

Dear 2020 Travelers,

The Coronavirus (“COVIC-19”) Pandemic continues to affect all areas of our lives, including our ability to travel both domestically and internationally. We understand many travelers are anxiously looking forward to enjoying the experience of visiting some of the wonderful destinations the world has to offer. However, with the current travel restrictions we are unable to do so.

Safety is very important to us therefore we’re monitoring developments related to COVIC-19 and are taking all appropriate precautions. We want to assure you that we are constantly in communication with our industry suppliers. Having worked with them for many years, we have developed a strong, effective and secure relationship. We are confident they are working along with us to meet the needs of our travelers. No one can predict when the opportunity to travel will unfold, however, if needed the industry does provide for postponed trips to have a minimum one year from the original 2020 departure date to complete the scheduled tour without penalty.

We will continue to follow the CDC, U.S. State Department, international travel advisories and health authority recommendations in an effort to address this unfortunate situation one day at a time. We want you to be confident and assured that Champion Services Travel is committed to keeping you informed of any changes to our travel plans.

We value your patronage and greatly appreciate you selecting Champion Services Travel as your tour coordinator. It is our responsibility to provide you with the same standard of expertise that has earned us an excellent track record for more than 30 years of service. We would like to sincerely thank you for your patience as we work through the challenges caused by COVIC-19.
