Discussion: The Analogy, Present State, Leadership, Motivation & Abilities, Future State

1. The Rubik's® Cube Analogy:

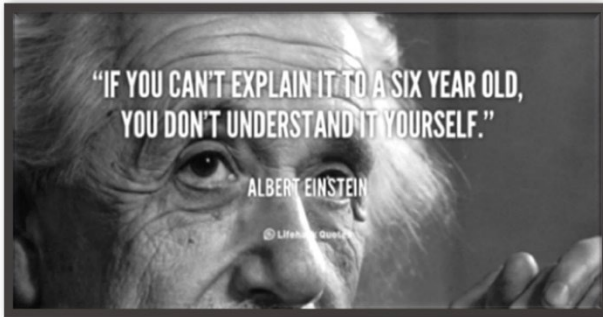

2. What's your Leadership Style, Motivation & Ability?

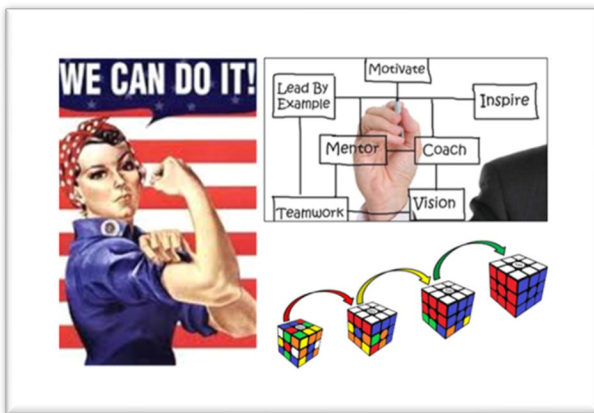

“Leadership strategies discussed during this workshop, can be implemented on day one.”

“Keeping it Simple”

3. A good leadership style, combined with a good alignment strategy, is very similar to solving the Rubik's Cube.

“Turning complexity into clarity one layer at a time.”

“We'll solve a Rubik's Cube during this Workshop.”

4. Alignment planning for performance. Five ways to set your people up for success:
 - Leadership needs to be on the same page.
 - Set clear goals for each individual employee.
 - Connect the dots with your employees and product lines goals with Leadership goals (Rubik's® Cube analogy).
 - Structure work properly (some will be very achievable, some will be more of a stretch).
 - Properly diagnose employee development level (i.e., using Blanchard's SLII®).
5. Getting started: Contact Continuous Process Improvement Consulting LLC. a Service-Disabled Veteran Owned Small Business (SDVOSB).
 - You'll discover how to get everyone on your team moving in the same direction, with clear, engaging priorities that align with your organization's goals.
 - "The Leadership Cube™" book will be provided to all attendees of *Company Sponsored Workshops*.
