

Entertainment Production Accounting, Inc.

Senior Production Accounting Team • Film • Television • Post

Experienced Production Accounting Team Supporting Film & Television from Prep Through Delivery

Entertainment Production Accounting provides senior-level accounting support across feature films, episodic television, and post-production. Our team brings decades of combined experience working within complex production environments, delivering accurate, efficient, and scalable financial operations without the overhead of building an internal department.

Proven Experience Across Major Productions

- Decades of combined experience in feature films and episodic television
- Experience supporting studio, streaming, and independent productions
- Deep understanding of complex production workflows and reporting requirements
- Proven ability to manage multi-project, high-volume environments

Removing the Burden from Production

- Production teams can focus on creative and operational priorities
- No need to manage or supervise internal accounting staff
- Confidence that reporting, payroll, and compliance are fully handled
- Reduced stress around deadlines, audits, and financial accuracy
- Clear financial visibility at every stage of production

We take ownership of the financial side of production so your team can focus on making the show.

Why Productions Choose EPA

- Full accounting team vs reliance on a single individual
- Eliminate payroll taxes, fringes, and internal overhead
- Immediate deployment into active productions
- Scalable support across multiple concurrent projects
- Consistent, reliable execution across all phases of production

Production Accounting Services

- Prep, Shoot & Post Accounting
- Cost Reporting & Forecasting
- Accounts Payable & Vendor Management
- Payroll & Union Compliance (SAG, DGA, WGA, IATSE)

Financial Oversight & Compliance

- Cash Flow & Funding Management
- Tax Incentives & Rebate Tracking
- Audit Support (Guild, Pension, Insurance)
- Bank Recs, 1099s & Year-End Reporting

Seamless Integration Across All Platforms

- Fully capable of working within any proprietary studio or production accounting systems
- Experienced with all major industry platforms (SmartAccounting, PSL, Movie Magic, Greenslate, Vista, etc.)
- Able to integrate with any payroll provider or service used by production
- No disruption to existing workflows, systems, or reporting structures
- **We integrate into your system — not the other way around.**

Why Not Hire Internally?

- Single hire creates operational dependency and risk
- Turnover disrupts production continuity
- Payroll, benefits, and fringes increase total cost
- Limited bandwidth across multiple productions
- **EPA provides full team coverage, continuity, and lower total cost**

EPA is not a vendor — we are a production partner.

We provide stability, accuracy, and peace of mind so production teams can focus on execution, not accounting.
