Instructions to Authors

Journal of Steroid Biochemistry and Molecular Biology

Special Issue – Proceedings of the 23rd Vitamin D Workshop

The Journal of Steroid Biochemistry and Molecular Biology (JSBMB) will publish a Special Issue of peer-reviewed manuscripts describing research presented at the 23rd Vitamin D Workshop. All workshop delegates who present a promoted talk or a poster at the Workshop are encouraged to submit a full-length manuscript to the Special Issue. Manuscripts must contain previously unpublished work based on the conference presentation. Only Invited Speakers, who have been invited to provide a manuscript summarizing their platform presentation, may submit review articles.

Please note that all manuscripts submitted for the Proceedings will be peer-reviewed according to standard JSBMB criteria and therefore acceptance is not guaranteed. Refer to the online JSBMB *Instructions for Authors* at <https://www.elsevier.com/journals/the-journal-of-steroid-biochemistry-and-molecular-biology/0960-0760/guide-for-authors> for detailed submission guidelines.

Manuscripts must be original publications thereby precluding submission of data that has been published or is accepted for publication elsewhere. Please note that a plagiarism check for duplicate content is standard practice at the journal.

Submission Procedures:

- Manuscripts for the Vitamin D Workshop Special Issue must be submitted electronically.
- Deadline for on-line submissions for the Special Issue is **December 1, 2021**.
- The submission website for JSBMB is <https://www.editorialmanager.com/sbmb/default1.aspx>
- During the submission process, authors must indicate that the manuscript is to be considered for publication in the Special Issue of the 23rd Vitamin D Workshop. To do this, select “**VSI: 2021 Vitamin D Workshop**” when you reach the “**Article type**” step in the submission process.

*Vitamin D Workshop: a 501(3) c non-profit dedicated to
scientific research conferences on Vitamin D*
