

305 Bluff St.

This house was built in 1886 from local yellow bricks. The bricks could very well have come from brick factory near the Heaton farm on Co. Rd. 75. The house is of the Queen Anne Style. The original owners were Dr. I. Leslie Edmunds and his wife Jennie. Jennie was the older sister of Dr. Gilbert Tollington. Today it is owned by Marie Kirchner, but has had many different owners over the years, and there has been several reports that it is haunted. Former owners say that at times you can hear a baby cry. A number of babies were delivered in this house, but it is not known if any of them died here. Perhaps that is why one hears the eerie sounds.
