Project Location

Near junction of Avenue A and 170th Street West, in the western Antelope Valley area of eastern Kern County.

Project Description:

Modification of the WSWB facilities plan, including: modification of the wellfield and recharge basin areas; increase in the number of recovery wells; increases in the volumes of water to be recharged, recovered, and stored in the groundwater basin; modification of supply pipeline corridors; and other project changes. Pursuant to CEQA Guidelines Section 15164(c), since the modified facilities plan will not result in new or more severe significant impacts than identified in the certified EIR, no public review of the EIR Addendum is required.

This is to advise that the Rosamond Community Services District Board of Directors has approved the above described project on August 21, 2018 and has made the following determinations regarding the above described project:

1. The project will not have a significant effect on the environment beyond those described in the certified EIR on the Antelope Valley Water Bank Project (2006).
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA, and was certified by the Kern County Board of Supervisors on September 12, 2006.
3. Mitigation measures were not made a condition of the approval of the project.
4. A Mitigation Monitoring and Reporting Program was not adopted for this project.
5. A Statement of Overriding Considerations was not adopted for this project.
6. Findings were made pursuant to the provisions of CEQA.

This is to certify that the Addendum to the Willow Springs Water Bank Project (formerly Antelope Valley Water Bank Project) EIR (2006) and record of project approval is available to the General Public at the Rosamond Community Services District, 3179 35th Street West, Rosamond, California.
