APPLICATION FOR TRAINEE TRAVEL AWARD

These awards are for individuals who are still in training, namely undergraduate or graduate students and postdoctoral fellows (including clinical fellows). The applicant must be the first author and presenter of an abstract. Awards will be based on the scientific merit of the abstract submitted. Documentation of training status is required on this form by signature of the applicant's mentor or program advisor. In order to maximize the number of trainees we can recognize with these awards, please note that previous winners of Vitamin D Workshop travel awards are not eligible for another award.

Winners will present their work as either a poster or an oral communication. We anticipate that up to 20 Trainee Travel awards of approximately \$500 each will be available for 2019.
