

Wooden Toy Car Garage

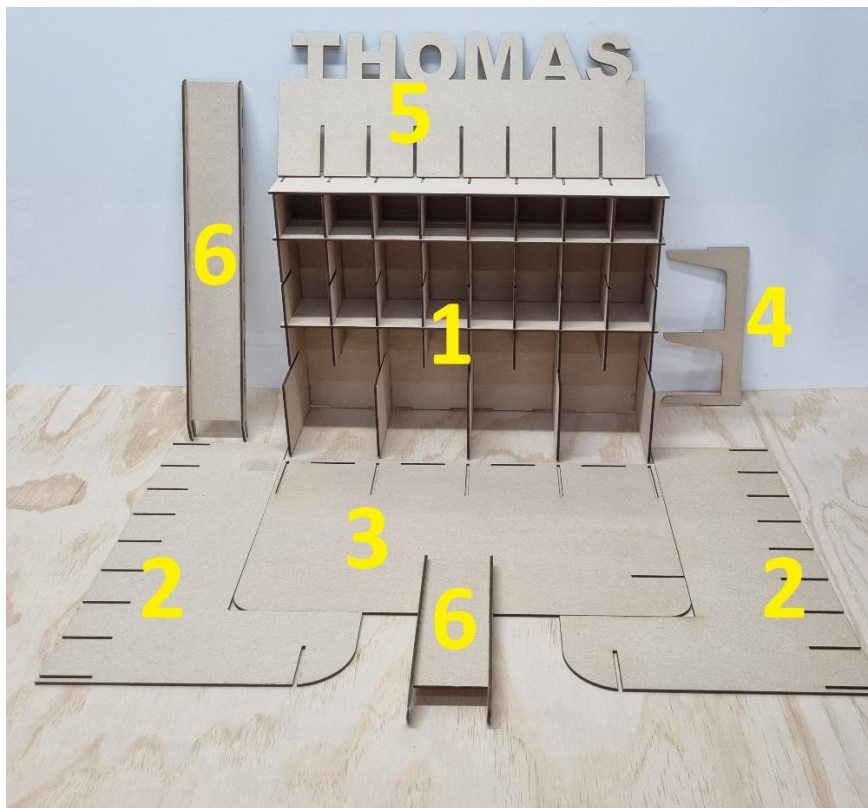

Assembly Instructions

Included in this Kit

1. Garage Parking Bays
2. 2 x Ramp Driveways
3. Garage Base
4. Ramp Driveway Support
5. Name Sign
6. Lower and Upper Ramp

ALSO 1 X Tube Sper Glue Please Keep Safe

NOTE

- If you Glue the parts that you assemble, Try to put it on the Underside so it will not show. You should only need a smal drop on the parts
- This is supplied Raw as you may want to paint it. Use a Child Safe Waterbased Paint or you can seal it with a Waterbased sealer

**I Recommend that you firstly try to assemble this
as a Dry Fit. (No Adhesive)**

Gently slide the 2 x Ramp Driveways (2) into the 2
empty slot spaces on (1)

Make sure the Ramp Driveways (2) are both in the
same direction

Place Garage Parking (1) upright and fit into slots of
Garage Base (3)

Then take the Ramp Driveway Support (4) and slide it
into the 3 corresponding slots on Ramp Driveways &
Base

Take the Name Sign (5) and line it up with the slot across back of roof top

Slide it down it it fits between the Roof top & top parking bays row. (You may have to tap it into place for snug fit).

The 2 X Ramps can be placed in any configuration to suit your toddlers desire

Hopefully this has come together well for you and your toddler will have hours of fun

If you have any problems you can contact me on the details below

If you are Happy with this , Feel free to leave a Review on my Facebook page – **BOYS GIFTS WA**

Thank You
