**et al. v. The State
et al.**

Sasha Latypova,
Katherine Watt,
Michael Yeadon,
Joseph Sansone

These written statements also contain a large number of hyperlinks, which is why they are being submitted in the form of digital files.

This provides your court with lawful and convincing evidence that the Covid-19 injections are, in reality, a biological weapon, which is also relevant to the scope that the procedural debate should be given at the oral hearing yet to be scheduled and in the further proceedings of this case. In the plaintiffs' view, this information necessitates that an oral hearing be scheduled at the earliest possible opportunity. Furthermore, it should be reiterated that, in the plaintiffs' view, it is incumbent upon you, as the presiding and responsible judges in this case, to file a criminal complaint against the defendants on suspicion of democide and genocide respectively.

Given that it is of great importance, both procedurally and socially, that you view the video messages addressed to you as soon as possible, I am also sending them to you in the form of a download link. The importance of viewing these video messages promptly naturally also applies to the defendants' legal representatives. These links are included below:
