

Champion Services Travel Business Trade Mission Statement

Champion Services Travel (CST) has developed a business trade mission including vacation tours to South Africa (SA), Johannesburg, and Cape Town. CST is presenting you with the opportunity to join us in a coordinated effort to introduce African-American business owners of goods and services to establish business relationships with like-minded South African business owners.

The South African Chamber of Commerce and Industry (SACCI) is partnering with CST to align businesses with mutual interests to meet and greet in luxury accommodations in two historic South African cities. CST also has an incredible tourism itinerary and accommodations to augment your SA experience in Johannesburg, Safari, and Cape Town. Come, and begin your commercial journey through travel.

CST has benefited much from its growth in part, as a participant in its first business trade mission in 1998. CST now enjoys a network of industry contacts that has solidified a family-like bond over decades. We want to extend this opportunity to businesses seeking to grow their business connections internationally.

Don't miss out on this extraordinary opportunity to expand your business network as well as your global market. This business trade mission organized by CST is the most affordable way to combine global business opportunities with enjoying some of the most beautiful vistas and lavish accommodations in Africa.

There is no better way to begin an international trade journey than to meet face-to-face, establish goals, and begin. Whether you are a writer, teacher, musician, computer technician, clothing designer, etc. All are welcome. Bring your business potential and let CST provide memories and possible connections you will have for life.
