabited—and more than 500 islets. Some say we came from South Africa, some say Egypt but the most widely known traditional legend traces the descent of the Fijian people through some ten generations to one canoe and one voyage. The people were said to have come from Thebes, Egypt and traveled up the Nile to Tanganyika, eventually migrating from Africa to Fiji in 500 BC

Traditional Fijian culture and customs are enchanting, especially the songs of welcome. Virtually everywhere you go, you'll be serenaded by warm smiles, friendly waves and the strains of island music. Sometimes the music even reaches your ears when you're out at sea, paddle boarding or snorkeling, to find yourself admiring colorful fish.

Indigenous Fijian feasts are cooked in a 'lovo', an underground earth oven heated by hot stones. This slow-cook technique produces beautifully tender food with great flavour and a light smokiness.
