SIGNATURE TREATMENT

Patient's Guide

Exclusive Laser Therapy | Build Collagen, Contour, Improve Facial Tissues, and Smooth Skin

We use Fotona lasers, which are the finest quality medical grade laser systems with the ability to drastically improve facial tissues, contouring and smoothness by building collagen using laser light therapy. Lasers are the standard of care for removal of age spots, moles, and facial varicose veins. ❁ Bio-CARE® takes the ❁ Bio-PRF Lift® procedure one step further to enhance facial rejuvenation by adding Smoothlase, Liplase, and laser peel using Nd:Yag and Er:Yag by Fotona.

THE ALL-INCLUSIVE VIP PACKAGE COMBINES THE ADVANTAGES OF LASER + PRF TREATMENTS ❁

❁ BIO-CARE® TREATMENT

The most Advanced Natural
Regenerative Strategy offered at
CARE Esthetics®

Our ❁ Bio-CARE® Signature Treatment includes:

Step 1 Stimulate collagen production using
SmoothLase & LipLase laser therapy

- SmoothLase is one of the signature treatments of the Fotona Laser system featuring the ability to regrow and stimulate collagen from the inside of the mouth.
- LipLase enhances lips to give a fuller, more natural appearance through the use of laser energy.

Step 2 Laser peel

- Laser peel use the procedure most commonly desired by celebrities and actors to improve collagen regeneration of the skin.

Step 3 Microneedling with PRF

- Microneedling with PRF enhances facial skin rejuvenation.

Step 4 Customized treatment plan using fillers (our Bio-Fillers®)

- Bio-Filler® technology was launched as a 100% all natural way to use PRF as a natural biological filler (Bio-Filler®).

Step 5 COMPLIMENTARY REMOVAL of moles, veins and age spots

Each patient receives a personalized treatment plan
using 100% natural procedures.
